SUMMARY: In this action, under the Clean Air Act, we are: Approving into the State Implementation Plan (SIP) certain regulation revisions within Ohio Administrative Code (OAC) 3745-21 (Carbon Monoxide, Photochemically Reactive Materials, Hydrocarbons, and related Materials Standards) which have been adopted by the State; recognizing various emission control exemptions that have been granted for miscellaneous metal coating operations under OAC 3745-21-09(U)(2)(f); and taking no action on certain regulation revisions. We proposed to take these actions in a document published on January 22, 2010, and received no comments.

DATES: This final rule is effective on July 21, 2010.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This supplementary information section is arranged as follows:

- I. What were EPA’s proposed actions?
- II. Public Comments and EPA Responses
- III. What action is EPA taking?
- IV. Statutory and Executive Order Reviews

I. What were EPA’s proposed actions?

This action addresses revisions to OAC 3745-21 in a set of submittals dated October 9, 2000, February 6, 2001, and August 3, 2001; and also addresses revisions to OAC 3745-21, submitted on June 24, 2003, as part of Ohio’s five-year rule review process. On January 22, 2010 (75 FR 3668), EPA proposed a variety of actions regarding revisions to OAC 3745-21. We proposed to approve: (1) Revisions to the rules which corrected grammar and spelling mistakes; (2) revisions to attainment dates and compliance schedules listed within the rules; (3) clarifications which made hard-to-interpret portions of the rules easier to understand; (4) removal of an exemption for certain geographic areas to carbon monoxide (CO) rules; and, (5) site specific emissions limit amendments. Our proposed action contains more information on the rule revisions submitted and our evaluation of them.

In our proposed action, we also provided extensive discussion regarding a provision of 2745-21-09(U)(2)(f) authorizing alternate miscellaneous metal coating limits in selected cases. EPA proposed to recognize alternate limits that Ohio issued during a period when the State had unilateral authority to do so. EPA also described a process developed in concert with Ohio EPA for addressing future requests for such alternate limits. Further discussion of this process, as well as more information on the rule revisions submitted and our evaluation of them, can be found in our proposed action.

We proposed conditional approval of PAC 3745-21-09(BBB)(1) (which affects the BF Goodrich Company Akron Chemical Plant) and disapproval of

OAC 3745-21-09(U)(1)(h) (which affects sources conducting surface coating of miscellaneous metal parts and products). For administrative convenience, we will complete rulemaking on these portions of Ohio’s submittal in a later action.

II. Public Comments and EPA Responses

EPA’s proposed action provided a 30-day public comment period. We did not receive any comments on the proposed action.

III. What action is EPA taking?

EPA today is only approving rules submitted by Ohio which have not been separately approved. For the full listing of rules we proposed to approve, please see the proposed rulemaking for today’s action (75 FR 3668). In a separate rulemaking on July 28, 2009 (74 FR 37171), EPA has already approved later versions of certain rules. Additional information on the approval of these rules is provided in the proposal for that action published on May 7, 2009, at 74 FR 21295.

EPA is fully approving into the Ohio SIP the following revised rule paragraphs as adopted by the State of Ohio and as defined in Ohio’s submittals:

In OAC 3745-21-09, title, paragraphs (A)(4), (B)(3)(a), (B)(3)(d), (B)(3)(e), (B)(3)(f), (B)(3)(h), (B)(3)(j), (B)(3)(l), (B)(4)(a), (B)(4)(b), (C)(4), (H)(1)(a), (H)(1)(b), (H)(3), (O)(5)(b), (O)(6)(a), (O)(6)(b), (R)(4), the portion of paragraph (U)(2)(e) which states “Daily usage limitations included in (U)(2)(e)(i) through (U)(2)(e)(iii) above shall not apply to coatings employed by the metal parts or products coating line on parts or products which are not metal”, (U)(2)(h), (Y)(1)(a)(i), (AA)(1)(b), (AA)(1)(c), (FF)(1), (II)(2), (II)(3), (II)(4), (KK)(1), (NN)(1), (NN)(2), (NN)(3), (NN)(4), (NN)(5), (OO), (OO)(1), (OO)(2), (OO)(3), (OO)(4), (PP)(2), (UU)(3), (AAA), (DDD), and Appendix A.

EPA is taking no action on revisions to 3745-21-09(U)(2)(f), from both the October 9, 2000, and June 24, 2003, submittals, because EPA approved a later version of this paragraph on July 28, 2009 (74 FR 37171). EPA will continue to honor exemptions granted by Ohio under this rule as it existed in the SIP after May 5, 1995, but prior to June 15, 1999. This leaves two time periods in which Ohio issued permits and amendments for which there are two separate methods to incorporate affected permits and amendments into the SIP: Prior to May 5, 1995, and after June 15, 1999. EPA will address any

exemptions granted prior to May 5, 1995, in a separate rulemaking after we work with Ohio EPA to determine the proper course of action for dealing with these sources. EPA will address any sources seeking alternate limits under this paragraph after June 15, 1999, as they will be subject to limits which result from the ongoing EPA and Ohio EPA resolution of this matter.

EPA is also taking no action on revisions to OAC 3725–21 chapters 01, 02, 03, 04, 06, 08, and 10 because newer versions of these chapters were approved and incorporated into Ohio's SIP in a subsequent rulemaking (74 FR 37171).

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because

application of those requirements would be inconsistent with the Clean Air Act; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by August 20, 2010. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)
