### Indian Health Service

#### Office of Clinical and Preventive Services; Division of Behavioral Health; the Methamphetamine and Suicide Prevention Initiative for American Indian and Alaska Native Urban Programs

*Announcement Type:* New.

*Funding Announcement Number:* HHS-2010-IHS-METHU-0001.

*Catalog of Federal Domestic Assistance Number(s):* 93.933.

**KEY DATES:** *Application Deadline Date:* January 5, 2010. *Review Date:* January 12-13, 2010. *Earliest Anticipated Start Date:* February 1, 2010.

#### I. Funding Opportunity Description

The Indian Health Service (IHS) announces competitive grant applications for the Methamphetamine & Suicide Prevention Initiative (MSPI) for American Indian and Alaska Native (AI/AN) Urban Program communities. This program is authorized under the Snyder Act, 25 U.S.C. 13, as amended, and Indian Health Care Improvement Act (IHCIA), 25 U.S.C. 1653(e). This program is described at 93.933 in the Catalog of Federal Domestic Assistance. The purpose of the Methamphetamine & Suicide Prevention Initiative for AI/AN

Urban Programs (MSPI-U) is to expand community-level access to effective, urban AI/AN methamphetamine and/or suicide prevention and treatment programs. Resources will enhance evidence-based or practice-based methamphetamine and/or suicide prevention or treatment programs and/or community mobilization programs. The methamphetamine and suicide prevention or treatment funding will be used to:

- Provide community-focused responses that enhance evidence-based or practice based methamphetamine and/or suicide prevention or treatment services or education programming.

- Coordinate services for communities to respond to their local methamphetamine and/or suicide crises.

- Participate in a nationally coordinated program focusing specifically on increasing access to methamphetamine and/or suicide prevention or treatment related activities among the Federal partners, Areas, Tribes, States, and academic or not-for-profit programs.

- Provide communities with needed resources to develop their own community-focused programs with preference for coordinated programming that maximizes the impact across communities and Tribal groups.

- Establish baseline data information related to methamphetamine abuse/suicides in the local communities.

- Adequately document the level of need for the community.

- Promote programs that will ensure measureable impact.

- Awardees' activities for this program are as follows:

- Develop a three (3) year action plan. Applicants must document how their methamphetamine and/or suicide prevention or treatment activities will be implemented as soon as possible but no later than six (6) months after award. The remainder of Year One, Year Two, and Year Three will focus on implementation. The primary intent of the action plan should be to illustrate how the applicant will enhance community access to or support community delivery of evidence-based or practice-based methamphetamine and/or suicide prevention or treatment services. The action plan should describe the project implementation process. The action plan should include objectives that are specific, measurable, achievable, relevant, and time-phased. Objectives should demonstrate adherence to the Government Performance and Results Act of 1993 (GPRA), where applicable. The implementation process may be guided

by a community action organization, collaboration, or a group of partners to plan and implement a community-wide methamphetamine and/or suicide prevention or treatment project. If such partnerships or collaborations are already in place, provide a description of how they intend to expand their scope to include the implementation of the methamphetamine and/or suicide prevention or treatment project. Relevant partnerships working closely with and developing collaborations for the MSPI-U may include smaller urban organizations which combine their resources to implement this project. "Relevant partnerships" can be defined as developing cooperative agreements and/or Memoranda of Agreement that clearly define how the collaboration will be conducted.

- Collaborations may also include other partners to share resources and information that could strengthen the program.
- The action plan should focus on developing or enhancing and implementing community-based, evidence or practice-based methamphetamine and/or suicide prevention or treatment strategies. The action plan for the community prevention or treatment program should include the proposed best and promising practices being implemented, identify information sharing processes, and define and identify interactive group activities, data collection (i.e. Resource and Patient Management System), evaluation, and ongoing quality assurance improvement processes. The project should include culturally appropriate behavioral, policy, and community approaches to methamphetamine and/or suicide prevention or treatment.

- Applicants must attend one (1) mandatory MSPI-U grantee meeting per year. The budget submitted should reflect travel costs for the project director and the local evaluator to attend this meeting. Location (city/hotel) and time frame for this meeting will be provided after award; however the meeting will generally last two to three days and attendance is mandatory. At these meetings, grantees will present the results of their projects and Federal staff will be available to provide technical assistance.

