**SUPPLEMENTARY INFORMATION:** The Department will submit the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

*Title of Proposal:* 2011 Rental Housing Finance Survey.

*OMB Control Number:* 0000-0000.

*Description of the need for the information and proposed use:* The Rental Housing Finance Survey (RHFS) provides a measure of financial, mortgage, and property characteristics of multifamily rental housing properties in the United States. The RHFS focuses on mortgage financing of multifamily rental housing properties, with emphasis on new originations for purchase, capital improvement, refinancing, and the loan terms and property characteristics associated with these originations.

The RHFS will collect data on property values of residential structures, characteristics of residential structures, rental status and rental value of units within the residential structures, commercial use of space within residential structures, property management status, ownership status, a detailed assessment of mortgage financing, and benefits received from federal, state, local, and non-governmental programs. Many of the questions are the same or similar to those found on the 1995 Property Owners and Managers Survey and the rental housing portion of the 2001 Residential Finance Survey. This survey does not duplicate work done in other existing HUD surveys or studies that are pertinent to mortgage finance of multifamily rental properties.

Policy analysts, program managers, budget analysts, and Congressional staff can use the survey's results to advise executive and legislative branches about the mortgage finance characteristics of the multifamily rental housing stock in the United States and the suitability of public policy initiatives. Academic researchers and private organizations will also be able to utilize the data to facilitate their research and projects.

The Department of Housing and Urban Development (HUD) needs the RHFS data for the following two reasons:

1. This is the only data source that provides a comprehensive picture of mortgage financing of the multifamily rental properties with two or more units.

2. With the data, HUD can gain a better understanding of mortgage

origination volumes, loan and property characteristics associated with these originations, and operating cost and revenue characteristics for the multifamily rental housing stock in the United States. This information will help HUD to evaluate, monitor, and design national housing policies, priorities, and programs affecting the entire spectrum of the multifamily rental stock.

*Agency Form Numbers:*  
000000000000.

*Members of affected public:* Owners and managers of rental properties.

*Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:*

*Number of Respondents:* 3,600.

*Estimate of Responses per*

*Respondent:* 1 every 2 years.

*Time (minutes) per respondent:* 30.

*Total hours to respond:* 1800.

*Respondent's Obligation:* Voluntary.  
Status of the proposed information collection: Pending OMB approval.

**Authority:** Title 13 U.S.C. Section 9(a), and Title 12, U.S.C., Section 1701z-1 *et seq.*

**SUPPLEMENTARY INFORMATION:** This Notice informs the public that the U.S. Department of Housing and Urban Development (HUD) has submitted to OMB, for emergency processing, an information collection package with respect to implementing an FHA Energy Efficient Mortgage Innovation pilot program targeted to the single family housing market. The Consolidated Appropriations Act, 2010 (Pub. L. 111-117, approved December 16, 2009, 123 Stat. 3034) (2010 Appropriations Act), which appropriated fiscal year 2010 funds for HUD, among other agencies, appropriated \$50 million for an Energy Innovation Fund to enable HUD to catalyze innovations in the residential energy efficiency sector that have the promise of replicability and help create a standardized home energy efficient retrofit market. Of the \$50 million appropriated for the Energy Innovation Fund, the 2010 Appropriations Act stated that "\$25,000,000 shall be for the Energy Efficient Mortgage Innovation pilot program directed at the single family housing market." (See Pub. L. 111-117, at 123 Stat. 3089). The FHA Home Energy Retrofit Loan Pilot Program (Retrofit Pilot Program) is designed by HUD to meet this statutory directive and provides funding to support that effort. Under the Retrofit Pilot Program, HUD, through FHA-approved lenders, will insure loans for homeowners who are seeking to make energy improvements to their homes.

Lender participation in the Retrofit Pilot Program is voluntary. To facilitate HUD's evaluation of lender performance and assessment of the success and replicability of the pilot program, HUD will select lenders to participate in the program. To be eligible for participation, lenders must submit an Expression of Interest that demonstrates the eligibility

of the lender to participate in the Retrofit Pilot Program.

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
