Dana Heavy Vehicles System Group, Heavy Vehicle Division, Glasgow, KY; Notice of Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, as amended, an investigation was initiated on January 22, 2009 in response to a worker petition filed on behalf of workers at Dana Heavy Vehicles System Group, Heavy Vehicle Division, Glasgow, Kentucky.

The petitioning group of workers is covered by an active certification Dana Holding Corporation, Heavy Vehicle Division, Glasgow, Kentucky (TA-W-63,305) which expires on May 30, 2010. Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, DC this 6th day of February 2009.

BILLING CODE 7535-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-06869; NRC-2009-0069]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment for Unitech Services Group, Honolulu, HI

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT:

Jack E. Whitten, Chief, Nuclear Materials Safety Branch B, Division of Nuclear Materials Safety, Region IV, U.S. Nuclear Regulatory Commission, 612 E Lamar Blvd, Arlington, Texas 76011. Telephone: (817) 860-8197; fax number: (817) 860-8188; e-mail: jack.whitten@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to Material License No. 53-13668-01, issued to Unitech Services Group (the licensee), to authorize the release of its former nuclear laundry facility at 3050 Ualena Street, Suite C, in Honolulu, Hawaii, and to terminate the license. NRC has prepared an Environmental Assessment (EA) in support of this amendment in accordance with the requirements of 10 CFR Part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The amendment will be issued following the publication of this Notice.

II. EA Summary

The purpose of the proposed amendment is to authorize the release of the licensee's facility located in Honolulu, Hawaii. Specifically, the NRC plans to approve the licensee's request

to release the facility for unrestricted use and to terminate the license. On September 4, 2008, Unitech Services Group requested that NRC approve the proposed amendment. The staff has prepared this EA in support of the proposed license amendment.

Docket file records indicate that the licensee conducted nuclear laundry operations at the Ualena Street location from 1974–2007. In a letter to the NRC dated August 16, 2007, the licensee stated that it had permanently ceased operations at this site. The primary radionuclide of concern was cobalt-60. Other radionuclides of concern included nickel-63, manganese-54, cobalt-58, iron-55, and zinc-65. The NRC staff determined that a decommissioning plan was not required because decommissioning instructions were provided in the license application. The licensee commenced with decommissioning during October 2007 and completed decommissioning during September 2008. The NRC conducted two inspections during the decommissioning process. During the inspections, the NRC staff observed that the licensee was conducting decommissioning in accordance with license requirements. The licensee submitted a final status survey report to the NRC by letter dated September 4, 2008. The licensee's final status survey results, in conjunction with the NRC's confirmatory survey results, demonstrated that the licensee had effectively remediated the site in accordance with regulatory guidance documents. Because the site had been effectively remediated in accordance with NRC guidance and license requirements, the NRC staff has concluded that the facility meets the criteria of 10 CFR Part 20, Subpart E, for unrestricted release and for termination of the license.

The Hawaii State Department of Health was consulted about this EA, and the State had no comments on the EA or the proposed action.

III. Finding of No Significant Impact

On the basis of the EA, NRC has concluded that there are no significant environmental impacts from the proposed amendment and has determined not to prepare an environmental impact statement.

IV. Further Information

Documents related to this action, including the application for amendment and supporting documentation, are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site,

you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS accession numbers for the documents related to this notice are:

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-143; NRC-2008-0525]

Notice of the Nuclear Regulatory Commission Consent to Indirect Transfer of Control and Issuance of License Amendment to Effectuate Such Transfer for Nuclear Fuel Services, Inc., Erwin, TN

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of approval of indirect transfer of control and issuance of License Amendment to effectuate such transfer.

FOR FURTHER INFORMATION CONTACT:

Kevin Ramsey, Project Manager, Fuel Manufacturing Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: 301-492-3123; fax number: 301-492-3363; e-mail: Kevin.Ramsey@nrc.gov.

SUPPLEMENTARY INFORMATION: Pursuant to 10 CFR 2.106, the U.S. Nuclear Regulatory Commission (NRC) is providing notice of NRC consent to the indirect transfer of control and issuance of License Amendment 85 to Material License No. SNM-124. This action authorized the indirect transfer of control over licensed activities from NFS Services, LLC, to NOG-Erwin Holdings, Inc. NRC's receipt of the request to take this licensing action was previously noticed in the **Federal Register** on September 19, 2008 (73 FR 54437-54439), with a notice of an opportunity to request a hearing. No requests for a hearing were received.

By Order dated December 23, 2008, NRC approved the proposed indirect transfer. The order was accompanied by a Safety Evaluation Report (SER) documenting the basis for the NRC staff's approval. The transfer took place on December 31, 2008, on which date License Amendment 85 was issued. These actions comply with the standards and requirements of the Atomic Energy Act of 1954, as amended, and NRC's rules and regulations as set forth in 10 CFR Chapter 1.
