AGENCY: Environmental Protection Agency.

ACTION: Notice of public hearings and extension of public comment period.

SUMMARY: On April 29, 2010, the EPA Administrator signed proposed emission standards for the following source categories: Industrial, Commercial, and Institutional Boilers and Process Heaters located at major sources; Industrial, Commercial, and Institutional Boilers located at area sources; and Commercial and Industrial Solid Waste Incineration Units. On the same date, the Administrator also signed a proposal entitled "Identification of Non-Hazardous Secondary Materials That Are Solid Waste." EPA has received a request to schedule additional public hearings for these four related rulemakings. Given the significant public interest in these rules and to further public participation opportunities, EPA is granting the request and has scheduled three public hearings. These hearings will occur in Arlington, Virginia, on June 15, 2010;

Houston, Texas, on June 22, 2010; and Los Angeles, California, on June 22, 2010. More information on the locations is shown in **SUPPLEMENTARY INFORMATION**.

In addition, EPA is extending the deadline for written comments on the proposed rules (75 FR 32006 (major source boilers), 75 FR 31896 (area source boilers), 75 FR 31938 (CISWI), and 75 FR 31844 (waste definition)) to August 3, 2010. This extension will provide additional time for public participation.

DATES: *Comments.* Comments must be received on or before August 3, 2010.

Public Hearings. These hearings will occur in Arlington, Virginia, on June 15, 2010; Houston, Texas, on June 22, 2010; and Los Angeles, California, on June 22, 2010. Persons who wish to present oral testimony at the public hearings must register 2 business days prior to the hearings. The last day to register will be June 11, 2010, for the Arlington, Virginia, hearing and June 18, 2010, for the Houston, Texas, and Los Angeles, California, hearings. The registration cut-off time is 5 p.m. EDT on the final day of registration. See **SUPPLEMENTARY INFORMATION** for information on how to register. Note that the preregistration requirement only applies if you wish to present testimony.

44 CFR Part 67

[Docket ID FEMA-2010-0003; Internal Agency Docket No. FEMA-B-1098]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Comments are requested on the proposed Base (1% annual-chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the proposed regulatory flood elevations for the reach described by the downstream and upstream locations in the table below. The BFEs and modified BFEs are a part of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). In addition, these elevations, once finalized, will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents in those buildings.

DATES: Comments are to be submitted on or before September 7, 2010.

ADDRESSES: The corresponding preliminary Flood Insurance Rate Map

(FIRM) for the proposed BFEs for each community is available for inspection at the community's map repository. The respective addresses are listed in the table below.

You may submit comments, identified by Docket No. FEMA-B-1098, to Kevin C. Long, Acting Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-2820, or (e-mail) kevin.long@dhs.gov.

FOR FURTHER INFORMATION CONTACT:

Kevin C. Long, Acting Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-2820, or (e-mail) kevin.long@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

Comments on any aspect of the Flood Insurance Study and FIRM, other than the proposed BFEs, will be considered. A letter acknowledging receipt of any comments will not be sent.

National Environmental Policy Act.

This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Executive Order 12866, Regulatory Planning and Review. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866, as amended.

Executive Order 13132, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This proposed rule meets the applicable standards of Executive Order 12988.
