** These applications currently do not have a set fee since they are done on a case-by-case basis.

Note: Applications include numerous items such as: Transmittal letters, letters of request, modifications to applications, reapplications, etc.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: There are two non-hour costs associated with this information collection. The estimated non-hour cost burden is \$122,024. This estimate is based on:

(a) *Application and audit fees.* The total annual estimated cost burden for these fees is \$77,024 (refer to burden chart).

(b) *Cost of reports prepared by independent certified public accountants.* Under § 203.81, a report prepared by an independent certified public accountant must accompany the application and post-production report (expansion project, short form, and preview assessment applications are excluded). The OCS Lands Act applications will require this report only once; the DWRRA applications will require this report at two stages—with the application and post-production development report for successful applicants. MMS estimates approximately one submission each year at an average cost of \$45,000 per report, for a total estimated annual cost burden of \$45,000.

The total of the two burdens is estimated at \$122,024.
