

containing more than one well. EOG would construct up to approximately 700 new well pads and access roads and would expand approximately 979 existing or previously authorized well pads. If fully developed, each section would contain 32 well pads such that optimal surface density would be one well pad every 20 acres. EOG would directionally drill wells to produce from bottom hole locations spaced at approximately five to 10 acres.

The project would be supported by existing produced water disposal and treatment facilities, produced water pipelines, natural gas pipelines, and gas compression and processing facilities. EOG would construct and install support facilities where needed, including new well pad access roads, new or expanded well pads, new gas-gathering lines, and new produced water-injection wells.

Potential issues include impacts to local and regional air quality and air quality related values; surface water and groundwater resources; floodplains; cultural and paleontological resources; soils; special status plant and animal species; range management; recreation; and socioeconomics. Alternatives identified at this time include the proposed action and the no action alternative. Additional alternatives will be developed as a result of issues and concerns identified through the scoping process.

The BLM Vernal Field Office Record of Decision and Approved Resource Management Plan (RMP) (October 2008) directs the management of the BLM-administered public lands within the GCWPA. The RMP provides for energy resource exploration and development including a variety of oil and gas operations and geophysical explorations, unless precluded by other program prescriptions and surface-disturbance related stipulations (RMP, pp. 96 and 97).

Comments on issues and planning criteria may be submitted in writing to the BLM at any public scoping meeting, or using one of the methods listed in the **ADDRESSES** section above. To be most helpful, comments should be submitted by the end of the public scoping period (within 30 days from the BLM's publication in the **Federal Register**). Before including an address, phone number, e-mail address, or other personal identifying information in your comment, be aware that the entire comment—including personal identifying information—may be made publicly available at any time. While a request can be made to withhold

personal identifying information from public review, it cannot be guaranteed.

Acting State Director.

Notice of Proposed Supplementary Rules for Public Lands in Colorado: Gunnison Gorge National Conservation Area (GGNCA) and Adjacent Public Lands Administered by the Bureau of Land Management Uncompahgre Field Office, Montrose and Delta Counties, CO

AGENCY: Bureau of Land Management, Interior.

ACTION: Proposed supplementary rules for the GGNCA and adjacent public lands in southwestern Colorado.

SUMMARY: Bureau of Land Management (BLM) Colorado is proposing supplementary rules for the GGNCA and adjacent public lands included in the 2004 GGNCA Resource Management Plan (RMP) and managed by the GGNCA and Uncompahgre Field Offices in Montrose and Delta Counties, Colorado. The rules implement decisions found in the RMP and relate to the use of the lands, conduct, health and safety of public land users, and protection of natural resources. The proposed rules address off-road vehicle use and safety, firearms, hunting and target shooting, pets and pack stock use, camping, waste disposal, group size limits, permit requirements, and length of stay. These supplementary rules will be added to the current rules in effect for the GGNCA, Gunnison Gorge Wilderness, and adjacent public lands. The supplementary rules will be enforced by BLM law enforcement rangers.

DATES: Please send comments to the following address by November 9, 2009. Comments received or postmarked after this date may not be considered in the development of the final supplementary rules.

ADDRESSES: Please mail or hand-deliver comments to Karen Tucker, GGNCA, BLM Uncompahgre Field Office, 2465 S. Townsend Avenue, Montrose, Colorado 81401.

FOR FURTHER INFORMATION CONTACT: Karen Tucker, GGNCA (970) 240-5300, e-mail: karen_tucker@blm.gov or Ted Moe, BLM Law Enforcement Ranger, (970) 240-5341, e-mail: ted_moe@blm.gov.

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures

Written comments on the proposed supplementary rules should be specific, confined to issues pertinent to the

proposed supplementary rules, and should explain the reason for any recommended change. Where possible, comments should reference the specific section or paragraph of the rules that the comment is addressing. The BLM is not obligated to consider or include in the Administrative Record for the final rules comments that are postmarked or electronically dated after the close of the comment period (see **DATES**) or comments delivered to an address other than the address listed above (See **ADDRESSES**).

Comments, including names, street addresses, and other contact information of respondents, will be available for public review at the BLM Uncompahgre Field Office, 2465 S. Townsend Avenue, Montrose, Colorado 81401. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

II. Background

These proposed supplementary rules apply to the Gunnison Gorge National Conservation Area (GGNCA), approximately 62,844 acres of public lands that include the 17,784-acre Gunnison Gorge Wilderness, and 32,937 acres of adjacent public lands managed under the GGNCA management plan. The GGNCA was established by Public Law 106-76 on October 21, 1999.

The GGNCA is located 10 miles north of Montrose, Colorado, bordered by the Black Canyon of the Gunnison National Park to the south. The proposed supplementary rules will help the BLM achieve management objectives and implement decisions in the GGNCA Resource Management Plan (RMP) approved on November 12, 2004. These supplementary rules will also allow the BLM to increase law enforcement efforts that will help mitigate damage to natural resources and provide for public health and safe public recreation.

III. Discussion of the Proposed Supplementary Rules

These proposed supplementary rules apply to a total of 95,781 acres of public lands managed by the BLM within the GGNCA RMP planning area. The area includes 62,844 acres of National Conservation Area (NCA) lands and 32,937 acres of non-NCA lands within
