[Docket No. USCG-2010-0110]

RIN 1625-AA08; AA01

Special Local Regulations and Safety Zones; Recurring Events in Northern New England

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to amend special local regulations and to establish permanent safety zones in the Coast Guard Northern New England Captain of the Port Zone for annual

recurring marine events. When these special local regulations or safety zones are activated, and thus subject to enforcement, this rule would restrict vessels from portions of water areas during annual events listed in TABLES 1 and 2 that pose a hazard to public safety. The revised special local regulations and safety zones are proposed to reduce administrative overhead, expedite public notification of events, and to ensure the protection of the maritime public and event participants from the hazards associated with firework displays, boat races, and other marine events.

DATES: Comments and related material must be received by the Coast Guard on or before February 10, 2011. Requests for public meetings must be received by the Coast Guard on or before February 1, 2011.

Basis and Purpose

Marine events are annually held on a recurring basis on the navigable waters within the Coast Guard Northern New England Captain of the Port Zone. These events include sailing regattas, powerboat races, rowboat races, parades, swim events, and fireworks displays. In the past, the Coast Guard has established special local regulations and regulated navigation areas for these events on a case by case basis to ensure the protection of the maritime public and event participants from the hazards associated with these marine events. Issuing individual regulations annually has proved to be administratively cumbersome.

This proposed rule will significantly relieve administrative overhead and

consistently apprise the public in a timely manner through permanent publication in Title 33 of the Code of Federal Regulations. The TABLES in this proposed regulation list each recurring marine event requiring a regulated area as administered by the Coast Guard.

By establishing permanent regulations for these events, the Coast Guard will eliminate the need to establish temporary rules for events that occur on an annual basis. This provides opportunity for the public to comment while limiting the unnecessary burden of continually establishing temporary rules every year. Some of the events discussed below are duplicated in 33 CFR 100.114, a citation that no longer meets the Coast Guard’s intended purposes. While 33 CFR part 100 is designed for Regattas and Marine Parades, 33 CFR part 165 is for Regulated Navigation Areas and Limited Access Areas. The Coast Guard has identified a number of events in 33 CFR part 100 which would be more appropriately located in 33 CFR part 165. This rulemaking will amend local regulations for events already contained in 33 CFR part 100 both to update event information as well as to move fireworks displays to part 165, a citation that better meets the Coast Guard’s intended purpose of ensuring safety during these events.

In addition, the Coast Guard has promulgated safety zones or special local regulations for all of these 52 areas in the past, and has not received public comments or concerns regarding the impact to waterway traffic from these annually recurring events.

Discussion of Proposed Rule

The Coast Guard proposes to remove sections 33 CFR 100.107, 100.108, 100.109, 100.110, 100.111, 100.118, to revise 33 CFR 100.114, and to add 33 CFR 100.120, and 33 CFR 165.171. The proposed changes will effectively remove six outdated special local regulations and establish 52 new permanent regulated areas. The proposed rule will apply to each recurring marine event listed in the attached TABLES in the Coast Guard Northern New England Captain of the Port Zone. The TABLES provide the event name, sponsor, and type, as well as approximate dates and locations of the events. Additionally, the specific times, dates, regulated areas, and enforcement period for each event will be provided in a Notice of Enforcement published in the **Federal Register** and through Local Notice to Mariners and Broadcast Notice to Mariners prior to each event. The particular size of the

safety zones established for each event will be reevaluated on an annual basis in accordance with Navigational and Vessel Inspection Circular (NVIC) 07–02, Marine Safety at Firework Displays, the National Fire Protection Association Standard 1123, Code for Fireworks Displays (100-foot distance per inch of diameter of the fireworks mortars), and other pertinent regulations and publications.

This proposed regulation would prevent vessels from transiting areas specifically designated as special local regulations or safety zones during the periods of enforcement to ensure the protection of the maritime public and event participants from the hazards associated with listed marine events. Only event sponsors, designated participants, and official patrol vessels will be allowed to enter safety zones and special local regulation areas. Spectators and other vessels not registered as event participants may not enter the regulated areas without the permission of the Captain of the Port or his assigned representatives.

Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation is unnecessary. Although this regulation may have some impact on the public, the potential impact will be minimized for the following reasons: vessels will only be restricted from safety zones and special local regulation areas for a short duration of time unless otherwise noted; vessels may transit in all portions of the affected waterway except for those areas covered by the proposed zones; the Coast Guard has promulgated safety zones or special local regulations in accordance with 33 CFR parts 100 and 165 for all event areas in the past and has not received notice of any negative impact caused by any of the safety zones or special local regulations; and notifications will also be made to the local maritime community by the Local

Notice to Mariners and Broadcast Notice to Mariners well in advance of the events. The effect of this proposed action simply establishes the approximate dates on which the existing regulations would be enforced and consolidates them within one regulation. No new or additional restrictions will be imposed on vessel traffic.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This proposed rule would affect the following entities, some of which might be small entities: owners or operators of vessels intending to transit, fish, or anchor in the areas where marine events are being held. For the reasons outlined in the Regulatory Planning and Review section above, this rule would not have a significant impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (*see ADDRESSES*) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship

between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have made a preliminary determination that this action appears to be one of a category of actions which do not individually or cumulatively have a significant effect on the human environment.

A preliminary environmental analysis checklist supporting this determination is available in the docket where indicated under **ADDRESSES**. This proposed rule involves safety zones and special local regulations concerning

water activities including boat regattas, parades and races, swimming events, and fireworks displays. This rule appears to be categorically excluded, under paragraphs (34)(g) and 34(h) of the Instruction.

We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.
