Leafy Green Vegetables Handled in the United States; Hearing on Proposed Marketing Agreement No. 970

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule; notice of public hearing.

SUMMARY: Notice is hereby given of a public hearing to consider a proposed marketing agreement under the Agricultural Marketing Agreement Act of 1937 to cover the handling of leafy green vegetables and products in the United States. The proposal was submitted by a cross-section of producer and handler representatives from the fresh produce industry, collectively referred to as the "proponent group." The proposed agreement would authorize the development and implementation of production and handling regulations (metrics). Such metrics would reflect Good Agricultural Practices, Good Handling Practices, and Good Manufacturing Practices. The proposal would be voluntary in that only handlers who sign the marketing agreement would be subject to the requirements of the marketing agreement. Signatory handlers could only handle leafy green vegetables or product from the production area or imported that meets the requirements of the program. The program would be financed by assessments on first handlers of leafy green vegetables for the fresh market and would be administered by a twenty-three member committee, the majority of whom would be growers and handlers nominated by the industry and appointed by the Department of Agriculture (USDA).

DATES: The hearing dates are:

1. September 22 through 24, 2009, Monterey, California.

Background

In mid-September 2006, the FDA issued the first public alerts of a multi-state *Escherichia coli* (*E. coli*) outbreak linked to fresh spinach grown in California's Salinas Valley. The resulting recall was the largest ever for leafy green products. Investigations by the FDA and the California Department of Health Services, in cooperation with the Centers for Disease Control and Prevention and USDA's Animal and Plant Health Inspection Service, concluded that the *E. coli* contamination might have been attributed to environmental factors in the production area.

In response to this outbreak, members of the California industry initiated the establishment of a State marketing agreement for handlers of leafy greens, which became effective February 10, 2007. Currently, signatory handlers under the California state program represent 99 percent of leafy green vegetable production volume in that state. In October 2007, a similar program was implemented in Arizona, which covers approximately 75 percent of leafy green vegetables produced in the state. While both the California and Arizona programs are voluntary, the requirements of these state agreements are mandatory for all signatories.

On October 4, 2007, USDA's Agricultural Marketing Service (AMS) published an Advance Notice of Proposed Rulemaking (ANPR) in the **Federal Register** (72 FR 56678) in response to industry interest in the establishment of a national marketing program to address the handling of fresh leafy green vegetables. Proposals and comments were sought from the public, particularly from growers, handlers, buyers, and sellers of leafy green commodities.

The ANPR resulted in the submission and consideration of 3,500 public comments on the need and level of support for a nationwide best practices program. These comments may be viewed at <http://www.regulations.gov/search/Regs/home.html#searchResults?Ne=11+8+8053+8098+8074+8066+8084+1&Ntt=AMS-FV-07-0090&Ntk=All&Ntx=mode+matchall&N=0>.

Proposed Marketing Agreement

On June 10, 2009, a petition for rulemaking requesting a public hearing on a proposed national marketing agreement for lettuce, spinach and other leafy greens was submitted to AMS. The proposal was submitted by a group of representatives (proponents) of a cross-section of producer and handler members of the fresh produce industry. The proponent group is comprised of: United Fresh Produce Association, Produce Marketing Association, Georgia Fresh Vegetable Association, Georgia Farm Bureau, Texas Fresh Vegetable Association, Arizona Farm Bureau, Leafy Greens Council, California Farm Bureau, California Leafy Greens Products Handler Marketing Agreement, Grower-Shipper Association of Central California, Western Growers, and the Imperial Valley Vegetable Growers Association. The proponents, whose membership includes both conventional and organic producers and handlers, claim to represent a majority of the volume of leafy green vegetables produced for the U.S. fresh market.

Proponents of the proposed program support the systematic application of good agricultural production, handling, and manufacturing under an auditable, science-based program. Proponents state that the proposed program is intended to minimize the potential for microbial contamination in production and handling systems, and would improve consumer confidence of fresh leafy green vegetables and their products in the marketplace.

