II. Background on the Receipt of Requests to Cancel Registrations

This notice announces receipt by EPA of a request from the registrant Drexel Chemical Company to cancel 4 maneb product registrations. In a letter dated November 15, 2009 and an electronic mail message dated December 15, 2009, Drexel Chemical Company requested EPA to cancel the product registrations of the pesticide products identified Table 1.

III. What Action is the Agency Taking?

This notice announces receipt by EPA of a request from a registrant to cancel maneb product registrations. The affected products and the registrant making the request are identified in Tables 1 and 2.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The maneb registrant has requested that EPA waive the 180-day comment period. EPA will provide a 30-day comment period on the proposed request.

Unless a request is withdrawn by the registrant within 30 days of publication of this notice, or if the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued canceling the affected registrations.

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Voluntary Cancellation Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before February 5, 2010. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request

listed in this notice. If the products(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. EPA anticipates allowing sale, distribution and use in the cancellation order as described in this Unit below:

1. The registrant may continue to sell or distribute existing stocks of maneb end-use products until such stocks are exhausted.

2. Persons other than the registrant may continue to sell or distribute existing stocks of maneb products identified in Table 1 with previously approved labeling until such stocks are exhausted.

3. Persons other than the registrant may use the maneb end use products identified in Table 1 until exhausted. Any use of existing stocks must be in a manner consistent with the previously approved labeling for that product.
