Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purposes of the Technology and Media Services for Individuals with Disabilities program are to: (1) Improve results for children with disabilities by promoting the development, demonstration, and use of technology; (2) support educational media services activities designed to be of educational value in the classroom setting to children with disabilities; and (3) provide support for captioning and video description that are appropriate for use in the classroom setting.

Priority: In accordance with 34 CFR 75.105(b)(2)(v), this priority is from allowable activities specified in the statute, or otherwise authorized in the statute (see sections 674(c) and 681(d) of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2010 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:
Technology and Media Services for Individuals with Disabilities—Television Access

Background

The Federal Communications Commission (FCC) is responsible for implementing and monitoring compliance with the captioning requirements of the Telecommunications Act of 1996 (Act). Consistent with the Act, the FCC requires most television programs to be captioned, but provides for certain exemptions to this requirement. The FCC does not have similar requirements or exemptions in place for video description, which provides access to television programs for individuals with blindness or low vision. Therefore, only a limited number of television programs include video description. The following Web sites provide more information on captioning and video description: <http://www.fcc.gov/cgb/consumerfacts/closedcaption.html> and <http://www.fcc.gov/cgb/dro/video-description.html>.

The Department has made awards for television access since 1995 in order to provide video description and captioning under the Technology and Media Services for Individuals with Disabilities program. The following Web site contains abstracts of previously funded projects: <http://publicddb.tadnet.org/>. (Use the keyword search function with the term “video description.”) Despite these efforts, not all television programs that are appropriate for use in the classroom setting for children with disabilities are being video described or captioned.

Priority: The purpose of this absolute priority for Television Access is to fund cooperative agreements that will improve the learning opportunities for children with disabilities by providing access to television programming through video description and captioning. This project will support access—through video description and captioning—to widely available television programs that are appropriate for use in the classroom setting and are not otherwise required to be captioned by the FCC.

To be considered for funding under this absolute priority, applicants must meet the application requirements contained in the priority. All projects

funded under the absolute priority also must meet the programmatic and administrative requirements specified in the priority.

Application Requirements. To meet the requirements of this priority, the applicant, at a minimum, must—

(a) Include in the application, the criteria the applicant will use to select television programs of high educational value that are widely available and are appropriate for use in the classroom setting for children with disabilities at the preschool, elementary, or secondary level. The application must also discuss how, in selecting the programming to be video described, or video described and captioned, the applicant will take into account the preferences of educators, students with disabilities, and the parents of these students;

(b) Identify, in the application, the extent to which the programming selected for video description or video description and captioning is widely available;

(c) Identify, in the application, the total number of program hours proposed to be made accessible through video description, or video description and captioning under the project.

(d) Specify, in the application, the cost per hour for video description and, if the applicant is proposing both video description and captioning, the cost per hour for video description and for captioning;

(e) For each program to be video described or video described and captioned, identify, in the application, the source of any private or other public support, and the projected dollar amount of that support, if any;

(f) Provide evidence, in the application, of the willingness of potential program providers or program owners, as appropriate, to permit and facilitate the video description or the video description and captioning of their programs;

(g) Provide, in the application, assurances from potential program providers or program owners, as appropriate, stating that, after their programming is video described or video described and captioned, the program providers or program owners, as appropriate, will require that the programming made accessible under this project will continue to contain those video descriptions or video descriptions and captions;

(h) Identify, in the application, the anticipated shelf-life and range of distribution of the programming that it proposes to video describe or video describe and caption under this project, without further costs to the project;

(i) If the applicant is proposing both video description and captioning, provide, in the application, assurances from potential program providers or program owners, as appropriate, stating that programming captioned under this project would not otherwise be captioned to meet the FCC's captioning requirements, or are specifically exempt from the FCC's captioning requirements; and

(j) Budget for the project director to attend an annual three-day Project Directors' meeting in Washington, DC, and another annual two-day trip to Washington, DC to collaborate with the Federal project officer and the other projects funded under this priority to share information, and to discuss findings and methods of dissemination.

Programmatic and Administrative Requirements. In addition, projects must—

(a) Establish a diverse consumer advisory group that includes individuals with vision or hearing loss, parents of children with disabilities, educators, and individuals from under-represented groups. This group must convene at least annually for the purpose of certifying that each program to be video described or video described and captioned with project funds is of high educational value and is appropriate for use in a preschool, elementary, or secondary level classroom for children with disabilities, taking into account the educational needs, including the intellectual, cognitive, social and emotional needs, of children;

(b) Implement procedures for monitoring the extent to which the quality of the captions and video descriptions developed under this project increase the availability and usefulness of the television program for children with disabilities, and use this information to make refinements in project operations; and

(c) If the project maintains a Web site, include relevant information and documents in a format that meets a government or industry-recognized standard for accessibility.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (APA) (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed priorities and requirements. Section 681(d) of IDEA, however, makes the public comment requirements of the APA inapplicable to the priority in this notice.

