

to the Chief, Permits, Conservation and Education Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Joselyd Garcia-Reyes or Kristy Beard, (301) 713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

The applicant requests a permit to conduct passive acoustics, videography, photo-identification surveys, biopsy sampling, and collect sloughed skin and/or feces to study humpback whales, killer whales and minke whale. Research would occur around southeastern Alaska especially in Glacier Bay National Park & Preserve. Up to 6300 humpback whales, 500 killer whales, and 20 minke whales could be harassed each year during photo-identification surveys. Additionally, humpback whales and the three killer whale ecotypes could be harassed up to 50 times each, to acquire 30 successful biopsy samples, per year. See the application for specific take numbers by species/stock. The purposes of the proposed research are to: (1) Study the ecology, behavior and population status of all demographic groups in humpback, killer and minke whales, (2) continue one of the longest and most complete time-series data set on humpback whale populations, and (3) document long-term trends in the abundance, spatial and temporal distribution, reproductive parameters and feeding behaviors of humpback, killer, and minke whales, which would enhance information-based resource management of these species in the waters of southeastern Alaska, primarily in and around Glacier Bay National Park and Reserve. The permit would be valid for a period of five years.

A draft environmental assessment (EA) has been prepared in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), to examine whether significant environmental impacts could result from issuance of the proposed scientific research permit. The draft EA is available for review and comment

simultaneous with the scientific research permit application.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: May 23, 2011.

International Whaling Commission; 63rd Annual Meeting; Announcement of Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of meetings.

SUMMARY: This notice announces the dates, times, and locations of the public meetings being held prior to the 63rd annual International Whaling Commission (IWC) meeting.

DATES: The public meetings will be held June 14 and June 27, 2011, at 12 p.m.

ADDRESSES: The June 14 meeting will be held at Anchorage Federal Building Conference Room B, 222 West 8th Avenue, Anchorage, Alaska 99513. The June 27 meeting will be held in the NOAA Auditorium, 1301 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Ryan Wulff, 202-482-3689.

SUPPLEMENTARY INFORMATION: The Secretary of Commerce is charged with the responsibility of discharging the domestic obligations of the United States under the International Convention for the Regulation of Whaling, 1946. The U.S. Commissioner has responsibility for the preparation and negotiation of U.S. positions on international issues concerning whaling and for all matters involving the IWC. The U.S. Commissioner is staffed by the Department of Commerce and assisted by the Department of State, the Department of the Interior, the Marine Mammal Commission, and by other agencies.

Once the draft agenda for the annual IWC meeting is completed, it will be posted on the IWC Secretariat's Web site at <http://www.iwcoffice.org>.

NOAA will hold meetings prior to the annual IWC meeting to discuss the

tentative U.S. positions for the upcoming IWC meeting. Because the meeting discusses U.S. positions, the substance of the meeting must be kept confidential. Any U.S. citizen with an identifiable interest in U.S. whale conservation policy may participate, but NOAA reserves the authority to inquire about the interests of any person who appears at a meeting and to determine the appropriateness of that person's participation.

Persons who represent foreign interests may not attend. These stringent measures are necessary to protect the confidentiality of U.S. negotiating positions and are a necessary basis for the relatively open process of preparing for IWC meetings.

The June 14 meeting will be held at Anchorage Federal Building Conference Room B, 222 West 8th Avenue, Anchorage, Alaska 99513, at 12 p.m. The June 27 meeting will be held in the NOAA Auditorium, 1301 East-West Highway, Silver Spring, MD 20910, at 12 p.m. Photo identification is required to enter each building.

Special Accommodations

Both meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ryan Wulff, 202-482-3689, by June 10, 2011, for the Anchorage meeting, or by June 20 for the meeting in Silver Spring.

Dated: May 24, 2011.
