6. Any other reservations that the authorized officer determines appropriate to ensure public access and proper management of Federal land and interests therein.

Detailed information concerning this proposed project, including, but not limited to, documentation relating to compliance with applicable environmental and cultural resource laws, is available for review at the address above.

On December 17, 2009, the land described above will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for lease and conveyance under the R&PP Act, and leasing under the mineral leasing laws.
