

NUCLEAR REGULATORY COMMISSION**[NRC-2008-0638]****Notice of Issuance of Regulatory Guide****AGENCY:** Nuclear Regulatory Commission.**ACTION:** Notice of Issuance and Availability of Regulatory Guide 1.151, Revision 1, "Instrument Sensing Lines."**FOR FURTHER INFORMATION CONTACT:** Karl J. Sturzebecher, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone (301) 251-7494 or e-mail Karl.Sturzebecher@nrc.gov.**SUPPLEMENTARY INFORMATION:****I. Introduction**

The U.S. Nuclear Regulatory Commission (NRC) is issuing a revision to an existing guide in the agency's "Regulatory Guide" series. This series was developed to describe and make available to the public information such as methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

Revision 1 of Regulatory Guide 1.151 was issued with a temporary identification as Draft Regulatory Guide, DG-1178. This guide describes a method that the staff of the NRC considers acceptable for use in complying with the agency's regulations with respect to the design and installation of safety-related instrument sensing lines in nuclear power plants. To meet these objectives, the sensing lines must serve a safety-related function to prevent the release of reactor coolant as a part of the reactor coolant pressure boundary and to provide adequate connections to the reactor coolant system for measuring process variables (e.g., pressure, level, and flow). The term "safety-related" refers to those structures, systems, and components necessary to ensure (1) the integrity of the reactor coolant pressure boundary, (2) the capability to shut down the reactor and maintain it in a safe-shutdown condition, or (3) the capability to prevent or mitigate the consequences of accidents that could result in potential offsite exposures comparable to the guideline exposures in Title 10, of the *Code of Federal Regulations*, Part 100, "Reactor Site Criteria" (10 CFR Part 100).

II. Further Information

In December 2008, DG-1178 was published with a public comment period of 60 days from the issuance of the guide. The public comment period closed on February 6, 2009. The staff's responses to the comments received are located in the NRC's Agencywide Documents Access and Management System (ADAMS) under Accession No. ML092330222. The regulatory analysis may be found in ADAMS under Accession No. ML102040145. Electronic copies of Regulatory Guide 1.151, Revision 1 are available through the NRC's public Web site under "Regulatory Guides" at <http://www.nrc.gov/reading-rm/doc-collections/>.

In addition, regulatory guides are available for inspection at the NRC's Public Document Room (PDR) located at Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852-2738. The PDR's mailing address is USNRC PDR, Washington, DC 20555-0001. The PDR can also be reached by telephone at (301) 415-4737 or (800) 397-4209, by fax at (301) 415-3548, and by e-mail to pdr.resource@nrc.gov.

Regulatory guides are not copyrighted, and NRC approval is not required to reproduce them.

Dated at Rockville, Maryland, this 23rd day of July 2010.

OFFICE OF PERSONNEL MANAGEMENT**Proposed Collection; Equal Employment Opportunity Commission (EEOC) Form, Demographic Information on Applicants, OMB No. 3046-0046****AGENCY:** U.S. Office of Personnel Management.**ACTION:** Notice.

SUMMARY: The Office of Personnel Management (OPM), Employee Services proposes to add an Equal Employment Opportunity Commission (EEOC) form, Demographic Information on Applicants, OMB No. 3046-0046, which is already approved by Office of Management and Budget (OMB), to USAJOBS® in order to collect the information requested by the form in a

central location for the Federal government. Completion of the form by applicants is voluntary. For those who choose to complete the form, however, the collection of the information through USAJOBS will be convenient for the applicant as well as the agency. Additionally, it is consistent with the announced purpose of the form—to assist Federal agencies in reassessing and improving their efforts to reach all segments of the population through their recruitment processes. The collection of data through this form also can be used by Federal agencies, along with other demographic information, as part of their organizational self-analyses to determine whether barriers exist that might exclude certain groups. No individual personnel selections will be made based on this information as the information must be kept separate from the application.

DATES: This change will become effective without further notice on September 1, 2010.

POSTAL REGULATORY COMMISSION

[Docket Nos. MC2010-29 and CP2010-72;
Order No. 494]

New Postal Product

AGENCY: Postal Regulatory Commission.
ACTION: Notice.

SUMMARY: The Commission is noticing a recently-filed Postal Service request to add Global Expedited Package Services—Non-published Rates to the competitive product list. The Postal Service has also filed a related contract. This notice addresses procedural steps associated with the filing.

DATES: Comments are due: August 11, 2010. Reply Comments are due: August 18, 2010.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>. Commenters who cannot submit their views electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on alternatives to electronic filing.

FOR FURTHER INFORMATION CONTACT: Stephen L. Sharfman, General Counsel, *stephen.sharfman@prc.gov* or 202-789-6820.

SUPPLEMENTARY INFORMATION: On July 16, 2010, the Postal Service requested that the Commission add Global Expedited Package Services—Non-published Rates to the competitive product list within the Mail Classification Schedule (MCS).¹ This product grouping would create a niche classification in addition to existing Global Expedited Package Services (GEPS) categories. *Id.* at 8-10. GEPS offer discounts to small- and medium-size mailers of Express Mail International (EMI) and Priority Mail International (PMI). The existing GEPS product is similar to the new GEPS—Non-published Rates. Each offer rates for EMI and PMI based on revenue tiers, entry points, country groups, and weight cells. *Id.* at 4-6. According to the Postal Service, nearly all current GEPS

agreements would fit within GEPS—Non-published Rates. Nonconforming agreements would remain within the existing GEPS product. *Id.* at 4.

The primary difference between GEPS and GEPS—Non-published Rates is that the Governors have approved an eight-tiered rate design model that includes every possible rate between a minimum and maximum rate within cells defined by country group and weight.² The maximum rate in each cell would be based on the published Click-N-Ship discounts of 8 and 5 percent for EMI and PMI, respectively. The minimum rate in each cell would be based on the entry of qualifying mail at an International Service Center in tier 8. *Id.*, Attachment C, at 1-2. The Postal Service would offer customized agreements to customers with rates between the minimum and maximum. Customers would need to make a minimum revenue commitment of \$50,000 per year. *Id.*, Attachment A, section 2610.7.1.

The purpose of GEPS—Non-published Rates is to streamline the “process for approving GEPS agreements, while maintaining their profitability and competitive positioning in the market.” *Id.*, Attachment C, at 1. The Postal Service states:

The number of [GEPS] agreements continues to grow, and the number of renewing customers is substantial. Because the agreements typically have a term of one year, the transaction costs for developing the pricing and filing each agreement as a separate product are substantial as well. The resources of the Commission are also affected by these agreements, as the Commission and a Public Representative must review each agreement and its rates prior to determining the functional equivalence of the agreement under review in comparison to the baseline GEPS agreement. Request at 8.

The Postal Service further indicates that if the proposal is approved as a niche classification, “the filing of each mailer’s agreement to be added to the competitive product list would no longer be necessary.” *Id.* at 7, n.10. It anticipates, however, “providing copies of the agreements to the Commission under cover of a notice pleading.” *Id.*

Included with the Request are several attachments. Attachment 1 is an application for non-public treatment of portions of the Request. Attachment 2 contains the Governors’ Decision and attachments thereto, including MCS language describing GEPS—Non-published Rates, rate schedules, a management analysis, and certification

that prices satisfy applicable pricing criteria. Attachment 3 is a Statement of Justification by the Executive Director, Global Business Management. Attachment 4 is a representative agreement between the Postal Service and a customer of GEPS—Non-published Rates.

Comments. Interested persons may submit comments on or before August 11, 2010. Reply comments may be submitted no later than August 18, 2010.
