2008–2009 Refuge-Specific Hunting and Sport Fishing Regulations—Modifications; Corrections

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule; correcting amendments.

SUMMARY: On September 3, 2009, we published a final rule in the **Federal**

Register implementing pertinent refuge-specific regulations and amending other existing refuge-specific regulations that pertain to migratory game bird hunting, upland game hunting, big game hunting, and sport fishing for the 2008–2009 season. The rule contained errors in the amendatory language and the regulatory text. This document corrects those errors.

DATES: This correction is effective October 1, 2009.

FOR FURTHER INFORMATION CONTACT: Leslie Marler (703) 358–2397.

SUPPLEMENTARY INFORMATION: On September 3, 2009, we published a final rule (74 FR 45674) that implemented pertinent refuge-specific regulations and amended other existing refuge-specific regulations pertaining to migratory game bird hunting, upland game hunting, big game hunting, and sport fishing for the 2008–2009 season. This rule became effective on the day of publication, September 3, 2009. In the rule, several of our amendatory instructions for adding or revising paragraphs in the regulatory text section were not clear. This document corrects error that arose from those unclear instructions. In addition, this document contains the following corrections to the regulatory text:

In the State of Alabama, the correction for Cahaba National Wildlife Refuge reflects that conditions B.2., B.3., and B.7. apply rather than B.8. which does not exist. The correction for Mountain Longleaf National Wildlife Refuge reflects that conditions A.1. through A.4. apply rather than A.5. which does not exist.

In the State of Georgia, the correction for Savannah National Wildlife Refuge reflects the addition of a sentence to C.10. that was inadvertently omitted.

In the State of Maryland, the correction for Patuxent Research Refuge reflects removal of extraneous characters at the end of condition D.18.vi. inadvertently applied during XML coding of the document.

Administrative Procedure Act

We find good cause to waive notice and comment on this correction, under 5 U.S.C. 553(b)(B), and the 30-day delay in effective date under 5 U.S.C. 553(d). Notice and comment are unnecessary because these corrections are minor, editorial changes. The substance of the regulations remains unchanged. Therefore, this correction is being published as a final regulation and is effective upon publication.

BILLING CODE 4310-55-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 0910091344-9056-02]

RIN 0648-XR92

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Vessels Catching Pacific Cod for Processing by the Inshore Component in the Central Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by vessels catching Pacific cod for processing by the inshore component in the Central Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the 2009 total allowable catch (TAC) of Pacific cod allocated to vessels catching Pacific cod for processing by the inshore component of the Central Regulatory Area of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), October 1, 2009, until 2400 hrs, A.l.t., December 31, 2009.

FOR FURTHER INFORMATION CONTACT: Obren Davis, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2009 TAC of Pacific cod allocated to vessels catching Pacific cod for processing by the inshore component of the Central Regulatory Area of the GOA is 21,277 metric tons (mt) as established by the final 2009 and 2010 harvest specifications for groundfish of the GOA (74 FR 7333, February 17, 2009).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2009 TAC of Pacific cod allocated to vessels catching Pacific cod for processing by the inshore component of the Central Regulatory Area of the GOA will soon be reached.

Therefore, the Regional Administrator is establishing a directed fishing allowance of 20,277 mt, and is setting aside the remaining 1,000 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by vessels catching Pacific cod for processing by the inshore component in the Central Regulatory Area of the GOA.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of Pacific cod by vessels catching Pacific cod for processing by the inshore component of the Central Regulatory Area of the GOA. Delaying the closure of Pacific cod after the Regional Administrator has determined that the directed fishing allowance has been reached is a conservation concern. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of September 24, 2009.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 25, 2009.

Alan D. Risenhoover,

Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
