Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance from certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Union Pacific Railroad Company

[Docket Number FRA-2007-28454]

By a letter dated January 16, 2009, FRA granted conditional relief in response to the petition filed by the Union Pacific Railroad Company (UP) for a waiver of compliance from 49 CFR 232.305(b)(2) *Single car air brake tests* as it relates to UP's in-train wheel-set replacement program. Specifically, UP sought relief from the regulation to the extent necessary to permit the replacement of non-FRA-condemnable wheel-sets on railcars as part of an in-train wheel-set replacement program without the need to also perform single car air brake tests (SCABT) as required by § 232.305(b)(2), if the car has not received a SCABT within the previous 12 months. UP now, by a letter dated June 5, 2009, seeks revision of Condition 6 of FRA's January 16, 2009, letter. Condition 6 requires the identification and removal of *wheels exerting 100 kips or greater, or exerting 90 kips and an acoustic bearing detector defect, when the car is empty at the first in-train wheel replacement location*. UP's complete request can be reviewed at <http://www.regulations.gov> under the docket number listed above.

UP states that the threshold of "100 kips" in Condition 6 is onerous, is contrary to UP's and other railroads experience of this threshold as being close to 140 kips, is not a requirement in 49 CFR regulations, is an unnecessarily strict standard exclusive to UP's in-train wheel-set replacement program, places UP in a different category than other railroads, and hampers UP's innovative and voluntary effort to improve safety by allowing it to replace an increased numbers of wheel-sets with incipient defects. As a result, UP requests that FRA modify this condition to require replacement of wheels exerting 140 kips or greater, or wheels exerting 90 kips in conjunction with acoustic bearing detector defects.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA-2007-28454) and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue, SE., W12-140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue, SE., Room W12-140, Washington, D.C. 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

Exemption Decision

This notice addresses 22 individuals who have requested a renewal of their exemptions in accordance with FMCSA procedures. FMCSA has evaluated these 22 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Thomas E. Adams
Terry J. Aldridge
Lennie D. Baker, Jr.
Jerry D. Bridges
William J. Corder
Gary R. Gutschow
Richard J. Hanna
James J. Hewitt
Albert E. Malley
Eugene P. Martin
David L. Menken
Rodney M. Mimbs
Walter F. Moniowczak
William G. Mote
James R. Murphy
Chris A. Ritenour
Ronald L. Roy
Thomas D. Walden
Thomas E. Walsh
Kevin P. Weinhold
Charles M. Wilkins
Thomas A. Wise

These exemptions are extended subject to the following conditions: (1)

That each individual has a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provides a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provides a copy of the annual medical certification to the employer for retention in the driver's qualification file and retain a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31136(e) and 31315, each of the 22 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (64 FR 27027; 64 FR 51568; 66 FR 63289; 68 FR 64944; 70 FR 67776; 72 FR 64273; 64 FR 40404; 64 FR 66962; 66 FR 17743; 66 FR 33990; 68 FR 35772; 70 FR 33937; 67 FR 68719; 68 FR 2629; 70 FR 61165; 68 FR 52811; 68 FR 61860; 70 FR 48797; 70 FR 61493) Each of these 22 applicants has requested renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the standard specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level

of safety equal to that existing without the exemption.

Request for Comments

FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31136(e) and 31315. However, FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by December 30, 2009.

FMCSA believes that the requirements for a renewal of an exemption under 49 U.S.C. 31136(e) and 31315 can be satisfied by initially granting the renewal and then requesting and evaluating, if needed, subsequent comments submitted by interested parties. As indicated above, the Agency previously published notices of final disposition announcing its decision to exempt these 22 individuals from the vision requirement in 49 CFR 391.41(b)(10). The final decision to grant an exemption to each of these individuals was based on the merits of each case and only after careful consideration of the comments received to its notices of applications. The notices of applications stated in detail the qualifications, experience, and medical condition of each applicant for an exemption from the vision requirements. That information is available by consulting the above cited **Federal Register** publications.

Interested parties or organizations possessing information that would otherwise show that any, or all of these drivers, are not currently achieving the statutory level of safety should immediately notify FMCSA.

The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

Issued on: November 16, 2009.

Larry W. Minor,

Associate Administrator for Policy and Program Development.
