Type of Request: Extension of a currently approved collection. This request for an extension of a currently approved collection, if approved, will allow the Department of Transportation (DOT) to continue to enforce the labeling requirements for motor vehicle brake fluid and hydraulic mineral oil containers as specified in FMVSS No. 116, Motor Vehicle Brake Fluids.

Abstract: Federal Motor Vehicle Safety Standard No. 116, Motor Vehicle Brake Fluids, specifies performance and design requirements for motor vehicle brake fluids and hydraulic system mineral oils. Section 5.2.2 of the standard specifies labeling requirements for manufacturers and packagers of brake fluids as well as packagers of hydraulic system mineral oils. The label on a container of motor vehicle brake fluid or hydraulic system mineral oil is permanently attached, clearly states the contents of the container, and includes a DOT symbol indicating that the contents of the container meet the requirements of FMVSS No. 116. The label is necessary to help ensure that these fluids are used for their intended purpose only and the containers are properly disposed of when empty. Improper use, storage, or disposal of these fluids could represent a significant safety hazard for the operators of vehicles or equipment in which they are used and for the environment.

Affected Public: Business or other for profit organizations.

Estimated Total Annual Burden: 7000 hours.

Estimated Number of Respondents: 200.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention NHTSA Desk Officer or to the Docket Management System, Docket Number NHTSA-2010-0085 at http://www.regulations.gov/.

Comments are invited on whether the proposed collection of information is necessary for the proper performance of the functions of the DOT, including whether the information will have practical utility; the accuracy of the DOT estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A comment to OMB or the Docket Management System is most effective if OMB or the Docket Management System receives it prior to October 13, 2010.

Issued on: September 3, 2010.

## National Highway Traffic Safety Administration

[U.S. DOT Docket No. NHTSA-2010-0130]

## Reports, Forms, and Recordkeeping Requirements

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), DOT. **ACTION:** Request for public comment on proposed collection of information.

summary: Before a Federal agency can collect certain information from the public, it must receive approval from the Office of Management and Budget (OMB). Under the procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatements of previously approved collections. This document describes one collection of information for which NHTSA intends to seek OMB approval.

**DATES:** Comments must be received on or before November 12, 2010.

ADDRESSES: Direct all written comments to: U.S. Department of Transportation, Docket Management Facility, West Building, 1200 New Jersey Ave., SE., Room W12–140, Washington, DC 20590. You may also submit comments electronically at <a href="http://www.regulations.gov">http://www.regulations.gov</a>. All comments should refer to the docket no. NHTSA–2009–0052.

### FOR FURTHER INFORMATION CONTACT:

Randolph Atkins, PhD, Contracting Officer's Technical Representative, Office of Behavioral Safety Research (NTI–131), National Highway Traffic Safety Administration, 1200 New Jersey Ave., SE., Washington, DC 20590. Phone number: 202–366–5597. E-mail address: randolph.atkins@dot.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must publish a document in the Federal Register providing a 60-day comment period and otherwise consult with members of the public and affected

agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulations (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected: and

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting

In compliance with these requirements, NHTSA asks public comment on the following proposed collection of information:

electronic submissions of responses.

# National Survey of Speeding Attitudes and Behavior: 2010

*Type of Request*—New information collection requirement.

OMB Clearance Number—None. Form Number—This collection of information uses no standard forms.

Requested Expiration Date of Approval—September 1, 2013. Ŝummary of the Collection of Information—NHTSA proposes to conduct a National Survey of Speeding Attitudes and Behavior by telephone among a national probability sample of 6,000 drivers, age 16 and older. Participation by respondents would be voluntary. Survey topics would include the extent to which drivers speed, attitudes and perceptions about speeding, reasons and motivations for speeding, and knowledge and attitudes towards countermeasure strategies to deter speeding.

In conducting the proposed survey, the interviewers would use computer-assisted telephone interviewing to reduce interview length and minimize recording errors. A Spanish-language translation and bilingual interviewers would be used to minimize language barriers to participation. Interviews will be conducted with respondents using landline phones and with respondents using cell phones. The proposed survey would be anonymous; the survey would not collect any personal information

that would allow anyone to identify respondents.

