Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Alliant Energy—WPL Edgewater Generating Station

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition to object to Clean Air Act operating permit.

SUMMARY: This document announces that the EPA Administrator has responded to a petition asking EPA to object to a Clean Air Act (Act) operating permit issued by the Wisconsin Department of Natural Resources. Specifically, the Administrator granted in part and denied in part the petition submitted by David Bender of McGillivray Westerberg and Bender, LLC, on behalf of the Sierra Club, to object to the operating permit for Alliant Energy—Wisconsin Power and Light Edgewater Generating Station.

Pursuant to section 505(b)(2) of the Act, a petitioner may seek judicial review in the United States Court of Appeals for the appropriate circuit of those portions of the petition which

EPA denied. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307 of the Act.

ADDRESSES: You may review a copy of the final order, the petition, and other supporting information at the EPA Region 5 Office, 77 West Jackson Boulevard, Chicago, Illinois 60604. If you wish to examine these documents, you should make an appointment at least 24 hours before visiting day. Additionally, the final order for the Edgewater Generating Station petition is available electronically at: http://www.epa.gov/region7/air/title5/petitiondb/petitions/edgewater_response2009.pdf.

FOR FURTHER INFORMATION CONTACT:

Pamela Blakley, Chief, Air Permits Section, Air Programs Branch, Air and Radiation Division, EPA, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, telephone (312) 886-4447.

SUPPLEMENTARY INFORMATION: The Act affords EPA a 45-day period to review, and object to as appropriate, operating permits proposed by state permitting authorities. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator within 60 days after the expiration of the EPA review period to object to state operating permits if EPA has not done so. A petition must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise issues during the comment period, or the grounds for the issues arose after this period.

On October 3, 2009, David Bender of McGillivray Westerberg & Bender LLC, submitted a petition to EPA on behalf of the Sierra Club, requesting that EPA object to the Title V operating permit for the Alliant Energy—WPL Edgewater Generating Station. The petition raised issues regarding: (1) The alleged failure to include maximum gross generation, heat input and fuel usage limits that were contained in preconstruction permit applications as enforceable

limits in the permit; (2) the sufficiency of particulate matter (PM) and opacity monitoring; and (3) the alleged failure of WDNR to include in the permit plans it relied upon in issuing the permit and to make those plans available for public notice and comment.

On August 18, 2010, the Administrator issued an order granting in part and denying in part the petition. The order explains the reasons behind EPA's conclusions.

Dated: September 1, 2010.

Susan Hedman,

Regional Administrator, Region 5.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Case Plan Requirement, Title IV-E of the Social Security Act.

OMB No.: 0980-0140.

Description: Under section 471(a)(16) of title IV-B of the Social Security Act (the Act), to be eligible for payments, states must have an approved title IV-B plan that provides for the development of a case plan for each child for whom the State receives foster care maintenance payments and that provides a case review system that meets the requirements in section 475(5) and 475(6) of the Act. The Fostering Connections to Success and Increasing Adoptions Act of 2008 (Pub. L. 110-351) added a new section 479B to the Act providing authority at 479B(b) for an Indian Tribe, Tribal organization or Tribal consortia (hereafter "Tribe") to elect to operate a title IV-F program with an approved title IV-E plan. Tribes are to operate a program in the same manner as States and must provide for a case plan for each child and for a case review system. The case review system assures that each child has a case plan designed to achieve placement in a safe setting that is the least restrictive (most family-like) setting available and in close proximity to the child's parental home, consistent with the best interest and special needs of the child. Through these requirements, States and Tribes also comply, in part, with title IV-B section 422(b) of the Act, which assures certain protections for children in foster care.
