

of shipments during the POR. Thus, including Regal and Shantou Longsheng, 466 companies remain subject to this review. We note that no other company listed in the *Initiation*, including Go-Harvest, has demonstrated its eligibility for separate rate status in this administrative review. In the *Preliminary Results*, the Department determined that 464 companies which did not demonstrate eligibility for a separate rate are properly considered part of the PRC-Wide entity.¹⁵ Since the *Preliminary Results*, none of the 464 companies, including Go-Harvest submitted comments regarding these findings.

Therefore, we continue to treat these entities as part of the PRC-Wide entity.

Final Results of Review

The weighted-average dumping margins for the POR are as follows:

FROZEN WARMWATER SHRIMP FROM THE PRC

Exporter	Weighted-average margin (percent)
Regal	9.08
Shantou Longsheng	9.08
PRC-Wide Entity ¹⁶	112.81

¹⁶The PRC-wide entity includes the 464 companies currently under review that have not established their entitlement to a separate rate, including Zhanjiang Go-Harvest Aquatic Products Co., Ltd. and Shantou Yuexing Enterprise Company.

Assessment

Upon issuance of the final results, the Department will determine, and CBP shall assess, antidumping duties on all appropriate entries. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of review. Pursuant to 19 CFR 351.212(b)(1), we will calculate importer-specific (or customer) *ad valorem* duty assessment rates based on the ratio of the total amount of the dumping margins calculated for the examined sales to the total entered value of those same sales. We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review if any importer-specific assessment rate calculated in the final results of this review is above *de minimis*.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of these final results of this

administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) For the exporters listed above, the cash deposit rate will be the rate established in these final results of review (except, if the rate is zero or *de minimis*, i.e., less than 0.5 percent, a zero cash deposit rate will be required for that company); (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all PRC exporters of subject merchandise which have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate of 112.81 percent; and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporters that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this administrative review and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: August 28, 2009.

Ronald K. Lorentzen,

Acting Assistant Secretary for Import Administration.

Appendix I—Decision Memorandum

Comment 1: Surrogate Country

Comment 2: Zeroing

Comment 3: Surrogate Values

- a. Purchased Ice
- b. Ocean Water
- c. Shrimp Feed
- d. Salt
- e. By-products
- f. Fertilizer
- g. Shrimp Larvae

Comment 4: Calculation of Surrogate Financial Ratios

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XR12

Fisheries in the Western Pacific; Western Pacific Pelagic Fisheries; American Samoa Longline Limited Entry Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; availability of permit upgrades.

SUMMARY: NMFS is soliciting applications for American Samoa longline limited entry permit upgrades. Nineteen (19) permit upgrades will be available for Class A vessel (less than or equal to 40 ft (12.2 m) in length) permit holders to upgrade to larger vessel size classes (B-1 or C-1). The permit upgrades are available only to Class A permit holders who participated in the fishery before March 22, 2002, and the highest priority for receiving a permit upgrade will be given to the person with the earliest date of documented participation.

DATES: Completed permit upgrade applications must be received by NMFS by November 9, 2009.

ADDRESSES: Application forms are available from NMFS Pacific Islands Region (PIR), Attn: Permits, 1601

¹⁵ See *Preliminary Results* at 10029.

Kapiolani Blvd., Suite 1110, Honolulu, HI 96814-4700, or the Pacific Islands Region website at www.fpir.noaa.gov.

Send completed applications to NMFS PIR, Attn: ASLE Permit Upgrade, 1601 Kapiolani Blvd., Suite 1110, Honolulu, HI 96814-4700.

FOR FURTHER INFORMATION CONTACT:

Walter Ikehara, NMFS PIR, Tel (808)944-2275, Fax (808) 973-2940.

SUPPLEMENTARY INFORMATION: On May 25, 2005, NMFS published a final rule that established a limited entry program for the pelagic longline fishery based in American Samoa, under Amendment 11 to the Fishery Management Plan for Pelagic Fisheries in the Western Pacific Region (70 FR 29646). American Samoa longline limited entry permits were established for four vessel size classes, based on length:

- a. Class A - less than or equal to 40 ft (12.2 m),
- b. Class B (and B-1) - over 40 ft (12.2 m) to 50 ft (15.2 m) inclusive,
- c. Class C (and C-1) - over 50 ft (15.2 m) to 70 ft (21.3 m) inclusive, and
- d. Class D (and D-1) - over 70 ft (21.3 m).

A total of 60 American Samoa longline limited entry permits is allowed in this limited access fishery. The limited entry program allowed for a total of 26 permit upgrades to be made available for the exclusive use of permit holders in Class A, distributed over a four-year period following the issuance of initial limited entry permits in late 2005, and 2009 is the last year of the upgrade program. Nineteen permit upgrades are available: 13 for vessel Class B-1 and six for Class C-1.

The Regional Administrator may issue Class B-1 and C-1 permit upgrades only to persons who currently hold a Class A permit and who participated in the American Samoa pelagic longline fishery before March 22, 2002. The highest priority will be given to those with the earliest date of documented participation. Those receiving upgraded permits must surrender their Class A permits and the surrendered permits are deducted from the allowed Class A permit total. This notice announces the availability of permit upgrades and solicits applications for the upgrades.

On January 28, 2009, NMFS published a notice soliciting applications for American Samoa longline permits (70 FR 4942). In August 2009, NMFS issued permits to certain applicants, and the holders of Class A permits issued in August 2009 may now apply for upgrades.

Complete applications must include the completed and signed application form (see **ADDRESSES**), legible copies of

documents supporting historical participation in the American Samoa pelagic longline fishery, and payment for the non-refundable application processing fee. Documents supporting participation should show that fishing was conducted using longline gear. Applications must be received by NMFS by November 9, 2009 to be considered for eligibility for the 2009 permit upgrades. Applications will not be accepted if received after that date.

Authoritative additional information on the American Samoa limited entry program may be found in the Code of Federal Regulations, Title 50, part 665.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 2, 2009.

Alan D. Risenhoover,

Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Hot-Rolled Carbon Steel Products From India: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Joy Zhang, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, Room 4014, 14th Street and Constitution Ave., NW., Washington, DC 20230, *telephone:* (202) 482-1168.

SUPPLEMENTARY INFORMATION:

Background

On February 2, 2009, the U.S. Department of Commerce ("the Department") published a notice of initiation of the administrative review of the antidumping duty order on hot-rolled carbon steel products from India covering the period December 1, 2008, through November 30, 2008. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 74 FR 5821 (February 2, 2009). The preliminary results are currently due no later than September 2, 2009.

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"),

requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested. Section 751(a)(3)(A) of the Act further states that if it is not practicable to complete the review within the time period specified, the administering authority may extend the 245-day period to issue its preliminary results to up to 365 days.

Due to the complexity of the issues in this administrative review, in particular the overlapping issues associated with the ongoing countervailing duty review of the same product, we have determined that it is not practicable to complete the preliminary results within the 245-day period. Therefore, in accordance with section 751(a)(3)(A) of the Act, we are extending the time period for issuing the preliminary results of the review by 120 days. The preliminary results are now due no later than December 31, 2009. The final results continue to be due 120 days after publication of the preliminary results.

This notice is issued and published in accordance with section 751(a)(3)(A) of the Act.

Dated: September 2, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
