SUPPLEMENTARY INFORMATION:

OMB Control No: 3060-0270.

Title: Section 90.443, Content of Station Records.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, not-for-profit institutions and state, local or tribal government.

Number of Respondents: 65,295 respondents; 65,295 responses.

Estimated Time Per Response: .25 hours (15 minutes).

Frequency of Response: Recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection of information is contained in 47 U.S.C. Section 303(j).

Total Annual Burden: 16,324 hours.

Privacy Act Impact Assessment: Yes. The FCC maintains a system of records notice (SORN), FCC/WTB-1, "Wireless Services Licensing Records," that covers the collection, purpose(s), storage, safeguards, and disposal of the records

of private land mobile radio licensees under 47 CFR 90.443. The FCC published the SORN on April 5, 2006 (71 FR 17324, 17269). The FCC completed a Privacy Impact Assessment (PIA) as required by OMB Memorandum, M-03-22 (September 22, 2003) on November 5, 2008. The PIA may be viewed on the FCC's Privacy Act webpage at: http://www.fcc.gov/omd/privacyact/System_of_records/pia-uls.pdf.

Nature and Extent of Confidentiality: There is a need for confidentiality with respect to all Private Land Mobile Radio service filers subject to this information collection. Information on private land mobile radio licensees is maintained in the Commission's system of records, FCC/WTB-1, "Wireless Services Licensing Records." The licensee records will be publicly available and routinely used in accordance with subsection (b) of the Privacy Act. FCC Registration Numbers (FRNs) and material which is afforded confidential treatment pursuant to a request made under 47 CFR 0.459 will not be available for public inspection. Any personally identifiable information (PII) that individual applicants provide is covered by FCC/WTB-1 and these and all other records may be disclosed pursuant to the Routine Uses as stated in the SORN.

Need and Uses: The Commission is requesting an extension (no change in the recordkeeping requirement) of this information collection from the Office of Management and Budget (OMB) in order to obtain the full three year clearance from them. The Commission's estimates have increased since the 2007 submission to the OMB. The Commission is now reporting a 7,885 increase in the number of respondents which increased the total annual burden by 11,559 hours. This adjustment reflects more accurate estimates for Paperwork Reduction Act purposes.

Section 90.443 requires that the dates and pertinent details of any maintenance performed on station equipment, and the name and address of the service technician who did the work be entered in the station records. These records will reflect whether or not maintenance of the licensee's equipment has been performed.

The maintenance records may be used by the licensee or Commission field personnel to note any recurring equipment problems or conditions that may lead to degraded equipment performance and/or interference generation. Tower lighting records are required to ensure that the licensee is aware of the tower light condition and proper operation, in order to prevent

and/or correct any hazard to air navigation.

Federal Communications Commission.

Secretary,

Office of the Secretary,

Office of Managing Director.

FEDERAL RESERVE SYSTEM

Federal Open Market Committee; Domestic Policy Directive of November 3 and 4, 2009

In accordance with § 271.25 of its rules regarding availability of information (12 CFR part 271), there is set forth below the domestic policy directive issued by the Federal Open Market Committee at its meeting held on November 3 and 4, 2009.¹

The Federal Open Market Committee seeks monetary and financial conditions that will foster price stability and promote sustainable growth in output. To further its long-run objectives, the Committee seeks conditions in reserve markets consistent with federal funds trading in a range from 0 to ¼ percent. The Committee directs the Desk to purchase agency debt agency and agency MBS during the intermeeting period with the aim of providing support to private credit markets and economic activity. The timing and pace of these purchases should depend on conditions in the markets for such securities and on a broader assessment of private credit market conditions. The Desk is expected to execute purchases of about \$175 billion in housing-related agency debt and about \$1.25 trillion of agency MBS by the end of the first quarter of 2010. The Desk is expected to gradually slow the pace of these purchases as they near completion. The Committee anticipates that outright purchases of securities will cause the size of the Federal Reserve's balance sheet to expand significantly in coming months. The System Open Market Account Manager and the Secretary will keep the Committee informed of ongoing developments regarding the System's balance sheet that could affect the attainment over time of the Committee's objectives of maximum employment and price stability.

¹ Copies of the Minutes of the Federal Open Market Committee at its meeting held on November 3 and 4, 2009, which includes the domestic policy directive issued at the meeting, are available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The minutes are published in the Federal Reserve Bulletin and in the Board's annual report.

By order of the Federal Open Market Committee, November 30, 2009.

Brian F. Madigan,

Secretary, Federal Open Market Committee.
