BILLING CODE 3410-30-C

Respondents: 3rd and 4th grade students, their teachers, their parents/caregivers, and food service personnel.

Estimated Number of Respondents: 492.

Estimated Number of Responses: 1,183.

Average Hours per Response: 0.25 hours per response for students, parents/caregivers and food service personnel; .50 hours for teachers.

Total Estimated Burden: 201.02 hours.

Obligation to Respond: Voluntary.

Dated: May 10, 2011.

Audrey Rowe,

Administrator, Food and Nutrition Service.

BILLING CODE 3410-30-P

DEPARTMENT OF AGRICULTURE

Food Safety and Inspection Service

[Docket No. FSIS-2011-0003]

Notice of Request for a Revision of a Currently Approved Information Collection (Marking, Labeling, and Packaging)

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and Office of Management and Budget (OMB) regulations, this notice announces the Food Safety and Inspection Service's (FSIS) intention to request a revision of a currently approved information collection regarding the regulatory requirements for marking, labeling, and packaging of meat, poultry, and egg products; and for establishments that produce mechanically separated poultry. FSIS has revised its total annual burden estimate in light of the latest available

data. Also, FSIS is requesting permission to use a new form related to the label approval process.

DATES: Comments on this notice must be received on or before August 1, 2011.

ADDRESSES: FSIS invites interested persons to submit comments on this notice. Comments may be submitted by either of the following methods:

- *Federal eRulemaking Portal:* This Web site provides the ability to type short comments directly into the comment field on this Web page or attach a file for lengthier comments. Go to <http://www.regulations.gov>. Follow the on-line instructions at that site for submitting comments.

- *Mail, including floppy disks or CD-ROMs, and hand- or courier-delivered items:* Send to Docket Clerk, U.S. Department of Agriculture, Food Safety and Inspection Service, Room 2-2127, George Washington Carver Center, 5601 Sunnyside Avenue, Mailstop 5272, Beltsville, MD 20705-5272.

Instructions: All items submitted by mail or electronic mail must include the Agency name and docket number FSIS-2011-0003. Comments received in

response to this docket will be made available for public inspection and posted without change, including any personal information, to <http://www.regulations.gov>.

Docket: For access to background documents or comments received, go to the FSIS Docket Room at the address listed above between 8 a.m. and 4:30 p.m., Monday through Friday.

For Additional Information: Contact John O'Connell, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 1400 Independence Avenue, SW., Room 6065, South Building, Washington, DC 20250, Telephone: (202) 720-0345.

SUPPLEMENTARY INFORMATION:

Title: Marking, Labeling, and Packaging.

OMB Number: 0583-0092.

Expiration Date of Approval: 11/30/2011.

Type of Request: Revision of a currently approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). FSIS protects the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting a revision of a currently approved information collection addressing paperwork requirements specified in the regulations related to marking, labeling, and packaging of meat, poultry, and egg products; and to establishments that produce mechanically separated poultry.

To control the manufacture of marking devices bearing official marks, FSIS requires official meat and poultry establishments and the manufacturers of such devices to submit an Authorization Certificate to the Agency (FSIS Form 5200-7). Such certification is necessary to help prevent the manufacture and use of counterfeit marks of inspection (9 CFR 312.1, 317.3, 381.96 & 381.131).

Meat and poultry establishments and egg products plants must develop labels in accordance with FSIS regulations (9 CFR 317.1, 381.115, & 590.410). To receive approval for such labels, establishments must complete a form ("Application for Approval of Labels, Marking or Device," FSIS Form 7234-1). Respondents also must submit duplicate copies of the labels. The establishment must maintain a copy of all the labeling

used, along with product formulation and processing procedures (9 CFR 317.4). Additionally, FSIS has developed a new form to be used by establishments requesting reconsideration of a label application that the Agency has modified or rejected ("Request for Label Reconsideration," FSIS Form 8822-4).

Previously approved labeling that contains changes such as holiday season designs, addition or deletion of coupons, UPC production codes, or recipe suggestions; newly assigned or revised establishment numbers; changes in the arrangement or language of directions for opening containers or serving the product; or the substitution of abbreviations for words or vice versa, do not need additional FSIS approval (9 CFR 317.5). Establishments must keep a copy of the labeling used, along with the product formulation and processing procedures on file.

FSIS requires establishments to keep a written guaranty on file to demonstrate that the packaging material they use to package product is safe and will not adulterate product (9 CFR 317.24 and 381.144).

Poultry establishments producing mechanically separated poultry must have adequate controls in place, including recordkeeping, to ensure that such product complies with the Agency's requirements (9 CFR 381.173).

The Agency is revising the information collection because it has developed a new form that will be used by establishments seeking reconsideration of label applications. Also, FSIS has revised estimates of the total number of respondents based on the most current data available. These revisions support a finding of fewer total burden hours (128,267) than there are in the approved information collection (155,288).

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of 4 minutes per response related to marking; 75 minutes per response related to labeling applications and recordkeeping; 120 minutes per response related to labeling reconsideration requests; 15 minutes per response related to generically approved labeling recordkeeping; 2 minutes per response related to packaging materials recordkeeping; and 5 minutes per response related to mechanically separated poultry recordkeeping.

Respondents: Official meat and poultry establishments, official egg plants, and foreign establishments.

Estimated No. of Respondents: 5,736 related to marking; 3,682 related to labeling applications and recordkeeping; 74 related to labeling reconsideration requests; 6,333 related to generically approved labeling recordkeeping; 5,735 related to packaging materials recordkeeping; and 82 related to mechanically separated poultry recordkeeping.

