Each such quarterly expansion would be of the next seventy-five most actively traded multiply listed options classes based on the national average daily volume ("ADV") for the six months prior to selection, closing under \$200 per share on the Expiration Friday prior to expansion; however, the

The Exchange is identifying, in the chart below, seventy-five options classes that it will add to the Penny Pilot on November 2, 2009, based on ADVs from April 1, 2009, through September 30, 2009.
