Abstract: In response to the Presidential memorandum, the eRulemaking Program launched the *Regulations.gov* 'feedback exchange' Web site in May 2009. This interactive Web site will showcase new technologies being considered for *Regulations.gov*. The 'feedback exchange' will serve as a learning laboratory for open government, enabling the public to provide input on the *Regulations.gov* interface, build a community of practice on the Federal regulatory development process, and ensure that the eRulemaking Program can efficiently manage federal resources by testing new tools before they are launched.

The *Regulations.gov* 'feedback exchange' Web site will provide the public with a preview of new technologies considered for *Regulations.gov*. It will also enable the public to provide feedback on these technologies. Technologies considered for the *Regulations.gov* 'feedback exchange' include: User Profiles; Comment Threads and Wikis; Ratings, Polls, and Tagging; an interactive Educational Tool; and an Information Export capability. These technologies will be deployed iteratively, with components deployed upon the site's release in May 2009 and during subsequent upgrades to the Web site. User profiles enable the public to register on the site and pre-load submitter information for later use as well as save their own personalized searches, RSS feeds, and e-mail alerts without the use of persistent cookies. Comment Threads allow the public to enter into virtual conversations with one another about a topic. Wikis enable the public to collaboratively develop and modify narrative descriptions about a topic. Ratings and Polls allow the public to indicate a preference for a topic or issue via the selection of stars or thumbs up/thumbs down icons which graphically provide an at-a-glance indication of public sentiment and can simplify navigation. Tagging provides the public with the ability to tag or label information they or someone else has posted to the site to ease navigation and to promote the formation of common interest categories. The Educational Tool will inform the public about the Federal rulemaking process through interactive text and images. The Data Export capability enables the public to download and review the

contents of a rulemaking docket as well as mix and match such information with other information in a new way (also known as a "mash-up"). The *Regulations.gov* 'feedback exchange' will rely on voluntary feedback from Government, Industry, Academia and Citizenry to improve *Regulations.gov* as time goes on.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 35 hours per year. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. Local Government Advisory Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Request for Nominations to the Local Government Advisory Committee (LGAC).

SUMMARY: The U.S. Environmental Protection Agency (EPA) invites nominations from a diverse range of qualified candidates to be considered for appointment to its Local Government Advisory Committee (LGAC). Vacancies are anticipated to be filled by January 2010. Sources in addition to this **Federal Register** Notice may also be utilized in the solicitation of nominees.

Background: The LGAC is a federal advisory committee chartered under the Federal Advisory Committee Act (FACA), Public Law 92-463. EPA established the LGAC in 1993 to provide independent advice to the EPA Administrator on a broad range of environmental issues affecting local government. Members serve as local elected and appointed officials representing: counties, cities, and other local governments; small communities; tribal governments; and state governments. Members are appointed by the EPA Administrator for two year terms with the possibility of reappointment to a second term. The LGAC usually meets 2-3 times annually and the average workload for the members is approximately 5 to 10 hours per month. EPA provides reimbursement for travel and other incidental expenses associated with official government business. EPA is seeking nominations from mayors, city council members, county commissioners and executives, city managers, small town officials, public works and environmental directors, tribal governments, and state officials including legislators and environmental directors. Nominees will be considered according to the mandates of FACA, which requires committees to maintain diversity across a broad range of constituencies, sectors, interests, and groups. EPA strongly encourages nominations from women and minorities.

The following criteria will be used to evaluate nominees:

- Experience serving as an elected official;
- Experience serving as an appointed official for a state, county, city or tribe;
- Experience in working at the national level on local governments issues;
- Demonstrated experience with environmental and sustainability issues;
- Executive management level experience with membership in broad-based networks;
- Excellent interpersonal, oral and written communication, and consensus-building skills.
