

action must be filed in the United States Court of Appeals for the appropriate circuit by July 22, 2011. Filing a petition for reconsideration by the Administrator of this Final Rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Particulate matter, Reporting and recordkeeping requirements.

Dated: May 10, 2011.

Susan Hedman,

Regional Administrator, Region 5.

Dated: May 16, 2011.

Karl Brooks,

Regional Administrator, Region 7.

40 CFR part 52 is amended as follows:

PART 52—[AMENDED]

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart O—Illinois

- 2. Section 52.725 is amended by adding paragraph (k) to read as follows:

§ 52.725 Control strategy: Particulates.

* * * * *

(k) Determination of Attainment. EPA has determined, as of May 23, 2011, that the Saint Louis, Illinois-Missouri PM_{2.5} nonattainment area has attained the 1997 PM_{2.5} NAAQS. This determination, in accordance with 40 CFR 51.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, reasonable further progress, contingency measures, and other plan elements related to attainment of the standards for as long as the area continues to meet the 1997 PM_{2.5} NAAQS.

Subpart AA—Missouri

- 3. Subpart AA is amended by adding § 52.1341 to read as follows:

§ 52.1341 Control strategy: Particulate Matter.

Determination of Attainment. EPA has determined, as of May 23, 2011, that the Saint Louis, Illinois-Missouri PM_{2.5} nonattainment area has attained the

1997 PM_{2.5} NAAQS. This determination, in accordance with 40 CFR 51.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, reasonable further progress, contingency measures, and other plan elements related to attainment of the standards for as long as the area continues to meet the 1997 PM_{2.5} NAAQS.

BILLING CODE 6560–50–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA–2011–0002]

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated in the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646–4064, or (e-mail) luis.rodriquez1@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for

each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Deputy Federal Insurance and Mitigation Administrator has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is amended as follows:

PART 67—[AMENDED]

- 1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.11 [Amended]

■ 2. The tables published under the authority of § 67.11 are amended as follows:

State	City/town/county	Source of flooding	Location	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground ^ Elevation in meters (MSL) Modified
City of St. Louis, Missouri Docket No.: FEMA-B-1062				
Missouri	City of St. Louis	Mississippi River	Approximately 0.5 mile upstream of Poplar Street.	+426
			Approximately 0.6 mile upstream from I-270 at the northern boundary of the City of St. Louis.	+433

* National Geodetic Vertical Datum.

+ North American Vertical Datum.

Depth in feet above ground.

^ Mean Sea Level, rounded to the nearest 0.1 meter.

ADDRESSES**City of St. Louis**

Maps are available for inspection at the Building Division, 1200 Market Street, Room 400, St. Louis, MO 63103.

Flooding source(s)	Location of referenced elevation	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground ^ Elevation in meters (MSL) Modified	Communities affected
--------------------	----------------------------------	---	----------------------

Carlisle County, Kentucky, and Incorporated Areas

Docket No.: FEMA-B-1111

Back Slough (backwater effects from Mississippi River).	From the confluence with Mayfield Creek to approximately 3.2 miles upstream of the confluence with Mayfield Creek.	+328	Unincorporated Areas of Carlisle County.
Gray Creek (backwater effects from Mississippi River).	From the confluence with Mayfield Creek to approximately 1,142 feet upstream of U.S. Route 51.	+329	Unincorporated Areas of Carlisle County.
Gray Creek Tributary 2 (backwater effects from Mississippi River).	From the confluence with Gray Creek to approximately 0.68 mile upstream of the confluence with Gray Creek.	+329	Unincorporated Areas of Carlisle County.
Hurricane Creek (backwater effects from Mississippi River).	From the confluence with Mayfield Creek to approximately 0.91 mile upstream of the confluence with Mayfield Creek.	+329	Unincorporated Areas of Carlisle County.
Mayfield Creek	At the confluence with the Mississippi River	+329	Unincorporated Areas of Carlisle County.
	Approximately 0.62 mile upstream of U.S. Route 62	+352	
Mayfield Creek Tributary 23 (backwater effects from Mayfield Creek).	From the confluence with Mayfield Creek to approximately 0.63 mile upstream of the confluence with Mayfield Creek.	+346	Unincorporated Areas of Carlisle County.
Mayfield Creek Tributary 6 (backwater effects from Mississippi River).	From the confluence with Mayfield Creek to approximately 1.92 miles upstream of the confluence with Mayfield Creek.	+329	Unincorporated Areas of Carlisle County.
Mayfield Creek Tributary 6.3 (backwater effects from Mississippi River).	From the confluence with Mayfield Creek Tributary 6 to approximately 0.8 mile upstream of the confluence with Mayfield Creek Tributary 6.	+329	Unincorporated Areas of Carlisle County.
Mississippi River	Approximately 2,656 feet upstream of the confluence with Sandy Branch in Hickman County (at county boundary).	+325	Unincorporated Areas of Carlisle County.
	Approximately 158 feet upstream of the confluence with Mayfield Creek.	+329	
Sandy Branch (backwater effects from Mississippi River).	From the confluence with Sandy Branch Tributary 2 to approximately 3.2 miles upstream of the confluence with Sandy Branch Tributary 2.	+326	Unincorporated Areas of Carlisle County.

