The American Recovery and Reinvestment Act of 2009 (ARRA) authorized the Federal Communications Commission to create the National Broadband Plan that shall seek to ensure that all people of the United States have access to broadband capability and shall establish benchmarks for meeting that goal. Consistent with this effort, the Wireline Competition Bureau of the Commission seeks to conduct a survey of all applicants under the Schools and Libraries Universal Service Program, as known as the "E-rate program", to determine the current state of broadband usage and access within schools and libraries in the United States in order to determine how to best address their educational and technological needs as part of the National Broadband Plan.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0710.

Title: Policy and Rules Under Parts 1 and 51 Concerning Implementation of the Local Competition Provisions in the Telecommunications Act of 1996, CC Docket No. 96-98.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 15,282 respondents; 1,067,987 responses.

Estimated Time per Response: .50 – 2,880 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 1 – 4, 201 – 205, 214, 224, 251, 303(r), and 601.

Total Annual Burden: 645,798 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality:

The Commission is not requesting respondents to submit confidential information to the Commission. If the respondents wish to submit information which they believe is confidential, they may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget (OMB) during this comment period in order to obtain the full three year clearance from them. There is no change in the reporting, recordkeeping and/or third party disclosure requirements. However, there is a significant decrease of 409,352 total annual burden hours and a \$625,000 decrease in annual costs. This is due to several reasons including: (1) re-calculations of each burden estimate; (2) re-estimate of the estimated time burden for some of the information collection categories; and (3) less time per response due to familiarity gained over the years of performing these functions.

The Commission adopted rules and regulations to implement parts of sections 251 and 252 that affect local competition. Incumbent local exchange carriers (LECs) are required to offer interconnection, unbundled network elements, transport and termination and wholesale rates for certain services to new entrants. Incumbent LECs must price such services at rates that are cost-