Estimated No. of Annual Responses per Respondent: 1 related to marking; 20 related to labeling applications and recordkeeping; 2 related to labeling reconsideration requests; 20 related to generically approved labeling recordkeeping; 2 related to packaging materials recordkeeping; and 455 related to mechanically separated poultry recordkeeping.

Estimated Total Annual Burden on Respondents: 128,267 hours.

Copies of this information collection assessment can be obtained from John O'Connell, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 1400 Independence Avenue, SW, Room 6065, South Building, Washington, DC 20250, Telephone: (202)720-0345.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent both to FSIS, at the addresses provided above, and to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

USDA Nondiscrimination Statement

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities

who require alternative means for communication of program information (Braille, large print, audiotape, *etc.*) should contact USDA's Target Center at 202-720-2600 (voice and TTY).

To file a written complaint of discrimination, write USDA, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW., Washington, DC 20250-9410 or call 202-720-5964 (voice and TTY). USDA is an equal opportunity provider and employer.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that the public and in particular minorities, women, and persons with disabilities, are aware of this notice, FSIS will announce it on-line through the FSIS Web page located at http://www.fsis.usda.gov/regulations_&_policies/Federal_Register_Notices/index.asp.

FSIS also will make copies of this **Federal Register** publication available through the *FSIS Constituent Update*, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The *Update* is communicated via Listserv, a free e-mail subscription service consisting of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals who have requested to be included. The *Update* also is available on the FSIS Web page. Through Listserv and the Web page, FSIS is able to provide information to a much broader, more diverse audience.

In addition, FSIS offers an e-mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at http://www.fsis.usda.gov/News_&_Events/Email_Subscription/. Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.

Done at Washington, DC, on May 24, 2011.

Alfred V. Almanza,
Administrator.

BILLING CODE 3410-DM-P

DEPARTMENT OF AGRICULTURE

Forest Service

Beaverhead-Deerlodge National Forest, Pintler Ranger District; Montana; Flint Foothills Vegetation Management Project

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Flint Foothills Vegetation Management Project proposes to use clearcut salvage logging, commercial and pre-commercial thinning, and prescribed fire on 5,709 acres of National Forest System Lands affected by a larger, widespread mountain pine beetle infestation within the 44,522-acre project area.

DATES: Comments concerning the scope of the analysis must be received by July 5, 2011. The draft environmental impact statement is expected in April 2012 and the final environmental impact statement is expected in September 2012.

ADDRESSES: Send written comments to Beaverhead-Deerlodge National Forest, Pintler Ranger District, 88 Business Loop, Philipsburg, MT 59858. Comments may also be sent via e-mail to comments-northern-beaverhead-deerlodge-pintler@fs.fed.us, or via facsimile to 406-859-3689.

FOR FURTHER INFORMATION CONTACT: Julie Knutson, Interdisciplinary Team Leader at jcknutson@fs.fed.us, 559-920-6646; Karen Gallogly, Project Coordinator at kgallogly@fs.fed.us, 406-683-3853; or Charlene Bucha Gentry, District Ranger at cbuchagentry@fs.fed.us, 406-859-3211.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The purpose and need for the proposal is to (1) salvage harvest dead and dying lodgepole pine stands to create managed conditions and harvest wood products from forested stands infested or at risk for infestation with bark beetles before the value of the wood deteriorate; (2) reduce forest densities in low elevation ponderosa pine and Douglas-fir stands and some lodgepole pine communities to improve resilient forest conditions; (3) use prescribed fire as a disturbance agent in dry forest communities that include the mix of Douglas-fir and ponderosa pine

to maintain forest diversity and structure that are resilient to crown fire; (4) create early seral conditions in mid elevation lodgepole pine stands where insect infested stands are dead or dying; (5) reduce forest densities in young previously harvested stands to maintain long term sustained yield; and (6) treat old growth to improve the likelihood of retaining old growth in the landscape because of the potential mortality from the bark beetle infestation.

Proposed Action

The Pintler Ranger District proposes to clearcut salvage dead and dying lodgepole pine and harvest post and poles on 863 acres, commercial thin ponderosa pine and Douglas-fir on 1,007 acres, use a combination of clearcut salvage and commercial thin on 703 acres of mixed Douglas-fir and lodgepole pine stands, precommercial thin 1,146 acres of Douglas-fir and lodgepole pine stands, and prescribed burn 1,990 acres of mixed conifer stands. A total of 5,709 acres would be treated within 93 units ranging in size from two to 196 acres. Harvest and treatment methods would include ground-based and cable logging systems, mechanical slash piling, hand-thinning and piling, and aerial and hand-ignition of prescribed fire. Approximately 10 miles of temporary roads and 72 miles of existing Forest System roads would be used to implement treatment activities. All temporary roads constructed for project implementation would be obliterated and rehabilitated upon project completion. The project is proposed for implementation beginning in 2013 and would take several years to complete.

Responsible Official

Forest Supervisor for the Beaverhead-Deerlodge National Forest, Dave Myers, 420 Barrett St., Dillon, MT 59725-3572.

Nature of Decision To Be Made

The Responsible Official for this project and will decide whether to implement the proposed action or an alternative developed in response to specific resource issues and public comments.

Preliminary Issues

Preliminary issues identified by the interdisciplinary team and the public during a previous scoping period in July 2010, include potential impacts to populations of westslope cutthroat trout from treatment activities; potential to increase runoff and erosion by removing vegetation and ground cover; potential to increase noxious weeds populations; maintenance of old growth stand
