TransCanada Keystone Pipeline, LP; Notice of Request for Waiver

Take notice that on May 2, 2011, TransCanada Keystone Pipeline, LP (TransCanada Keystone) filed a request for waiver of the requirement in 18 CFR 342.4(c) that it submit a verified statement in support of future changes to its committed rates.

TransCanada Keystone states that good cause exists to grant such a waiver because TransCanada Keystone's committed shippers have already agreed in writing to the changes TransCanada Keystone is contractually permitted to make to its committed rates, and the Commission has previously granted such a waiver under these circumstances.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and

interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA approved Alaska's National Pollutant Discharge Elimination System (NPDES) program application on October 31, 2008 pursuant to section 402 of the Clean Water Act (CWA or "the Act"). The approved State program, called the Alaska Pollutant Discharge Elimination System (APDES), includes an implementation plan that transfers the administration of specific program components from EPA to the Alaska Department of Environmental Conservation (ADEC) in four phases over a three year period from the date of program approval. Phases I-III have been transferred from EPA to ADEC. Transfer of the final phase, Phase IV, is currently scheduled for October 31, 2011. ADEC has made a submission for approval for a one year extension of the transfer of Phase IV of the APDES program, which includes oil and gas, cooling water intakes and dischargers, munitions and all other remaining facilities not previously transferred in Phases I-III. If EPA approves the APDES program revision, Phase IV will transfer to ADEC four years from the date of program approval, or October 31, 2012. Today, EPA is requesting comments on the proposed one year extension and is providing notice of a public hearing and comment period on the proposal. The EPA Region 10 Regional Administrator will either approve or disapprove the APDES program revision after considering all comments received during the public comment period.