- Applicants must participate in a national evaluation of this project. Each grantee shall coordinate with their national MSPI project officer. The grantee shall work with the IHS staff and national MSPI project officer to develop a local process to measure specific outcome measures as consistent with national GPRA measures and IHS

Division of Behavioral Health (DBH) program requirements.

- Up to a maximum of 20 percent of grant funds may be used to develop or enhance the grantee's local evaluation capacity for the purposes of meeting MSPI data collection requirements. All applicants will be required to employ the use of the Resource and Patient Management System (RPMS) and the RPMS behavioral health module or IHS Electronic Health Record. If the applicant is unable to utilize the RPMS as an information management system, the applicant should demonstrate within the application how they will satisfy the data collection requirements. Applicants will also be required to adhere to any and all GPRA requirements, where applicable.

- Other costs in conjunction with the evaluation of this project may include training (onsite and off-site), conference calls, and information sharing using e-mail and/or faxing materials.

- Applicants are expected to publicize their activities in the affected communities. The action plan may include:

- Identification of one to three environmental issues that community members have stated need to be addressed in order to promote the prevention and/or treatment of methamphetamine abuse and/or suicide. There should be some record that this has been identified as an issue that needs to be addressed. This may include local newspapers, Tribal Council meetings, Town Hall meetings, or radio programs.

- Community programs should inform their community about the program and its goals and the baseline data for the outcome indicators. The program should establish a time frame and setting to share their progress with the community. The settings could include regular programs on the radio station, monthly newspaper reports or newsletter mailings, or one or more graph or 'thermometer' type billboards or centrally placed posters that track progress.

- The action plan should include a community gathering that is held to close out the project with an accounting of the progress by indicators and dialogue about next steps.

## 6. Other Submission Requirements

**Electronic Submission**—The preferred method for receipt of applications is electronic submission through Grants.gov. However, should any technical challenges arise regarding the submission, please contact Grants.gov Customer Support at (800) 518-4726 or [support@grants.gov](mailto:support@grants.gov). The Contact Center hours of operation are 24 hours a day, 7 days a week. It is closed on all Federal holidays. The applicant must seek assistance at least fifteen days prior to the application deadline. Applicants that do not adhere to the timelines for Central Contractor Registry (CCR) and/or Grants.gov registration and/or requesting timely assistance with technical issues will not be a candidate for paper applications.

To submit an application electronically, please use the <http://www.Grants.gov> and select "Apply for Grants" link on the home page. Download a copy of the application package on the Grants.gov Web site, complete it offline and then upload and submit the application via the Grants.gov site. You may not e-mail an electronic copy of a grant application to IHS.

Applications that meet eligibility requirements, are complete, and conform to this announcement will be subject to the competitive objective review and evaluation by an Ad Hoc Review Committee of Tribal, IHS, and other Federal or non-Federal reviewers. The review process will be directed by the DGO staff to ensure compliance with the Department of Health and Human Services (HHS) and IHS grant review guidelines.

In addition, the following factors may affect the funding decision:

Awards may start on February 1, 2010.

**VI. Award Administration Information****1. Award Notices**

The Notice of Award (NoA) will be initiated by the DGO and will be mailed via postal mail to each entity that is approved for funding under this announcement. **3. Indirect-Cost Requirements**

This section applies to all grant recipients that request reimbursement of indirect costs in their grant application. In accordance with HHS Grants Policy Statement, Part II-27, IHS requires applicants to have a current indirect cost rate agreement in place prior to award. The rate agreement must be prepared in accordance with the applicable cost principles and guidance as provided by the agency or office. A current rate means the rate covering the applicable activities and the award budget period. If the current rate is not on file with the DGO at the time of award, the indirect cost portion of the budget will be restricted and not available to the recipient until the current rate is provided to the DGO.

Generally, indirect costs rates for IHS grantees are negotiated with the Division of Cost Allocation <http://rates.psc.gov/> and the Department of the Interior (National Business Center) <http://www.nbc.gov/acquisition/ics/icshome.html>. If your organization has questions regarding the indirect cost policy, please contact the DGO at (301) 443-5204.