Description of the Need for the Information and Proposed Use of the Information—The National Highway Traffic Safety Administration's (NHTSA) mission is to save lives, prevent injuries, and reduce healthcare and other economic costs associated with motor vehicle crashes. Over thirty percent of all fatal crashes are estimated to be speed-related crashes, defined as racing, exceeding the speed limit, or driving too fast for conditions. Speedrelated crashes resulted in 11,674 lives lost in 2008 and an estimated cost of \$40.4 billion in 2000. In order to plan and evaluate programs intended to reduce speed-related crashes, NHTSA periodically conducts telephone surveys to update its knowledge and understanding of the public's attitudes and behaviors with respect to speeding

NHTSA has conducted two previous administrations of the National Survey of Speeding Attitudes and Behavioronce in 1997 and again in 2002. In the 2010 survey, NHTSA intends to examine the extent to which drivers speed, who the speeders are, when and why drivers speed, and what countermeasures are most acceptable and effective in reducing speeding. Furthermore, NHTSA plans to assess whether or not self-reported behaviors, attitudes, and perceptions regarding speeding and associated countermeasure strategies have changed over time, since the administration of the 1997 and 2002 national surveys. The 2010 survey will also include new questions on emerging speed-related technologies. The findings from this proposed collection of information will assist NHTSA in designing, targeting, and implementing programs intended to reduce speed on the roadways and to provide data to States, localities, and law enforcement agencies that will aid in their efforts to reduce speed-related crashes and injuries.

Description of the Likely Respondents (Including Estimated Number, and Proposed Frequency of Response to the Collection of Information)—Under this proposed effort, the Contractor would conduct telephone interviews averaging approximately 20 minutes in length with 6,000 randomly selected members of the general driving public, age 16 and older. The respondent sample would be selected from all 50 States and the District of Columbia. Interviews would be conducted with randomly selected persons with residential phones or cell phones. Businesses are ineligible for the sample and would not be interviewed. No more than one respondent would be

selected per household. Each member of the sample would complete one interview.

Prior to the administration of the survey, a total of 15 pretest interviews, averaging 20 minutes in length would be administered to test the computer programming of the questionnaire, and to determine if any final adjustments to the questionnaire are needed. Following any revisions carried out as a result of the pretest, the Contractor would begin the main survey administration.

Estimate of the Total Annual
Reporting and Recordkeeping Burden
Resulting From the Collection of
Information—NHTSA estimates that
respondents will spend an average of 20
minutes each to complete the survey, for
a total of 2,005 hours for the 15 pretest
respondents and 6,000 survey
respondents. The respondents would
not incur any reporting cost from the
information collection. The respondents
also would not incur any recordkeeping
burden or recordkeeping cost from the
information collection.

Authority: 44 U.S.C. 3506(c)(2)(A).

### Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2010-0208]

Agency Information Collection Activities; Extension of Currently Approved Collection: Transportation of Hazardous Materials, Highway Routing

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT. **ACTION:** Notice and request for

comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its review and approval and invites public comment. The FMCSA requests approval to extend an existing ICR titled, "Transportation of Hazardous Materials, Highway Routing." The information reported by States and Indian tribes is necessary to identify designated/restricted routes and restrictions or limitations affecting how motor carriers may transport certain hazardous materials on their highways,

including dates that such routes were established and information on subsequent changes or new hazardous materials routing designations.

**DATES:** We must receive your comments on or before November 12, 2010.

ADDRESSES: You may submit comments bearing the Department of Transportation (DOT) Docket Management System (DMS) Docket Number FMCSA–2010–0208 using any of the following methods:

- Federal eRulemaking Portal: Go to http://www.regulations.gov. Follow the on-line instructions for submitting comments.
- *Mail:* Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue, SE., West Building Ground Floor, Room W12–140, Washington, DC 20590–0001.
- Hand Delivery: West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington DC 20590–0001 between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal Holidays.
  - Fax: 1-202-493-2251.

Each submission must include the Agency name and the docket number for this Notice. Note that DOT posts all comments received without change to <a href="http://www.regulations.gov">http://www.regulations.gov</a>, including any personal information included in a comment. Please see the Privacy Act heading below.

Docket: For access to the docket to read background documents or comments, go to http:// www.regulations.gov at any time or Room W12-140 on the ground level of the West Building, 1200 New Jersey Avenue, SE., Washington DC, 20590-0001 between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The DMS is available 24 hours each day, 365 days each year. If you want acknowledgement that we received your comments, please include a self-addressed, stamped envelope or post card or print the acknowledgement page that appears after submitting them on-line.

Privacy Act: Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or of the person signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement for the Federal Docket Management System published in the Federal Register on January 17, 2008 (73 FR 3316), or you may visit http://edocket.access.gpo..gov/2008/pdf/E8-785.pdf.
