

with those transactions. For duty-assessment rates calculated on this basis, we will direct CBP to assess the resulting *ad valorem* rate against the entered customs values for the subject merchandise. Where appropriate, we calculated a per-unit rate for each importer (or customer) by dividing the total dumping margins for reviewed sales to that party by the total sales quantity associated with those transactions. For duty-assessment rates calculated on this basis, we will direct CBP to assess the resulting per-unit rate against the entered quantity of the subject merchandise. Where an importer (or customer)-specific assessment rate is *de minimis* (i.e., less than 0.50 percent), the Department will instruct CBP to assess that importer's (or customer's) entries of subject merchandise without regard to antidumping duties. We intend to instruct CBP to liquidate entries containing subject merchandise exported by the PRC-wide entity⁴⁰ at the PRC-wide rate we determine in the final results of this review. Where the weighted average *ad valorem* rate is zero or *de minimis*, we will instruct CBP to liquidate appropriate entries without regard to antidumping duties. See 19 CFR 351.106(c)(2).

Cash-Deposit Requirements

The following cash-deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) For RZBC and Yixing Union the cash deposit rate will be their respective rates established in the final results of this review, except if the rate is zero or *de minimis* no cash deposit will be required; (2) for previously investigated or reviewed PRC, and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all PRC exporters of subject merchandise which have not been found to be entitled to a separate rate, including Pioneers and Worldbest, the cash deposit rate will be the PRC-wide rate of 156.87 percent; and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporters that supplied those non-PRC exporters. These deposit

requirements, when imposed, shall remain in effect until further notice.

Notification of Interested Parties

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and this notice are in accordance with sections 751(a)(1) and (3) and 777(i) of the Act, and 19 CFR 351.213 and 351.221(b)(4).

Dated: May 31, 2011.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RIN 0648-XA488]

Marine Mammals; File No. 16314

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Jennifer Lewis, Ph.D., Tropical Dolphin Research Foundation, Pembroke Pines, FL 33024 has applied in due form for a permit to conduct research on bottlenose dolphins (*Tursiops truncatus*).

DATES: Written, telefaxed, or e-mail comments must be received on or before July 11, 2011.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the *Features* box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 16314 from the list of available applications.

These documents are also available upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room

13705, Silver Spring, MD 20910; phone (301) 713-2289; fax (301) 713-0376; and Southeast Region, NMFS, 263 13th Avenue South, Saint Petersburg, Florida 33701; phone (727) 824-5312; fax (727) 824-5309.

Written comments on this application should be submitted to the Chief, Permits, Conservation and Education Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by e-mail to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the e-mail comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits, Conservation and Education Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT:

Joselyd Garcia-Reyes or Kristy Beard, (301) 713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The applicant requests a five-year permit to conduct photo-identification surveys and biopsy sampling. Research would occur in Whitewater Bay, Shark River, Ponce de Leon Bay and Florida Bay, which are found in Everglades National Park (ENP). Up to 3,020 bottlenose dolphins could be taken by level B harassment each year during photo-identification surveys. Additionally, up to 38 bottlenose dolphins from each location could be taken by level A harassment annually, to acquire 30 successful biopsy samples from each location over the life of the permit. Research would stop when the desired number of samples has been obtained. The purposes of the proposed research are to: (1) Examine spatiotemporal variation in trophic interactions (diets) of the dolphins, (2) elucidate patterns of transmission of a unique foraging behavior, mud ring feeding, and (3) compare trophic interactions and genetics of dolphins in ENP with existing samples from the Lower Florida Keys.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

⁴⁰ PRC-wide entity includes Pioneers and Worldbest, which did not previously establish eligibility for a separate rate.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: June 7, 2011.

P. Michael Payne,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

Marine Mammal Stock Assessment Reports

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability; response to comments.

SUMMARY: As required by the Marine Mammal Protection Act (MMPA), NMFS has incorporated public comments into revisions of marine mammal stock assessment reports (SARs). The 2010 reports are final and available to the public.

ADDRESSES: Electronic copies of SARs are available on the Internet as regional compilations and individual reports at the following address: <http://www.nmfs.noaa.gov/pr/sars/>. You also may send requests for copies of reports to: Chief, Marine Mammal and Sea Turtle Conservation Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910-3226, Attn: Stock Assessments.

