Onyx Specialty Papers, Inc.; Notice of Availability of Draft Environmental Assessment

February 2, 2010.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s regulations, 18 CFR Part 380 (Order No. 486,52 FR 47897), the Office of Energy Projects has reviewed the application for a subsequent license for the 100-kilowatt Willow Mill Hydroelectric Project, located on the Housatonic River, in the Town of Lee, Berkshire County, Massachusetts, and has prepared an Draft Environmental Assessment (DEA). In the DEA, Commission staff analyze the potential environmental effects of relicensing the project and conclude that issuing a subsequent license for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the DEA is on file with the Commission and is available for public inspection. The DEA may also be viewed on the Commission’s Web site at <http://www.ferc.gov> using the “eLibrary” link.
