

16.63 acres of land adjacent to and south of Utah Transit Authority's commuter rail right-of-way. The facilities to be constructed include the bus loading areas, the park-and-ride lot, and landscaping. The proposed action will consist of approximately 850 parking stalls, 10 bus bays, and landscaping. The bus bays will be located on the north side of the site near a commuter rail station platform. The facilities will also include bus shelters next to the bus bays or a full canopy covering all of the bus bays. *Final agency actions:* Section 106 Memorandum of Agreement; project-level air quality conformity determination; Section 4(f) evaluation and finding; and a FONSI signed July 7, 2009. *Supporting documentation:* EA for the Provo Inter-modal Center dated May 2009.

10. *Project name and location:* Southside Maintenance Facility Replacement Project, Norfolk, Virginia. *Project sponsor:* Hampton Roads Transit. *Project description:* The project consists of the demolition and reconstruction of a bus maintenance facility located at 509 18th Street. The reconstruction will include improved site access along 18th Street, additional lighting and improved ventilation for maintenance facilities, increased maintenance bay space from 14 feet to 20 feet wide, and improved site drainage to reduce significant flooding and contain runoff. *Final agency actions:* Section 106 finding of no adverse effect; project-level air quality conformity determination; no use of Section 4(f) properties; and a FONSI signed June 29, 2009. *Supporting documentation:* EA for the Southside Maintenance Facility Replacement dated May 2009.

11. *Project name and location:* Knoxville Station Transit Center, Knoxville, Tennessee. *Project sponsor:* City of Knoxville. *Project description:* The Knoxville Station Transit Center facility is proposed to be a multi-use, multi-story transit center that would house passenger waiting and transfer facilities for existing and projected future bus volumes (20 bus bays). In addition to the 20 bus bays, the center would also have passenger waiting and transfer facilities for shuttles, access to trolley and taxi service, bicycle facilities including bike racks, and passenger and driver amenities to include public restrooms, vending, and on-site security. Some of these amenities would be available on the platform. The main waiting area and the KAT customer service and administration offices will be housed in an adjacent station house occupying 15,000 square feet on two

levels. The connection between the station house and the bus platform would be made accessible by a pedestrian bridge. *Final agency actions:* Section 106 finding of no adverse effect; project-level air quality conformity determination; Section 4(f) *de minimis* finding; and a FONSI signed September 21, 2007. *Supporting documentation:* EA for the Knoxville Central Station Transit Center Project dated July 2007.

12. *Project name and location:* AMTRAN Transit Facility Project, Altoona, Pennsylvania. *Project sponsor:* Transportation and Motor Buses for Public Use Authority (AMTRAN). *Project description:* The project will include the purchase of a 3.2-acre commercial lot with three abandoned vacant commercial buildings (two buildings will be updated to current building codes and one will be demolished); conversion of the former trolley barn building into a 6,840-square-foot bus storage facility with the capacity to store 8–12 vehicles and additional outside bus parking with open space for future expansion; creation of an additional 1,780 square feet of conference room space; preparation of approximately 2.3 acres of the site for related development including the demolition of a building; and the creation of a mini transfer hub. *Final agency actions:* Section 106 finding of no adverse effect; project-level air quality conformity determination; no use of Section 4(f) properties; and a FONSI signed April 7, 2008. *Supporting documentation:* EA for the AMTRAN Transit Facility Expansion Project dated February 1, 2008.
