Food and Nutrition Service

Title: Federal Collection Methods for Supplemental Nutrition Assistance Program Recipient Claims.

OMB Control Number: 0584-0446.

Summary of Collection: Section 13(b) of the Food and Nutrition Act of 2008 and Supplemental Nutrition Assistance Program (SNAP) regulations at 7 CFR 273.18 require State agencies to refer delinquent debtors for SNAP benefit over-issuance to the U.S. Department of Treasury for collection. The Debt Collection Improvement Act of 1995 requires these debts to be referred to Treasury for collection when they are 180 days or more delinquent. Through the Treasury Offset Program (TOP), 31 CFR Part 285, payments such as Federal income tax refunds, Federal salaries and other Federal payments payable to these delinquent debtors will be offset and the amount applied to the delinquent debt. TOP offers debtors an opportunity to repay the claim, and an opportunity to request a review of the validity of the collection action.

Need and Use of the Information: The information collected is used to operate Federal offset. State agencies collect this information to offset debts as a result of over-issuance of SNAP benefits that become delinquent claims. Without the information, compliance with the DCIA would not be possible and departmental participation in TOP would be jeopardized.

Description of Respondents: State, Local, or Tribal Government; Individual or households.

Number of Respondents: 253,724.

Frequency of Responses: Recordkeeping; Reporting: On occasion; Annually.

Total Burden Hours: 49,404.

Title: Supplemental Form for Collecting Taxpayer Identifying Numbers.

OMB Control Number: 0584-0501.

Summary of Collection: Section 31001(y) of the Debt Collection Improvement Act of 1996 (Pub. L. 104-134) requires all Federal agencies to obtain taxpayer identifying number (TINs) from all individuals and entities they enter into a direct payment agreement with to furnish the TIN

whenever a request for payment is submitted to Federal payment officials. A taxpayer identifying number can be either a Social Security Number or an Employer Identification Number.

Need and Use of the Information: The Food and Nutrition Service (FNS) will collect information using form FNS-711, "Supplemental Form for Collecting Taxpayer Identifying Numbers" from individuals and entities receiving payments directly from the agency under any of the various nutrition and nutrition education programs administered by the Agency. The information is collected at the time of program application, and is only collected once unless an entity renews its application or reapplies for program participation. If the information were not collected, FNS would be unable to include taxpayer identifying numbers with each certified request for payment.

Description of Respondents: Business or other for-profit; Individuals or households; Not-for-profit institutions.

Number of Respondents: 800.

Frequency of Responses: Report: On occasion; Other (at time of app.).

Forest Service

Title: Forest Industries, Residential Fuel Wood, and Post Data Collection Systems

OMB Control Number: 0596-0010

Summary of Collection: The Forest and Range Renewable Resources Planning Act of 1974 (Pub. L. 93-278) and the Forest and Rangeland Renewable Resources Research Act of 1978 (Pub. L. 95-307) amended by the Energy Security Act of 1980 (42 U.S.C. 8701) require the Forest Service (FS) to evaluate trends in the use of logs and wood chips, to forecast anticipated levels of logs and wood chips, and to analyze changes in the harvest of the resources. Forest product and other wood-using industries are important to state, regional, and national economies. In most southern states, the value of rounded timber products is ranked either first or second in relation to other major agricultural crops. The importance and value of the timber products industry is significant in other regions of the United States as well. The FS will collect information using questionnaires.

Need and Use of the Information: To monitor the types, species, volumes, sources, and prices of the timber products harvested throughout the Nation, FS will collect information using the "Pulpwood Received Questionnaire," "Logs and Other Roundwood Received Questionnaire," and the "Residential Fuel Wood and

Post Questionnaire." The data will be used to develop specific economic development plans for a new forest-related industry in a State and to assist existing industries in identifying raw material problems and opportunities. If the information were not collected, data would not be available for sub-state, state, regional, and national policy makers and program developers to make decisions related to the forestland on a scientific basis.

Description of Respondents: Business or other for-profit; Not-for-profit institutions.

Number of Respondents: 4,011.

Frequency of Responses: Reporting: On occasion; Annually.

Total Burden Hours: 2,019.

Forest Service

Title: Objection to New Land Management Plans, Plan Amendments, and Plan Revisions

OMB Control Number: 0596-0158

Summary of Collection: The process for submitting objections to new land management plans, plan amendments, and plan revisions is set forth in Title 36 CFR 219.13. An objector must provide their name, mailing address, telephone number, and identify the specific proposed plan, amendment, or revision that is the subject of the objection. This is the minimum information needed for a citizen or organization to explain the nature of and rational for objections to new land management plans, plan amendments, and plan revisions.

This information must accompany a concise statement explaining how the environmental disclosure documents, if any, and proposed plan, amendment, or revision are inconsistent with law, regulation, Executive Order, or policy and any recommendations for change. The Reviewing Officer then reviews the objection(s) and relevant information and responds to the objector(s) in writing.

Need and Use of the Information: The information collected (objections to new land management plans, plan amendments, and plan revisions) is analyzed and responded to by a Forest Service official. At times, this information is used to modify land and resource management planning decisions. Forest supervisors and regional forests that make decisions on land and resource management planning also use the information. Without this information, the agency's decision-making will suffer from a reduction in public input and agency relationships with the public will deteriorate.

Description of Respondents:

Individuals or households; Business or other for-profit; Not-for-profit institutions; State, Local or Tribal Government.

Number of Respondents: 1,210.

Frequency of Responses: Reporting: Other (once).

Total Burden Hours: 12,100.