Presently, there are no mandatory national food quality or safety requirements for the growing and handling of leafy green vegetables. Processing facilities, however, are subject to current good manufacturing practices as provided for in FDA Title 21, Part 110 of the Code of Federal Regulations.

USDA has quality grade standards for select leafy green vegetables (lettuce, endive, dandelion and cabbage), and offers voluntary quality related programs for fresh fruits and vegetables (Qualified Through Verification, Partners in Quality, Identity Preservation, and Domestic Origin Verification programs), as well as Good Agricultural and Good Handling Practices Audit Verification Programs.

Two FDA documents provide guidelines for the fresh produce industry and leafy green supply chain: Guide to Minimize Microbial Food Safety Hazards for Fresh Fruits and Vegetables, and Commodity Specific Food Safety Guidelines for Lettuce and Leafy Greens Supply Chain. Recently, a third FDA document was published as draft guidelines for leafy greens. All these documents may be viewed at <http://www.fda.gov>.

If the proposed national marketing agreement were implemented, the administrative committee, after consultation with the proposed Technical Review Board, would recommend audit metrics for USDA approval. These metrics would be science-based, scalable and regionally applicable in order to accommodate compliance of varying size and types of operations.

As a voluntary program, only signatory handlers to the proposed agreement would be regulated. Under the proposed agreement, signatory handlers could only handle leafy green vegetables from (1) producers within the production area who meet the requirements of the program, or (2) producers and handlers outside the production area who meet the requirements of the program. The production area is defined as the 50 states and the District of Columbia. Audits would be conducted by the

USDA Inspection Service, and would include both domestic and imported product handled by signatory handlers.

The proposed program would be financed by assessments collected from first handlers on the volume of leafy green vegetables handled for the fresh market. Such assessments would include costs of domestic audit verification for first handlers and their producers. First handlers would also be responsible for fees for audit verification services provided for their imported leafy green vegetables or products. Secondary signatory handlers would be responsible for fees for audit verification services for leafy green vegetables or products handled by such handler.

The proponent group states that the proposed agreement has been discussed with leafy green vegetable growers, handlers, including those importing leafy greens, trade associations, and other industry stakeholders for more than a year. The proposal discussed herein has not received approval by the Secretary of Agriculture.

Testimony is invited at the hearing on the proposed marketing agreement and all of its provisions, as well as any appropriate modifications or alternatives.

The public hearing is held for the purpose of:

(a) Receiving evidence about the economic and marketing conditions that relate to the proposed agreement and to appropriate modifications thereof;

(b) Determining whether the handling of leafy green products within the production area is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce and foreign commerce;

(c) Determining whether there is a need for a marketing agreement for leafy green vegetables;

(d) Determining the economic impact of the proposed agreement on the affected leafy green growers, handlers, other industry members and consumers; and,

(e) Determining whether the proposed agreement or any appropriate modification thereof would effectuate the declared policy of the Act.

All persons wishing to submit written material as evidence at the hearing should be prepared to submit four copies of such material at the hearing and should have prepared testimony available for presentation at the hearing. Where possible, all submitted written material should also be accompanied by an electronic copy in digital format. To the extent possible, all exhibits, including copies of prepared testimony, accepted into evidence during the hearing process will be available for

viewing by interested parties at <http://www.ams.usda.gov/moab>.

From the time the notice of hearing is issued and until the issuance of a Secretary's decision in this proceeding, USDA employees involved in the decisional process are prohibited from discussing the merits of the hearing issues on an ex-parte basis with any person having an interest in the proceeding. The prohibition applies to employees in the following organizational units: Office of the Secretary of Agriculture; Office of the Administrator, AMS; Office of the General Counsel; and the Fruit and Vegetable Programs, AMS.

Procedural matters are not subject to the above prohibition and may be discussed at any time.

Provisions of the proposed marketing agreement follow.

(h) To investigate the production, handling and marketing of leafy green vegetables and to assemble data in connection therewith; and,

(i) To furnish such available information as may be deemed pertinent or as requested by the Secretary.

Expenses and Assessments

§ 970.55 Expenses.

The Committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each crop year for the

maintenance and functioning of the Committee, including the payment of audit and inspection fees, and for such other purposes as the Secretary may, pursuant to the provisions of this part, determine to be appropriate. Such expenses shall be paid from assessments received pursuant to § 970.56 and other funds available to the Committee.

§ 970.56 Assessments.

(a) Each first handler shall pay to the Committee such handler's pro rata share of the Committee's expenses authorized by the Secretary for each crop year. The payment of assessments for the maintenance and functioning of the Committee, as described in § 970.55, Expenses, may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) Based upon recommendation of the Committee, or other available data, the Secretary shall fix a base rate of assessment for all leafy green vegetables or products that first handlers shall pay during each crop year. The Committee may also recommend and the Secretary may approve supplemental assessments, but no combination of assessment and supplemental assessments may exceed the cap established in § 970.56(d).

(c) Any signatories who are not first handlers shall pay inspection service fees based on time and travel as approved by the Committee.

(d) Based on the recommendation of the Committee or other available data, the Secretary may change or modify the base rate classification defined in this section. The assessment shall be set at the lowest rate practical to carry out the objectives of the agreement. At no time shall the assessment rate exceed \$0.05 per 24 pound carton or equivalent.

(e) Any assessment not paid by a handler within a period of time prescribed by the Committee may be subject to an interest or late payment charge, or both. The period of time, rate of interest and late payment charge shall be as recommended by the Committee and approved by the Secretary. Subsequent to such approval, all assessments not paid within the prescribed period of time shall be subject to an interest or late payment charge or both.

(f) In order to provide funds for the administration of this part, the Committee may accept but not require, advance payments of assessments, which shall be credited toward assessments levied against such handler during the crop year. The Committee may also borrow money for such

purposes when assessment and reserve funds are not sufficient to cover them.

§ 970.57 Accounting.

(a) If, at the end of a crop year, the assessments collected are in excess of expenses incurred, the Committee, with the approval of the Secretary, may carry over such excess into subsequent crop years as an operating monetary reserve, except that funds already in such reserve shall not exceed approximately two (2) fiscal periods' budgeted expenses, or such lower limits as the Committee, with the approval of the Secretary, may establish. Funds in such reserve shall be available for use by the Committee for expenses authorized pursuant to § 970.55 and to cover necessary expenses of liquidation in the event of termination of this part. If any such excess is not retained in a reserve, each handler entitled to a proportionate refund shall be credited with such refund against the operations of the following crop year, or be paid such refund.

(b) Upon termination of this part, any refunds not required to defray the necessary expenses of liquidation shall be used, to the extent practicable, to fulfill any obligations under § 970.75, Research and promotion.

§ 970.58 Contributions.

The committee may accept voluntary contributions but these shall only be used to pay expenses incurred pursuant to § 970.75, Research and promotion. Furthermore, such contributions shall be free from any encumbrances by the donor and the committee shall retain complete control of their use.

Duties and Responsibilities of Signatories

§ 970.65 Signatory parties.

No signatory to this agreement shall handle leafy green vegetables for human consumption unless such are verified as meeting the provisions of this part. This verification shall take the form of an official audit conducted by the inspection service.

§ 970.66 Verification audits.

(a) GAP audits.

(1) Signatory handlers shall ensure that any leafy green vegetables handled by their operation have been subject to GAP validation and verification audits. Such audits shall verify that such product was produced under auditable conditions that meet production and harvest requirements as outlined in the GAPs (§ 970.9) and as further defined in any applicable audit metrics provided for under § 970.67.

(2) No signatory handlers subject to the provisions of this agreement shall receive leafy green vegetables produced in foreign countries that have not been subject to GAP validation and verification audits by USDA licensed inspectors. Such audits shall verify that such product was produced under auditable conditions that meet production and harvest requirements as outlined in the GAPs (§ 970.9) and as further defined in any applicable audit metrics provided for under § 970.67.

(b) GHP or GMP audits.

(1) All signatory handlers shall be subject to audit verifications. Such audits shall verify that such signatories operate under auditable conditions that meet requirements outlined in the GHPs or GMPs, (§ 970.9 and § 970.10) and as further defined in any applicable audit metrics provided for under § 970.67.

