Form No.: FCC Form 308.

Type of Review: New information collection.

Respondents: Business or other for-profit entities.

Number of Respondents/Responses: 26 respondents; 70 responses.

Estimated Time Per Response: 1 - 2 hours.

Frequency of Response: On occasion reporting requirement; Recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in Section 325(c) of the Communications Act of 1934, as amended.

Total Annual Burden: 73 hours.

Annual Cost Burden: \$26,451.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: The Federal Communications Commission ("Commission") is requesting that the Office of Management and Budget (OMB) approve the establishment of a new information collection titled, "Application for Permit to Deliver Programs to Foreign Broadcast Stations (FCC Form 308)." Applicants use the

FCC Form 308 to apply, under Section 325(c) of the Communications Act of 1934, as amended, for authority to locate, use, or maintain a studio in the United States for the purpose of supplying program material to a foreign radio or TV broadcast station whose signals are consistently received in the United States, or for extension of existing authority.

Currently, the FCC Form 308 is only available to the public in paper form. The Commission is requesting OMB approval of a revised FCC Form 308, in Excel format, that will be made available to the public on the FCC Forms page of the FCC's website, www.fcc.gov <<http://www.fcc.gov/>>. The form was revised to make it more user friendly and to include questions to obtain only the legal and technical information that is essential to grant authority to U.S. broadcasters to supply program material to a foreign radio or TV broadcast station whose signals are consistently received in the U.S. or to extend the current authority. After the applicant completes the form, it is mailed to the U.S. Bank along with the application fee. Then, it is forwarded to the International Bureau with the exception of fee exempt applications which are filed directly with the FCC Secretary's Office and then forwarded to the Bureau.

Broadcasters are also subject to the local public notice provisions stated in Section 73.3580 of Subpart H. The Commission adopted Section 73.3580 in order to ensure that the public is informed of a station's filing of an application or amendment by advertisements in local newspapers. The public is kept abreast of the stations' existence in a local area or plans to locate in a specific local area through such advertisements. Section 73.3580 also requires that certain applications be maintained on file for public inspection at a stated address in the community in which the station is located or is proposed to be located.

Without this collection of information, the Commission would not be able to ascertain whether the main studio owner in the US meets various legal requirements or the foreign broadcast facility, which receives and retransmits programming from the main studio in the US, meets various technical requirements that prevent harmful interference to other broadcast stations or telecommunications facilities.
