Needs and Uses: Designation as an Eligible Telecommunications Carrier (ETC) makes a telecommunications carrier eligible to participate in the Universal Service Fund's high-cost and low-income programs, which support the extension of telecommunications services to underserved rural and low-income communities. In the absence of this information collection, the Commission's ability to oversee the use of Federal universal service funds and to combat waste, fraud, and abuse in the use of Federal funds would be compromised. The Commission's rules for ETCs require the collection of the following information as stated in paragraphs a-c:

a. ETC Designation Application. Rule 54.202 requires carriers seeking

designation from the Commission to submit an application that certifies that the carrier will reasonably provide service to customers in their designated service area, 47 CFR 54.202(a)(1)(i), includes a five-year plan that describes network improvements or why such improvements are unnecessary, § 54.202(a)(1)(ii), demonstrates the carrier's ability to remain functional in emergency situations, § 54.202(a)(2), demonstrates the carrier's commitment to consumer protection and service quality standards, § 54.202(a)(3), demonstrates that carrier offers a local usage plan comparable to the one offered by the incumbent telephone company, § 54.202(a)(4), and certifies that the Commission may require the carrier to provide equal access to other long distance carriers, § 54.202(a)(5). If the carrier is seeking designation on Tribal lands, the carrier must also submit a copy of its application to the Tribal government and Tribal regulatory authority. § 54.202(d).

b. ETC Annual Reporting. Rule 54.209 requires Federally designated ETCs to submit each year an annual report on October 1 that parallels many of the requirements of an application. The annual report must include a progress report on the ETC's five-year plan, § 54.209(a)(1), detailed outage information, § 54.209(a)(2), the number of unfulfilled requests for service from potential customers within its service areas, § 54.209(a)(3), the number of complaints per 1,000 handsets or lines, § 54.209(a)(4), certification that the ETC is complying with applicable service quality standards and consumer protection rules, § 54.209(a)(5), certification that the ETC is able to function in emergency situations, § 54.209(a)(6), certification that the ETC is offering a local usage plan comparable to that offered by the incumbent LEC in the relevant service areas, § 54.209(a)(7), and certification that the Commission may require the carrier to provide equal access to other long distance carriers, § 54.209(a)(8).

c. ETC Recordkeeping. Rule 54.202(e) requires all ETCs to keep for a period of at least five years all records required to demonstrate to auditors that the support received was consistent with the universal service high-cost program rules.

Needs and Uses: This collection will be submitted as an extension (no change in reporting requirements) after this 60 day comment period to Office of Management and Budget (OMB) in order to obtain the full three year clearance. A Report and Order, FCC 02–78, adopted and released in March 2002 (Order), set forth the procedures for common carriers requiring authorization under section 214 of the Communications Act of 1934, as amended, to acquire domestic interstate transmission lines through a transfer of control. Under section 214 of the Act, carriers must obtain FCC approval before constructing, acquiring, or operating an interstate transmission line. Acquisitions involving interstate common carriers require affirmative action by the Commission before the acquisition can occur. This information collection contains filing procedures for domestic transfer of control applications under sections 63.03 and 63.04. (a) Section 63.03 and 63.04 requires domestic section 214 applications involving domestic transfers of control, at a minimum, should specify: (1) The name, address and telephone number of each applicant; (2) the government, state, or territory under the laws of which each corporate or partnership applicant is organized; (3) the name, title, post office address, and telephone number of the officer or contact point, such as legal counsel, to whom correspondence concerning the

Where an applicant wishes to file a joint international section 214 transfer of control application and domestic section 214 transfer of control application, the applicant must submit information that satisfies the requirements of 47 CFR 63.18. In the attachment to the international application, the applicant must submit information described in 47 CFR 63.04(a)(6). When the Commission, acting through the Wireline Competition Bureau, determines that applicants have submitted a complete application qualifying for streamlined treatment, it shall issue a public notice commencing a 30-day review period to consider whether the transaction serves the public interest, convenience and necessity. Parties will have 14 days to file any comments on the proposed transaction, and applicants will be given 7 days to respond. (b) Applicants are not required to file post-consummation notices of pro forma transactions, except that a post transaction notice must be filed with the Commission within 30 days of a pro forma transfer to a

bankruptcy trustee or a debtor-in-possession. The notification can be in the form of a letter (in duplicate to the Secretary, Federal Communications Commission). The letter or other form of notification must also contain the information listed in sections (a)(1). A single letter may be filed for more than one such transfer of control. The information will be used by the Commission to ensure that applicants comply with the requirements of 47 U.S.C. 214.