Flooding source(s)	Location of referenced elevation	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground ^ Elevation in meters (MSL) Modified	Communities affected
Sandy Branch Tributary 2 (backwater effects from Mississippi River).	From the confluence with Sandy Branch to approximately 1 mile upstream of the confluence with Sandy Branch.	+325	Unincorporated Areas of Carlisle County.
Truman Creek (backwater effects from Mississippi River).	From the confluence with Mayfield Creek to approximately 1.9 mile upstream of the confluence with Mayfield Creek.	+329	Unincorporated Areas of Carlisle County.
West Fork Mayfield Creek (backwater effects from Mississippi River).	From the confluence with Mayfield Creek to approximately 1,548 feet upstream of U.S. Route 62.	+329	Unincorporated Areas of Carlisle County.
Wilson Creek (backwater effects from Mayfield Creek).	From the confluence with Mayfield Creek to approximately 1,707 feet upstream of the confluence with Mayfield Creek.	+334	Unincorporated Areas of Carlisle County.

* National Geodetic Vertical Datum.

+ North American Vertical Datum.

Depth in feet above ground.

^ Mean Sea Level, rounded to the nearest 0.1 meter.

ADDRESSES**Unincorporated Areas of Carlisle County**

Maps are available for inspection at 70 West Court Street, Bardwell, KY 42023.

**Estill County, Kentucky, and Incorporated Areas
Docket No.: FEMA-B-1111**

Big Doe Creek (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 769 feet downstream of Roberts Road.	+632	Unincorporated Areas of Estill County.
Billey Fork (backwater effects from Kentucky River).	From the confluence with Millers Creek to approximately 1,390 feet upstream of CSX Abandoned Railroad.	+635	Unincorporated Areas of Estill County.
Blue Run (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 1.1 miles upstream of the confluence with the Kentucky River.	+621	Unincorporated Areas of Estill County.
Buck Creek (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 0.4 mile downstream of Little Buck Creek Road.	+636	Unincorporated Areas of Estill County.
Buck Creek Tributary 1 (backwater effects from Kentucky River).	From the confluence with Buck Creek to approximately 685 feet upstream of Little Buck Creek Road.	+635	Unincorporated Areas of Estill County.
Calloway Creek (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 1,708 feet downstream of Dry Branch Road.	+626	Unincorporated Areas of Estill County.
Calloway Creek Tributary 1 (backwater effects from Kentucky River).	From the confluence with Calloway Creek to approximately 0.7 mile upstream of the confluence with Calloway Creek.	+627	Unincorporated Areas of Estill County.
Campbell Creek (backwater effects from Kentucky River).	From the confluence with Cow Creek to approximately 0.7 mile upstream of Sid Griffie Road.	+632	Unincorporated Areas of Estill County.
Caney Branch (backwater effects from Kentucky River).	From the confluence with the Red River to approximately 0.6 mile upstream of the confluence with the Red River.	+605	Unincorporated Areas of Estill County.
Clear Creek (backwater effects from Kentucky River).	From the confluence with Station Camp Creek to approximately 0.4 mile downstream of Clearcreek Road.	+630	Unincorporated Areas of Estill County.
Cow Creek (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 1,307 feet downstream of Cow Creek Road.	+632	Unincorporated Areas of Estill County.
Crooked Creek (backwater effects from Kentucky River).	From the confluence with Station Camp Creek to approximately 1.3 miles upstream of Crooked Creek Road.	+631	Unincorporated Areas of Estill County.
Drowning Creek (backwater effects from Kentucky River).	From the confluence with the Kentucky River to just downstream of Richmond Road.	+620	Unincorporated Areas of Estill County.
Furnace Fork (backwater effects from Kentucky River).	From the confluence with Millers Creek to approximately 966 feet upstream of Cobhill Road.	+635	Unincorporated Areas of Estill County.
Hinton Branch (backwater effects from Kentucky River).	From the confluence with Crooked Creek to approximately 0.5 mile upstream of Newton Circle.	+631	Unincorporated Areas of Estill County.
Hoys Fork (backwater effects from Kentucky River).	From the confluence with Crooked Creek to approximately 0.6 mile upstream of Dug Hill Road.	+631	Unincorporated Areas of Estill County.
Kentucky River	At the confluence with the Red River	+605	City of Irvine, City of Ravenna, Unincorporated Areas of Estill County.
	Approximately 8.7 miles upstream of the confluence with Buck Creek.	+645	
Kentucky River Tributary 4 (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 1.0 mile upstream of the confluence with the Kentucky River.	+627	Unincorporated Areas of Estill County.

