

by various subgroups and minority groups, including women veterans. If VA determines that under-utilization by any of these groups exists, the State shall establish a program to inform members of these groups about benefits available to them. If a significant number or portion of the population eligible to be served or likely to be directly affected by the grant program needs benefits information in a language other than English, the State shall make such information available in the necessary language.

(b) A State veterans cemetery that has received an Establishment, Expansion, and Improvement Project grant or an Operation and Maintenance Project grant shall be operated and maintained as follows:

(1) Buildings, grounds, roads, walks, and other structures shall be kept in reasonable repair to prevent undue deterioration and hazards to users.

(2) The cemetery shall be kept open for public use at reasonable hours based on the time of the year.

(c) VA, in coordination with the State, shall inspect the project for compliance with the standards set forth in subpart B for Establishment, Expansion, and Improvement Projects and with the standards set forth in subpart C for Operation and Maintenance Projects at the project's completion and at least once in every 3-year period following completion of the project throughout the period the facility is operated as a State veterans cemetery. The State shall forward to the Director, State Cemetery Grants Service, a copy of the inspection report, giving the date and location the inspection was made and citing any deficiencies and corrective action to be taken or proposed.

(d) Failure of a State to comply with any of paragraphs (a) through (c) of this section shall be considered cause for VA to suspend any payments due the State on any project until the compliance failure is corrected.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you manufacture, import, process, or use the chemical substance contained in this proposed revocation. Potentially affected entities may include, but are not limited to:

- Manufacturers, importers, or processors of the subject chemical substance (NAICS codes 325 and 324110), e.g., chemical manufacturing and petroleum refineries.

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. To determine whether you or your business may be affected by this action, you should carefully examine the applicability provisions in § 721.5. If you have any questions

regarding the applicability of this action to a particular entity, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- Describe any assumptions and provide any technical information and/or data that you used.
- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- Provide specific examples to illustrate your concerns and suggest alternatives.
- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- Make sure to submit your comments by the comment period deadline identified.

II. Background

A. What Action is the Agency Taking?

In the **Federal Register** of January 22, 1998 (63 FR 3393) (FRL-5720-3), EPA promulgated a SNUR for the chemical substance covered by PMN P-95-1772. This non-5(e) SNUR designated certain activities as significant new uses based

on the concern criteria identified in § 721.170(b)(4)(ii). EPA has received and reviewed test data for the chemical substance, and, based on that test data, EPA now proposes to revoke the SNUR pursuant to § 721.185. In this unit, EPA provides a brief description of this chemical substance, including the PMN number, chemical name (generic name if the specific name is claimed as CBI), CAS number (if assigned and not claimed as CBI), the **Federal Register** publication date and reference, the docket number, the basis for revoking the SNUR under § 721.185, and the CFR citation of the SNUR.

PMN Number P-95-1772

Chemical name: Polyalkyl phosphate (generic).

CAS number: Not available.

Federal Register publication date and reference: January 22, 1998 (63 FR 3393).

Docket number: OPPTS-50628.

Basis for revocation of SNUR: EPA issued a SNUR for this substance based on the concern criteria at § 721.170(b)(4)(ii). Subsequently, the PMN submitter petitioned EPA to revoke the SNUR based on the results of submitted biodegradation testing. The biodegradation testing demonstrated that the substance is readily biodegradable, mitigating concerns for chronic toxicity to aquatic organisms. Therefore, EPA no longer finds that releases to water resulting in stream concentrations that exceed 1 parts per billion (ppb) may cause significant adverse environmental effects. Based on available information, the substance no longer meets the concern criteria at § 721.170(b)(4)(ii). Therefore, EPA proposes that the SNUR for this chemical substance be revoked pursuant to § 721.185(a)(4).

CFR citation: 40 CFR 721.5995.

B. What is the Agency's Authority for Taking this Action?

Section 5(a)(2) of TSCA (15 U.S.C. 2604(a)(2)) authorizes EPA to determine that a use of a chemical substance is a "significant new use." EPA must make this determination by rule after considering all relevant factors, including those listed in TSCA section 5(a)(2). Once EPA determines that a use of a chemical substance is a significant new use, TSCA section 5(a)(1)(B) requires persons to submit a significant new use notice (SNUN) to EPA at least 90 days before they manufacture, import, or process the chemical substance for that use. The mechanism for reporting under this requirement is established under § 721.5.

Upon conclusion of the review for P-95-1772, based on the concern criteria

in § 721.170(b)(4)(ii) as discussed in Unit II.A., EPA determined that there was a concern for potential environmental effects of the substance and promulgated a non-5(e) SNUR for this chemical substance.

Under § 721.185, EPA may at any time revoke a SNUR for a chemical substance which has been added to subpart E of 40 CFR part 721 if EPA makes one of the determinations set forth in § 721.185(a)(1) through (a)(6).

Revocation may occur on EPA's initiative or in response to a written request. Under § 721.185(b)(3), if EPA concludes that a SNUR should be revoked, the Agency will propose the changes in the **Federal Register**, briefly describe the grounds for the action, and provide interested parties an opportunity to comment.

EPA has determined that the criteria set forth in § 721.185(a)(4) have been satisfied for the chemical substance; therefore, EPA is proposing to revoke the SNUR provisions for this chemical substance. When this revocation becomes final, EPA will no longer require notice of intent to manufacture, import, or process this substance for any significant new uses. In addition, export notification requirements under section 12(b) of TSCA triggered by this SNUR will no longer be required.

III. Statutory and Executive Order Reviews

This proposed rule would revoke or eliminate an existing regulatory requirement and does not contain any new or amended requirements. As such, the Agency has determined that this proposed SNUR revocation would not have any adverse impacts, economic or otherwise.

The Office of Management and Budget (OMB) has exempted these types of regulatory actions from review under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). This proposed rule does not contain any information collections subject to approval under the Paperwork Reduction Act (PRA), (44 U.S.C. 3501 *et seq.*). Since this proposed rule eliminates a reporting requirement, the Agency certifies pursuant to section 605(b) of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*), that this SNUR revocation would not have a significant economic impact on a substantial number of small entities.

For the same reasons, this action does not require any action under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4). This proposed rule has neither Federalism implications, because it would not have substantial direct effects on States, on

the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999), nor tribal implications, because it would not have substantial direct effects on one or more Indian Tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified in Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 9, 2000).

This action is not subject to Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997), because this is not an economically significant regulatory action as defined under Executive Order 12866, and it does not address environmental health or safety risks disproportionately affecting children. It is not subject to Executive Order 13211, entitled *Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001), because this action is not expected to affect energy supply, distribution, or use. Because this action does not involve any technical standards, section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note), does not apply to this action. This action does not involve special considerations of environmental justice related issues as required by Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994).