Applicable Regulations: The Education Department General

Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

V. Application Review Information

1. *Selection Criteria:* The selection criteria for this program are from 34 CFR 75.210 and are listed in the application package.

2. *Review and Selection Process:* In the past, the Department has had difficulty finding peer reviewers for certain competitions, because so many individuals who are eligible to serve as peer reviewers have conflicts of interest. The Standing Panel requirements under IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that, for some discretionary grant competitions, applications may be separated into two or more groups and ranked and selected for funding within specific groups. This procedure will make it easier for the Department to find peer reviewers, by ensuring that greater numbers of individuals who are eligible to serve as reviewers for any particular group of applicants will not have conflicts of interest. It also will increase the quality, independence, and fairness of the review process, while permitting panel members to review applications under discretionary grant competitions for which they also have submitted applications. However, if the Department decides to select an equal number of applications in each group for funding, this may result in different cut-off points for fundable applications in each group.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

4. *Performance Measures:* Under the Government Performance and Results Act of 1993 (GPRA), the Department has established a set of performance measures, including long-term measures, that are designed to yield information on various aspects of the effectiveness and quality of the Technology and Media Services for Individuals with Disabilities program. These measures focus on the extent to which projects are of high quality, are relevant to improving outcomes of children with disabilities, and contribute to improving outcomes for children with disabilities. We will collect data on these measures from the projects funded under this competition.

Grantees will be required to report information on their projects' performance in their annual performance reports to the Department (34 CFR 75.590).

BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

Notice of a Waiver of Section 1605 of the American Recovery and Reinvestment Act of 2009 (ARRA) for Poplar School District, Poplar, MT

ACTION: Notice of a Waiver of Section 1605 of the American Recovery and Reinvestment Act of 2009 (ARRA) for Poplar School District, Poplar, Montana.

SUMMARY: In this notice, the Department of Education (the Department) announces its waiver of the Buy American requirements in section 1605(a) of the ARRA (Buy American Requirements) for the Poplar School District in Poplar, Montana (Poplar District) and the justification for this waiver. This waiver permits use of imported T8 4-foot electronic ballasts in the Poplar District's lighting project,

which is supported with Impact Aid funds appropriated under the ARRA.

SUPPLEMENTARY INFORMATION: The Department provided Poplar District with an Impact Aid ARRA formula grant for school construction activities authorized under section 8007(a) of the Elementary and Secondary Education Act of 1965, as amended. The Poplar District proposes to use these funds for a lighting project, but reports that the particular lights needed (T8 4-foot electronic ballasts) for this construction project are not produced in the United States.

In accordance with section 1605(c) of the ARRA, the Department hereby provides notice that it is granting a waiver of the Buy American Requirements for the Poplar District's lighting project. This notice constitutes the detailed written justification that the Department is required to publish in instances when it grants such a waiver pursuant to section 1605(b) of the ARRA.

Section 1605(a) of the ARRA requires that none of the appropriated funds be used for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States. The ARRA further provides that this requirement does not apply, and that a waiver may be granted, when the head of the Federal department or agency involved finds that: (1) Applying these requirements would be inconsistent with the public interest; (2) iron, steel, and relevant manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or (3) inclusion of iron, steel, and relevant manufactured goods produced in the United States will increase the overall cost of the project by more than 25 percent.

The Secretary has determined that a section 1605(b) waiver of the Buy American Requirements is appropriate for the Poplar District's lighting project because, based on the Department's research, the particular lights needed for this project are not manufactured in the United States. The Department bases this determination on information provided by the Poplar District as well as the Department's own research. The Poplar District has provided information to the Department documenting that there are no T8 4-foot electronic ballast manufacturers in the United States. In addition, based on the Department's own research (Internet product literature searches) and to the best of the Department's knowledge at the time of

its review of the Poplar District's waiver request, there do not appear to be U.S.-manufactured T8 4-foot electronic ballasts available to the Poplar District for the ARRA-funded lighting project.

Furthermore, the purpose of the ARRA is to stimulate economic recovery, in part, by funding current infrastructure construction, and not to delay projects that are "shovel ready" by requiring the revision of standards and specifications or a new bidding process. The imposition of the Buy American Requirements on such otherwise eligible projects would result in unreasonable delay, and to further delay construction would be in direct conflict with a fundamental economic purpose of the ARRA, which is to create or retain jobs.

The Department has reviewed the Poplar District's waiver request and has determined that the supporting documentation is sufficient to demonstrate that a waiver is justified under section 1605(b)(2) of the ARRA. Having established both a proper basis to specify the particular good required for this project, and that this manufactured good is not available from a producer in the United States, the Poplar District is hereby granted a waiver from the Buy American Requirements reflected in section 1605(a) of the ARRA for the purchase of T8 4-foot electronic ballasts using ARRA funds as specified in the Poplar District's request.
