SUPPLEMENTARY INFORMATION:

Throughout this document, whenever “we”, “us” or “our” is used, we mean EPA.

Background

Today’s notice is simply an announcement of a finding that we have already made. On January 14, 2010, EPA Region 5 sent a letter to the Ohio Environmental Protection Agency and also to the Indiana Department of Environmental Management stating that the 2015 and 2020 MVEBs for the both the Ohio portion and the Indiana portion of the Cincinnati, Ohio 8-hour ozone area are adequate. The letters note that Kentucky will submit separate budgets for the Kentucky portion of the Cincinnati area. Receipt of these MVEBs was announced on EPA’s transportation conformity website, and no comments were submitted. The finding is available at EPA’s conformity Web site: <http://www.epa.gov/otaq/stateresources/transconf/adequacy.htm>.

The adequate 2015 and 2020 MVEBs, in tons per day (tpd), for VOCs and NOx for the Ohio and Indiana portions of the Cincinnati, Ohio area are as follows:

OHIO AND INDIANA PORTIONS OF CINCINNATI, OHIO

	VOCs (tpd)	NOx (tpd)
2015	31.73	49.00
2020	28.82	34.39

Transportation conformity is required by section 176(c) of the Clean Air Act. EPA’s conformity rule requires that transportation plans, programs, and projects conform to state air quality implementation plans and establishes the criteria and procedures for determining whether or not they do conform. Conformity to a State Implementation Plan (SIP) means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP’s MVEBs are adequate for transportation conformity purposes are outlined in 40 CFR 93.118(e)(4). We have described our process for determining the adequacy of submitted SIP budgets in our July 1, 2004, preamble starting at 69 FR 40038, and we used the information in these

resources while making our adequacy determination. Please note that an adequacy review is separate from EPA’s completeness review, and it also should not be used to prejudge EPA’s ultimate approval of the SIP. Even if we find a budget adequate, the SIP could later be disapproved.

The finding and the response to comments are available at EPA’s transportation conformity Web site: <http://www.epa.gov/otaq/stateresources/transconf/adequacy.htm>.

Title: Confidentiality Rules (Renewal).
ICR numbers: EPA ICR No. 1665.09, OMB Control No. 2020-0003.

ICR Status: This ICR is scheduled to expire on 02/28/2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not

required to respond to a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: In the course of administering environmental protection statutes, EPA collects data from thousands of facilities in many sectors of the U.S. economy. In many cases, industry marks the data it submits to EPA as CBI. In addition, businesses submit information to EPA without the Agency requesting the information. EPA established the procedures described in 40 CFR part 2, subparts A and B, to protect the confidentiality of information as well as the rights of the public to obtain access to information under the Freedom of Information Act (FOIA). In accordance with these regulations, when EPA finds it necessary to make a final confidentiality determination (e.g., in response to a FOIA request or in the course of rulemaking or litigation), or in advance confidentiality determination, it shall notify the affected business and provides an opportunity to comment (i.e., to submit a substantiation of confidentiality claim). This ICR relates to the collection of information that will assist EPA in determining whether previously submitted information is entitled to confidential treatment.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 4.0 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Businesses and other for-profit companies.

Estimated Number of Respondents: 1,330.

Frequency of Response: One annually.

Estimated Total Annual Hour Burden: 2002 hours.

Estimated Total Annual Cost: \$91,071.85, includes \$0 annualized capital or O&M costs and \$91,071.85 annual labor costs.

Changes in the Estimates: There is reduction of 4,519 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: February 18, 2010.

Director, Collection Strategies Division.
