Exposure Factors Handbook: 2009 Update

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public comment period.

SUMMARY: EPA is announcing a 60-day public comment period for the external review draft document titled, "Exposure Factors Handbook: 2009 Update" (EPA/600/R-09/052A), which was prepared by the National Center for

Environmental Assessment (NCEA) within EPA's Office of Research and Development (ORD). The Exposure Factors Handbook provides a summary of the available statistical data on various factors used in assessing human exposure. This Handbook is aimed at exposure assessors inside the Agency as well as those outside who use data on standard factors to calculate human exposure to toxic chemicals. These factors include: drinking water consumption; mouthing behavior; soil ingestion rates; inhalation rates; dermal factors, including skin area and soil adherence factors; consumption of fruits and vegetables, fish, meats, dairy products, and homegrown foods; breast milk intake; human activity factors;

consumer product use; and residential characteristics. Recommended values are for the general population and also for various segments of the population who may have characteristics different from the general population. An external peer-review workshop is expected to be scheduled at a later date and announced in the **Federal Register**. The public comment period and the external peer-review workshop are separate processes that provide opportunities for all interested parties to comment on the document. EPA intends to forward the public comments that are submitted in accordance with this notice to the external peer-review panel prior to the meeting for their consideration. When finalizing the draft document, EPA intends to consider any public comments that EPA receives in accordance with this notice.

EPA is releasing this draft document solely for the purpose of pre-dissemination peer review under applicable information quality guidelines. This document has not been formally disseminated by EPA. It does not represent and should not be construed to represent any Agency policy or determination.

The draft document and EPA's peer-review charge are available via the Internet on the NCEA home page under the Recent Additions and the Data and Publications menus at <http://www.epa.gov/ncea>.