(2) No signatory handlers subject to the provisions of this agreement shall receive leafy green vegetables from handlers in foreign countries that have not been subject to GHP, GMP validation and verification audits by Inspection Service or the FDA. Such audits shall verify that such product was produced under auditable conditions that meet production and harvest requirements as outlined in the GAPs (§ 970.9) and as further defined in any applicable audit metrics provided for under § 970.67.

(c) All audits shall be conducted by the Inspection Service, and certified as to meeting the regulations of this part.

(d) Audits shall be conducted on a regular schedule that ensures every handler is audited during their corresponding production season. In addition, random unannounced audits of handlers and associated producers will also be performed during the production season in each zone.

§ 970.67 Audit metrics.

Audit metrics shall be recommended by the Committee to USDA for approval after consultation with the Technical Review Board.

(a) *GAP audit metrics.* GAP audit metrics shall include verification related but not limited to: Water quality, soil amendments, machine harvest, hand harvest (including direct contact with soil during harvest), transfer of human pathogens by field workers, field sanitation, equipment-facilitated cross contamination, flooding, water usage to prevent dehydration, and production location concerns, including climatic conditions and environment, and encroachment by animals of significant risk and urban settings, or any other factors defined under § 970.9, or as

recommended by the Committee and approved by the Secretary.

(b) *GHP or GMP audit metrics.* Such audit metrics shall include verification of process controls related but not limited to:

(1) *Post-harvest handling process:* Cooling, water, reuse of field containers, bulk-bin modified atmosphere process, condition and sanitation of transportation vehicles, and employee hygiene.

(2) *Handling and manufacturing process:* Wash water, wash system capacity, bulk-bin modified atmosphere process, condition and sanitation of transportation vehicles, and employee hygiene, labeling of Raw Agricultural Commodity (RAC) versus ready-to-eat (RTE) products, and finished product packaging.

(3) *Distribution handling process:* Condition and sanitation of transportation vehicles, condition and sanitation of distribution/cooler facilities, and temperature measurement of product.

(4) Any other factors defined under § 970.9 and § 970.10, or as recommended by the Committee and approved by the Secretary.

(c) Critical limits for process controls for each of the quality factors identified in the audit metrics shall be prescribed by USDA in consultation with FDA and any other federal or state regulatory body administering regulations impacted by the provisions of this agreement; shall incorporate Committee recommendations with regard to industry production, harvest and handling technologies; shall be based on sound scientific practices; and shall be approved by the Secretary.

(d) Audit metrics may be developed and recommended to accommodate differences in production and handling environments of different regions and different leafy green vegetable products.

(e) The committee may, at any time, recommend changes to the audit metrics after consultation with the Technical Review Board for approval by the Secretary.

(f) The Committee shall recommend, to the Secretary, for approval, a schedule for review of audit metrics such that audit metrics are reviewed a minimum of once every three years to ensure that they continually reflect the best industry practices, scientific information and industry knowledge.

§ 970.68 Traceability.

(a) The traceability of leafy green products subject to the terms of this agreement shall be established at all stages of production, processing, and distribution.

(b) Signatory handlers shall have the ability to track their products from their supplier(s) to their customer(s). To this end, signatory handlers shall have in place systems and procedures which allow for this information to be made available for verification by the Inspection Service.

(c) Documents necessary for verification shall be maintained for two years.

§ 970.69 Official certification mark.

(a) USDA will obtain and grant to the Committee the use of a U.S. registered certification mark that will be the agreement's official mark (mark). This mark will be licensed to signatories who comply with the terms of this agreement. Signatories shall use the mark in accordance with this section and shall use the mark consistent with the mark registration.

(b) The Committee may license signatories to affix the official certification mark to bills of lading or manifests, subject to the verification, suspension, revocation requirements, or any other such uses recommended by the Committee and approved by the Secretary to carry out the purposes of this Agreement. A signatory's compliance with the regulations under this Agreement is a condition precedent and subsequent to the signatory's entitlement to use the mark.

§ 970.70 Administrative review.