Flooding source(s)	Location of referenced elevation	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground ^ Elevation in meters (MSL) Modified	Communities affected
Little Doe Creek (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 532 feet upstream of Little Doe Creek Road.	+632	Unincorporated Areas of Estill County.
Long Branch II (backwater effects from Kentucky River).	From the confluence with Furnace Fork to approximately 0.4 mile upstream of CSX Abandoned Railroad.	+635	Unincorporated Areas of Estill County.
Millers Creek (backwater effects from Kentucky River).	From the confluence with the Kentucky River to the confluence with Billey Fork.	+635	Unincorporated Areas of Estill County.
Noland Creek (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 364 feet downstream of Noland Creek Road.	+613	Unincorporated Areas of Estill County.
Polecat Creek (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 0.6 mile downstream of CSX Railroad.	+624	Unincorporated Areas of Estill County.
Possum Run (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 0.9 mile downstream of Opossum Run Road.	+621	Unincorporated Areas of Estill County.
Red River (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 0.4 mile upstream of the confluence with Caney Branch.	+605	Unincorporated Areas of Estill County.
South Fork Noland Creek (backwater effects from Kentucky River).	From the confluence with Noland Creek to approximately 0.8 mile upstream of the confluence with Noland Creek.	+613	Unincorporated Areas of Estill County.
Station Camp Creek (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 1.6 miles upstream of the confluence with Crooked Creek.	+631	Unincorporated Areas of Estill County.
Sudders Fork (backwater effects from Kentucky River).	From the confluence with Millers Creek to approximately 0.4 mile upstream of CSX Abandoned Railroad.	+635	Unincorporated Areas of Estill County.
Sweet Lick Branch (backwater effects from Kentucky River).	From the confluence with White Oak Creek to approximately 669 feet upstream of Main Street.	+630	Unincorporated Areas of Estill County.
White Oak Creek (backwater effects from Kentucky River).	From the confluence with the Kentucky River to approximately 795 feet upstream of White Oak Road.	+630	Unincorporated Areas of Estill County.

Migratory Bird Permits; Changes in the Regulations Governing Raptor Propagation

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: We amend the regulations governing captive propagation of raptors in the United States. We reorganize the current regulations, and add or change some provisions therein. The changes make it easier to understand the requirements for raptor propagation, make it simpler to conduct raptor propagation, and clarify the procedures for obtaining a propagation permit. These regulations continue to prohibit propagation of golden eagles, though we may consider allowing it in the future.

DATES: This rule is effective on June 22, 2011.

FOR FURTHER INFORMATION CONTACT: Dr. George T. Allen, Division of Migratory Bird Management, U.S. Fish and Wildlife Service, 703-358-1825.

