SUPPLEMENTARY INFORMATION:

Background

John N. Cobb, decommissioned August 13, 2008, had been an active research vessel for 58 years. The National Historic Preservation Act of 1966 requires that federal properties meeting historical criteria are to be recognized as historical assets. As a result of *John N. Cobb's* length of service, significant contributions to the community and historic architectural design, the vessel has been determined eligible and is scheduled to make the National Register of Historic Places spring of 2009. Upon being determined eligible, the vessel became subject to

rules and regulations described in 36 CFR Part 800: Protection of Historic Properties—The Section 106 Process.

Seattle Central Community College: Seattle Maritime Academy is an eligible recipient of *John N. Cobb* under the Stevenson-Wydler Technology and Innovation Act of 1980 and consequently submitted a request for the vessel to the Commanding Officer, Marine Operations Center-Pacific. This request includes a strategy for continued use and preservations of the vessel. The Office of Marine and Aviation Operations is confident the Academy possesses the necessary resources to continue the preservation effort. Seattle Maritime Academy is a reputable organization and will likely serve *John N. Cobb* well in future sea going years. Prior to transferring the vessel to Seattle Maritime Academy, NOAA, the Washington State Historic Preservation Office and the Advisory Council on Historic Preservation will establish a memorandum of agreement including preservation covenants.

Dated: January 28, 2009.

NOAA Director, Office of Marine and Aviation Operations.
