

Bilateral Agreement for the conservation of the polar bears occurred in Moscow, Russia in September, 2009. The Scientific Working Group, which is established under this Bilateral Agreement, will make recommendations on management and research needs to the four commissioners.

Comment 9: The Service should provide an explanation as to why it believes that 2,000 can be used as the best population estimate as well as the minimum population size.

Response: The population estimate of 2,000 is based on extrapolated den data and is over 10 years old. Although this number is not considered reliable for management purposes, it is currently the best scientific information available for these calculations.

Comment 10: The Service should revise downward its estimate of the maximum net productivity rate for this population to reflect ongoing and predicted changes in polar bear habitat that will prevent polar bear stocks from achieving growth rates that might be expected in a favorable environment.

Response: See response to Comment 2 for the Southern Beaufort Sea SAR.

Comment 11: The Service should use the first meeting of the United States–Russia Polar Bear Commission to address the over harvest of this stock.

Response: This is one of the action items assigned to the Scientific Working Group, which will make recommendations to the Bilateral Commission in 2010.

Comment 12: The Service should mention that since the stock is now considered depleted under the MMPA, the Federal Government now has authority to regulate harvest levels.

Response: Although we concur with the above statement, the Service would rather work through the U.S. Russia Bilateral Agreement for the Conservation of Polar Bears to develop management and research priorities, including guidelines for determining appropriate harvest levels for this population stock. We believe that working cooperatively with our Russian colleagues will result in a more effective management strategy for this population.

Bureau of Land Management

[LLMTB07900 09 L10100000.PH0000 LXAMANMS0000]

Notice of Public Meeting, Western Montana Resource Advisory Council Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Land Policy and Management Act (FLPMA) and the Federal Advisory Committee Act of 1972 (FACA), the U.S. Department of the Interior, Bureau of

Land Management (BLM), the Western Montana Resource Advisory Council will meet as indicated below.

DATES: The Western Montana RAC will meet Feb. 10, 2010 at 9 a.m. The public comment period for the meeting will begin at 11:30 a.m. and the meeting is expected to adjourn at approximately 3 p.m.

ADDRESSES: The meeting will be held at the Butte Field Office, 106 N. Parkmont, Butte, Montana.

FOR FURTHER INFORMATION CONTACT: David Abrams, Western Montana Resource Advisory Council Coordinator, Butte Field Office, 106 North Parkmont, Butte, Montana 59701, telephone 406-533-7617.

SUPPLEMENTARY INFORMATION: The 15-member Council advises the Secretary of the Interior, through the BLM, on a variety of planning and management issues associated with public land management in western Montana. At the February meeting, agenda items include: The BLM's Access Manager Program and a review of Forest Service fee proposals.

All meetings are open to the public. The public may present written comments to the Council. Each formal Council meeting will also have time allocated for hearing public comments. Depending on the number of persons wishing to comment and time available, the time for individual oral comments may be limited. Individuals who plan to attend and need special assistance, such as sign language interpretation, or other reasonable accommodations, should contact the BLM as provided below.

Richard M. Hotaling,

District Manager, Western Montana District.