SUPPLEMENTARY INFORMATION:

I. Background

The Fish and Wildlife Service is the Federal agency with the primary responsibility for managing migratory birds. Our authority is based on the Migratory Bird Treaty Act (MBTA) (16 U.S.C. 703 *et seq.*), which implements conventions with Great Britain (for Canada), Mexico, Japan, and the Soviet Union (Russia). Raptors (birds of prey) are afforded Federal protection by the 1972 amendment to the Convention for the Protection of Migratory Birds and Game Animals, February 7, 1936, United States-Mexico, as amended; the Convention between the United States and Japan for the Protection of Migratory Birds in Danger of Extinction

and Their Environment, September 19, 1974; and the Convention Between the United States of America and the Union of Soviet Socialist Republics (Russia) Concerning the Conservation of Migratory Birds and Their Environment, November 26, 1976.

The taking and use of raptors are strictly prohibited except as permitted under regulations implementing the MBTA. Raptors also may be protected by State or tribal regulations. The issuance of permits for migratory birds is authorized by the MBTA and subsequent regulations. They are in title 50, Code of Federal Regulations (CFR), parts 10, 13, 21, and (for eagles) 22. Regulations for issuing permits for propagation of captive raptors are at 50 CFR 21.30.

On October 14, 2005, we published in the **Federal Register** a proposed rule to change the regulations governing captive propagation of raptors in the United States (70 FR 60052). We proposed to reorganize the current regulations and add or change some provisions. Our goal was to make it easier for the public to understand the requirements for raptor propagation and the procedures for obtaining a propagation permit. We opened a public comment period on the proposed rule until January 12, 2006.

On June 21, 2006, we published a notice of availability of a "Draft Environmental Assessment on Take of Raptors From the Wild for Falconry and Raptor Propagation" (71 FR 35599). We solicited comments on the draft environmental assessment until September 19, 2006, and then on that day, we published a notice in the **Federal Register** to extend the comment period until November 21, 2006 (71 FR 54794). After consideration of all the comments received, we published a notice of availability of the "Final Environmental Assessment on Take of Raptors From the Wild for Falconry and Raptor Propagation" and a Finding of No Significant Impact on June 6, 2007 (72 FR 31268).

II. Changes in the Regulations Governing Raptor Propagation

We have rewritten the regulations at 50 CFR 21.30 on the propagation of captive raptors in plain language and have changed or added some provisions. The following are substantive changes to the regulations:

1. The permit period is changed from 3 to 5 years.
2. Until they are 1 year old, captive-bred offspring may be used in actual hunting as a means of training them.
3. We eliminate the requirement for reporting within 5 days on eggs laid by

raptors in propagation. An annual report on propagation efforts will be required from permittees.

4. A permittee will not have to submit or have a copy of a FWS Form 3-186A for raptors produced by captive propagation if the raptors are kept in the permittee's possession under his or her propagation permit.

III. Changes From the Proposed Rule

We made many wording and organizational changes from the proposed rule of October 14, 2005 (70 FR 60052). Major changes from the proposed rule are limited.

1. We deleted the provision requiring proof of successful propagation in order to renew a raptor propagation permit.

2. We simplified the facilities requirements now found in paragraph (c).

3. We will allow the use of propagation raptors in education programs per paragraph (n).

4. We will allow hacking of raptors produced by captive propagation per paragraph (q).

5. We will allow ISO-compliant microchips in addition to banding per paragraphs (e)(1)(ii) and (e)(3).

IV. Comments on the Proposed Rule

We received approximately 500 comments from individuals and organizations, including 6 from States, on the proposed rule published on October 14, 2005 (70 FR 60052). We reviewed the comments, and respond here to the most significant issues raised.

Issue. Requirement for demonstrated propagation success for permit renewal. A significant proportion of those who commented on this requirement opposed it. Most pointed out that it is very difficult to achieve breeding success with some species, and it may even be difficult with some individual raptors. The change was supported, without explanation, by some States.

Response. We agree that this requirement may set too high a standard. We deleted it from this final rule.

Issue. Requirement that propagation raptors be housed separately from other raptors. Most commenters, including some States, opposed this proposal because it would add an "undue financial burden" for construction of facilities to house the birds. Visual barriers would suffice for separating them.

Response. We eliminated this requirement.

Issue. Hacking of captive-bred raptors should be allowed. Hacking the birds, particularly in their first year, would
