

II. Board's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Board included statements concerning the purpose of, and basis for, the proposed rule. The text of these statements may be examined at the places specified in Item IV below. The Board has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Board's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

In the Board's filings under Rule 19b-4 seeking Commission approval of the proposed rules and form instructions identified in Section I above (PCAOB-2008-04 (June 17, 2008) and PCAOB-2008-05 (August 4, 2008)), the Board stated that those proposed rules and form instructions would take effect 60 days after Commission approval. The Commission approved those rules and form instructions in Commission Release Nos. 34-60496 and 34-60497 on August 13, 2009. Accordingly, the rules and form instructions were to take effect on October 12, 2009.

On the date that the rules and form instructions take effect, deadlines will begin to run for registered firms to report certain information to the Board by filing prescribed forms electronically through the Board's Web-based system for processing and publishing those forms. Because of technical issues related to deploying that Web-based system, it now appears that the system will not be sufficiently operational by October 12, 2009 to allow the filing of such forms by registered firms. Accordingly, the Board is delaying the effective date of the rules and form instructions to December 31, 2009 to permit time to resolve the technical issues and deploy the system.

The change in the effective date will have no impact on the timing of the first annual reports on Form 2 that will be required of registered firms pursuant to Rule 2200. Those reports will continue to be due by June 30, 2010, for the twelve-month period ending March 31, 2010, just as they would have been if the rules took effect on October 12, 2009. Similarly, the first annual fee due from firms pursuant to Rule 2202 will continue to be due by July 31, 2010, just as it would have been if the rules took effect on October 12, 2009.

Changing the effective date will, however, postpone to December 31, 2009 the onset of the obligation for

registered firms to file special reports on Form 3 to report certain events that occur, and will similarly postpone the option of submitting a Form 4 to succeed to the registration status of a predecessor firm.

(b) Statutory Basis

The statutory basis for the proposed rule is Title I of the Act.

B. Board's Statement on Burden on Competition

The Board does not believe that the proposed rules will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Board's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Board did not solicit or receive written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Securities Exchange of 1934 (as incorporated, by reference, into Section 107(b)(4) of the Act) and Rule 19b-4(f)(1) thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-60985; File No. SR-CTA/CQ-2009-02]

Consolidated Tape Association; Notice of Filing of the Thirteenth Charges Amendment to the Second Restatement of the Consolidated Tape Association Plan and Seventh Charges Amendment to the Restated Consolidated Quotation Plan

November 10, 2009.

Pursuant to Section 11A of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 608 thereunder,² notice is hereby given that on October 19, 2009,³ the Consolidated Tape

¹ 15 U.S.C. 78k-1.

² 17 CFR 242.608.

³ On November 6, 2009, the Consolidated Tape Association sent a letter correcting the number of the proposed amendment.

Association ("CTA") Plan and Consolidated Quotation ("CQ") Plan participants ("Participants")⁴ filed with the Securities and Exchange Commission ("Commission") a proposal to amend the Second Restatement of the CTA Plan and Restated CQ Plan (collectively, the "Plans").⁵ The proposal represents the thirteenth charges amendment to the CTA Plan ("Thirteenth Charges Amendment") and the seventh charges amendment to the CQ Plan ("Seventh Charges Amendment"), and reflects changes unanimously adopted by the Participants. The Thirteenth Charges Amendment to the CTA Plan and the Seventh Charges Amendment to the CQ Plan ("Amendments") would: (1) Delete all program classification charges from the schedules of Network A and Network B computer input charges; and (2) replace the current combined Network A/Network B high speed line access charges with separate high speed line access charges for Network A and Network B. The Commission is publishing this notice to solicit comments from interested persons on the proposed Amendments.

I. Rule 608(a)

A. Description and Purpose of the Amendments

The Plans currently divide the different means of using market data into eight program classifications. The program classification fees payable by vendors and end-users depend on the category of use the vendor or end-user makes of the data and whether the vendor or end-user is using Network A market data or Network B market data, or both. Through the Amendments, the Participants propose to eliminate

program classification charges and set separate fees for the receipt of Network A market data and Network B market data.

Over time, new technologies and new and innovative notions on how to use market data have made it increasingly difficult to place data uses into the existing program classifications in a manner that is consistent and equitable for all. The Participants have come to believe that it is inherently more equitable for them to charge vendors and end-users for the method of access to the data and the quantity of usage, rather than for the specific purposes (*i.e.*, by program classification) to which vendors and end-users put market data. The Participants believe that eliminating the manner-of-data-usage charges will modernize the CTA and CQ fee schedules and allow all vendors and users to use data as they see fit, without having to worry about whether a new usage would subject them to a new program classification fee. The elimination of program classification charges means that vendors will no longer need to provide detailed explanations of how they use the data or to update Exhibit A to their agreements with the Participants each time they put data to a new use.

Additionally, the Participants propose to revise the access fees by setting separate fees for the receipt of Network A market data and Network B market data. Therefore, if a vendor or end-user wishes to receive Network A last sale prices (or quotation information), but not Network B last sale prices (or quotation information), the vendor or end-user would now be allowed it to pay only for Network A last sale prices, without also having to pay for Network B last sale prices and vice versa.

In addition to establishing separate access fees for Network A and Network B, it is the intention of the Participants to set the new access fees at levels that will offset the revenues that the Participants anticipate they will lose as a result of eliminating the program classification fees. The Participants' goal is to eliminate the program classification fees and reset access fees in a revenue-neutral manner and simplify and modernize the fee schedule while offering vendors and end-users greater choice and flexibility in the receipt and use of market data.

The text of the proposed Amendments is available on the CTA's Web site (<http://www.nysedata.com/cta>), at the principal office of the CTA, and at the Commission's Public Reference Room.
