OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Director, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Abstract: On February 17, 2009, the American Recovery and Reinvestment Act of 2009 (ARRA) became law. A major part of ARRA is the new State Fiscal Stabilization Fund (Stabilization) program. The program provides \$53,600,000,000 to States to keep teachers in the classroom, prevent the cutting of valuable education programs, and help mitigate college tuition increases. Additionally, the Stabilization program will provide resources that States and districts may use to implement important education reforms, such as launching strategies that address inequities in the distribution of highly qualified teachers, building robust data systems that allow districts to better track student achievement, raising standards and strengthening student assessments, and turning around failing schools. We are requesting approval of the Stabilization program grant application so that State

governors may apply for the first portion of these funds.

Lock+™ Hydro Friends Fund XVII, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

September 15, 2009.

On June 9, 2009, Lock+™ Hydro Friends Fund XVII, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Enceladus Hydroelectric Project, located on the Kentucky River, in Lee County, Kentucky. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following:

(1) 2 lock frame modules; (2) 18 hydropower turbines; (3) flow control doors; (4) a conduit; (5) transmission

line; and (6) appurtenant facilities. The proposed Enceladus Project would have an average annual generation of 284,018,400 kilowatt-hours.
