

application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Green Lightning Hydroelectric Project, located on the Verdigris River, in Wagoner County, Oklahoma. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following:

(1) 2 lock frame modules; (2) 18 hydropower turbines; (3) flow control doors; (4) a conduit; (5) transmission line; and (6) appurtenant facilities. The proposed Green Lightning Project would have an average annual generation of 284,018,400 kilowatt-hours.

Florida Gas Transmission Company, LLC; Notice of Application

September 15, 2009.

Take notice that on September 3, 2009, Florida Gas Transmission Company, LLC (FGT) tendered for filing an abbreviated application pursuant to the Natural Gas Act requesting authorization to abandon its service obligation utilizing its ownership interest in the Matagorda Offshore

Pipeline System which is open to the public for inspection.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Oceanlinx Hawaii LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

September 15, 2009.

On August 21, 2009, Oceanlinx Hawaii LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Oceanlinx Maui Wave Energy Project (Oceanlinx Wave Project or project), located in the Pacific Ocean about 0.6 statute miles north of Pauwela Point and adjacent lands in the County of Maui, Alaska. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A proposed, 30-meter-wide (98-foot-wide) by 100-meter-long (328-foot-long) by 10-meter-high (33-foot-high—relative to the ocean surface) Wave Energy Converter (WEC) consisting of a floating pontoon moored to the seafloor by a cable and anchoring system and containing eight Oscillating Water Column (OWC) units with a combined nameplate capacity of 2.7 megawatts; (2) a proposed 15-kilovolt (kV), 3,600 or 4,100-foot-long (depending upon the transmission route chosen) submarine and overhead transmission line; and (3) appurtenant facilities. The proposed project would have an estimated average annual generation of up to about 4,000 megawatt-hours.