Any signatory denied the use of the official certification mark may request an administrative review if it is believed that a material fact of the original verification audit was misinterpreted. Administrative reviews would be conducted in accordance with the USDA audit verification procedures for any audit program in effect under this agreement. Any financially interested person may request an administrative review if it is believed that the original audit verification is in error. The person requesting the review would pay the cost of the review. The review results shall be issued to the person making the request.

§ 970.71 Modification or suspension of regulations.

(a) In the event that the Committee, at any time, finds that the provisions contained under this part should be modified or suspended, it shall by vote of a concurring majority of its members, so recommend to the Secretary.

(b) Whenever the Secretary finds from the recommendations and information submitted by the Committee or from other available information, that the provisions of this part should be

modified, suspended, or terminated in order to effectuate the declared policy of the Act, the Secretary shall modify or suspend such provisions. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the Act, the Secretary shall suspend or terminate such regulation.

(c) The Committee, with the approval of the Secretary, may issue rules and regulations implementing this part.

§ 970.72 Exemptions.

The Committee, with the approval of the Secretary, may establish such rules, regulations, and safeguards that exempt from any or all requirements pursuant to this part such quantities of leafy green vegetables or products as do not interfere with the objectives of this part, and shall require such reports, certifications, or other conditions as are necessary to ensure that such leafy green vegetables are handled or used only as authorized.

Research and Promotion

§ 970.75 Research and promotion.

The Committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research, and development projects, and/or promotional activities, including paid advertising, designed to assist, improve, or promote the efficient adoption, implementation, and marketplace acceptance of the agreement and of leafy green vegetables or products handled by signatory members. The expenses of such projects shall be budgeted and paid from funds collected pursuant to § 970.56.

Reports and Records

§ 970.80 Reports and recordkeeping.

(a) Each handler shall report acquisitions of all leafy green vegetables or products and such other reports or information as may be necessary to enable the Committee to carry out the provisions of this part.

(b) Each handler shall maintain records of all receipts and acquisitions of leafy green vegetables or products, and all documentation relating to the verification audit reports. Such records shall be maintained for at least two years after the crop year of their applicability. Such recordkeeping shall be sufficient to document and substantiate the handler compliance with this part.

(c) The Committee shall maintain copies of audit reports.

§ 970.81 Confidential information.

All reports and records furnished or submitted by handlers to the Committee

which include data or proprietary information constituting a trade secret, or disclosing a trade position, financial condition, or business operations of the particular handlers or their customers, shall be received by, and at all times kept in the custody and control of, one or more employees of the Committee, who shall disclose such data and information to no person except the Secretary. However, such data or information may be disclosed only with the approval of the Secretary, to the Committee, when reasonably necessary to enable the Committee to carry out its functions under this part.

§ 970.82 Verification of reports.

For the purpose of checking and verifying reports filed by signatories, authorized agents or employees of the Committee, and the Secretary shall have access to any premises of any signatory at any time during reasonable business hours to verify compliance with the requirements of the agreement. For the purpose of checking and verifying GAP compliance, authorized agents or employees of the Committee and the Secretary shall have access to audit verification records.

§ 970.83 Compliance.

Compliance with the provisions of this agreement will be overseen by the Committee and any staff hired or appointed to undertake this responsibility. In conjunction with USDA, the Committee shall establish a policy for signatory handlers for non-conformities identified through verification audits:

(a) A signatory shall be subject to withdrawal of audit services, shall lose the privilege of the use of the official certification mark, and may be subject to misbranding or trademark violations, if the signatory:

(1) Produces or acquires leafy green vegetables or products without an inspection service verification audit, pursuant to § 970.9 and § 970.10.

(2) Fails to obtain audit verification on the production, handling or manufacturing of leafy green vegetable or products, pursuant to § 970.66, and ships such vegetables or products for human consumption;

(c) The provisions of this part shall, in any event, terminate whenever the provisions of the Act authorizing them cease.

§ 970.93 Proceedings upon termination.

Upon the termination of this part, the members of the Committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the Committee. Action by such trustees shall require the concurrence of a majority of said trustees.
