PURPOSE(S):

The purposes of this system are:

1. To ensure that IHS medical staff members are qualified, competent and capable of delivering quality health services consistent with those of the medical community at large and that they are granted privileges commensurate with their training and competence and with the ability of the facility to provide adequate support equipment, services, and staff.

2. To inform health care practitioner(s) and staff of health care facilities, State or county health professional societies or licensing

boards to whom the subject individual may apply for clinical privileges, membership or licensure, of the subject individuals professional competence, character and ethical qualifications. This may include information regarding drug or alcohol abuse or dependency. Within the Department such releases may be made to personnel staffs of HHS Regional Offices.

3. To provide adverse health care practice information to the National Practitioner Data Bank-Healthcare Integrity and Protection Data Bank (NPDB–HIPDB) established under Title IV of Public Law 99–660, the Health Care Quality Improvement Act of 1986, and Section 221(a) of Public Law 104–191, the Health Insurance Portability and Accountability Act of 1996. The purpose of such a release is to provide information concerning a current or former IHS medical staff member whose professional health care activity failed to conform to generally accepted standards of professional medical practice.

4. To provide health care practice information concerning current or former members of the IHS medical staff with Commissioned Corps status to the Division of Commissioned Personnel, U.S. Public Health Service, so that an informed decision may be made concerning the promotion, retention, or reassignment of the subject individual.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. Records may be disclosed to organizations authorized to conduct evaluation studies concerning the delivery of health care services by the IHS (e.g., Joint Commission on the Accreditation of Healthcare Organizations).

2. IHS may disclose records consisting of name, employment history and any professional qualification information concerning medical staff membership and privileges, professional competence, clinical judgment and personal character to a State or local government health professional licensing board, to the Federation of State Medical Boards, to the NPDB–HIPDB established under Title IV of Public Law 99–660 and Section 221(a) of Public Law 104–191, and/or to a similar entity which has the authority to maintain records concerning the issuance, retention or revocation of licenses or registrations necessary to practice a health professional occupation or specialty.

The purpose of this disclosure is to inform medical profession licensing boards and appropriate entities about

the health care practices of a current, terminated, resigned, or retired IHS medical staff member whose professional health care activity significantly failed to conform to generally accepted standards of professional medical practice. This will be done within the guidelines for notice, hearing, and review as delineated in the medical staff bylaws for the IHS facility and/or within other HHS or IRS regulations or policies.

3. IHS may disclose biographic data and information supplied by potential applicants to (a) references listed on the IHS medical staff and/or privileges application and associated forms for the purpose of evaluating the applicant's professional qualifications, experience, and suitability, and (b) a State or local government health profession licensing board, to a health-related professional organization, to the Federation of State Medical Boards, and to the NPDB HIPDB established under Title IV of Public Law 99–660 and Section 221(a) of Public Law 104–191 or a similar entity for the purpose of verifying that all claimed background and employment data are valid and all claimed credentials are current and in good standing.

4. Records may be disclosed to other Federal agencies (including the Office of Personnel Management for subject individuals applying for or maintaining Civil Service appointments)/to State and local governmental, agencies, and to organizations in the private sector to which the subject individual applies for clinical privileges, membership or licensure for the purpose of documenting the qualifications and competency of the subject individual to provide health services in his/her health profession based on the individual's professional performance while employed by the IHS.

5. The Department may disclose information from this system of records to the Department of Justice (DOJ), or to a court or other tribunal, when (a) HHS, or any component thereof, or (b) any HHS employee in his or her official capacity; or (c) any HHS employee in his or her individual capacity where the DOJ (or HHS, where it is authorized to do so) has agreed to represent the employee; or (d) the United States or any agency thereof where HHS determines that the litigation is likely to affect HHS or any of its components, is a party to litigation or has an interest in such litigation, and HHS determines that the use of such records by the DOJ, the court or other tribunal is relevant and necessary to the litigation and would help in the effective representation of the governmental

party, provided, however, that in each case, HH determines that such disclosure is compatible with the purpose for which the records were collected.

6. Records may be disclosed to a congressional office from the record of an individual in response to a verified inquiry from the congressional office made at the written request of that individual.

7. In the event that a system of records maintained by the IHS to carry out its functions indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred to the appropriate agency, whether Federal, State, or local, charged with enforcing or implementing the statute or rule, regulation or order issued pursuant thereto.

8. To appropriate Federal agencies and Department contractors that have a need to know the information for the purpose of assisting the Department's efforts to respond to a suspected or confirmed breach of the security or confidentiality of information maintained in this system of records, and the information disclosed is relevant and necessary for that assistance.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders and computer-based or electronic files.

RETRIEVABILITY:

Indexed and retrieved by name, and any other identifying numbers necessary to establish the identity of an individual whose record is maintained in the system of records.

SAFEGUARDS:

1. *Authorized Users:* Access is limited to authorized personnel for use in the performance of their official duties. Authorized personnel include: Physician Recruitment and other Health Professions Branch Staff and Area Governing Board Members at IHS Area Offices, and Service Unit Directors, Clinical Directors and members of the Credentials and Privilege Committee of each IHS Service Unit. At each location where records in this system will be maintained, a list of personnel or categories of personnel having an official need-to-know has been developed and is maintained.

2. *Physical Safeguards:* Records are kept in locked metal filing cabinets or in locked desk drawers in secured rooms at all times when not actually in use during working hours and at all times during non-working hours. Record storage areas, including file cabinets and desks, are not left unattended or unlocked during office hours, including lunch hours. Computer-based or electronic records are password protected security and any additional internal security for database (linked or unlinked).

3. *Procedural Safeguards:* Persons who have an official need-to-know are entrusted with records from this system of records and are instructed to safeguard the confidentiality of these records and to destroy all copies or to return such records when the need to know has expired. Instructions include the statutory penalties for noncompliance. Proper charge-out procedures are followed for the removal of records from the area in which they are maintained. Before an employee who will control disclosure of records can work with the records (*i.e.*, employees who report to the system manager) the system manager or designee ensures that the employee has received training in the safeguards applicable to the records and is aware of the actions to take to restrict disclosure. When copying records for authorized purposes, care is taken to ensure that any imperfect pages are not left in the reproduction room where they can be read but are destroyed or obliterated.

4. *Implementation Guidelines:* DHHS Chapter 45–13 and supplementary Chapter PHS.hf:45–13 of the General Administration Manual; DHHS, “Automated Information Systems Security Program Handbook,” as amended; DHHS IRM Policy HHS–IRM–2000–0005, “IRM Policy for IT Security for Remove Access; OMB Circular A–130 “Management of Federal Information Resources”; and E–Government Act of 2002 (Pub. L. 107–347, 44 U.S.C. Ch 36).

5. *Retention and disposal:* Records are maintained by IHS for at least ten years after the individual's termination of employment or association with IHS. Records of unsuccessful applicants for medical staff membership will be retained for three years after his/her rejection. After these periods of retention expire, records are destroyed by shredding or burning.