Copies of the Alaska Regional SARs may be requested from Robyn Angliss, Alaska Fisheries Science Center, 7600 Sand Point Way, BIN 15700, Seattle, WA 98115.

Copies of the Atlantic Regional SARs may be requested from Gordon Waring, Northeast Fisheries Science Center, 166 Water Street, Woods Hole, MA 02543.

Copies of the Pacific Regional SARs may be requested from Jim Carretta, Southwest Fisheries Science Center, NMFS, 8604 La Jolla Shores Drive, La Jolla, CA 92037-1508.

FOR FURTHER INFORMATION CONTACT: Shannon Bettridge, Office of Protected Resources, 301-713-2322, ext. 141, Shannon.Bettridge@noaa.gov; Robyn

Angliss, Alaska Fisheries Science Center, 206-526-4032, Robyn.Angliss@noaa.gov; Gordon Waring, Northeast Fisheries Science Center, 508-495-2311, Gordon.Waring@noaa.gov; or Jim Carretta, Southwest Fisheries Science Center, 858-546-7171, Jim.Carretta@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

Section 117 of the MMPA (16 U.S.C. 1361 *et seq.*) requires NMFS and the U.S. Fish and Wildlife Service (FWS) to prepare SARs for each stock of marine mammals occurring in waters under the jurisdiction of the United States. These reports contain information regarding the distribution and abundance of the stock, population growth rates and trends, the stock's Potential Biological Removal (PBR) level, estimates of annual human-caused mortality and serious injury from all sources, descriptions of the fisheries with which the stock interacts, and the status of the stock. Initial reports were completed in 1995.

The MMPA requires NMFS and FWS to review the SARs at least annually for strategic stocks and stocks for which significant new information is available, and at least once every 3 years for non-strategic stocks. NMFS and FWS are required to revise a SAR if the status of the stock has changed or can be more accurately determined. NMFS, in conjunction with the Alaska, Atlantic, and Pacific Scientific Review Groups (SRGs), reviewed the status of marine mammal stocks as required and revised reports in each of the three regions.

As required by the MMPA, NMFS updated SARs for 2010, and the revised reports were made available for public review and comment (75 FR 46912, August 4, 2010). The MMPA also specifies that the comment period on draft SARs must be 90 days. NMFS received comments on the draft SARs and has revised the reports as necessary. The final reports for 2010 are available (see **ADDRESSES**).

Comments and Responses

NMFS received letters containing comments on the draft 2010 SARs from the Marine Mammal Commission (Commission), five non-governmental organizations (National Resources Defense Council, Humane Society of the United States, Cascadia Research Collective, California Gray Whale Coalition, and Hawaii Longline Association), and one individual. Most letters contained multiple comments.

Unless otherwise noted, comments suggesting editorial or minor clarifying

changes were incorporated in the reports but were not included in the summary of comments and responses below. Other comments recommended initiation or repetition of large data collection efforts, such as abundance surveys, observer programs, or other mortality estimates. Comments on actions not related to the SARs (e.g., listing a marine mammal species under the Endangered Species Act (ESA)) are not included below. Many comments, including those from the Commission, recommending additional data collection (e.g., additional abundance surveys or observer programs) have been addressed in previous years. Although NMFS agrees that additional information would improve the SARs and better inform conservation decisions, resources for surveys, observer programs, or other mortality estimates are fully utilized, and no new large surveys or other programs may be initiated until additional resources are available or until ongoing monitoring or conservation efforts can be terminated so that the resources supporting them can be redirected. Such comments on the 2010 SARs, and responses to them, may not be included in the summary below because the responses have not changed.

In some cases, NMFS' responses state that comments would be considered for, or incorporated into, future revisions of the SAR rather than being incorporated into the final 2010 SARs. The delay is due to the schedule of the review of the reports by the regional SRGs. NMFS provides preliminary copies of updated SARs to SRGs prior to release for public review and comment. If a comment on the draft SAR suggests a substantive change to the SAR, NMFS may discuss the comment and prospective change with the SRG at its next meeting.

Comments on National Issues

Comment 1: The Commission recommended that NMFS review its observer program nationwide, set standards for observer coverage, and prepare plans to collect the information necessary to adequately estimate incidental mortality in fisheries that take or may take marine mammals. NMFS should also work with Federal and state agencies and the fishing industry to develop a funding strategy for supporting adequate observer coverage to estimate incidental mortality and serious injury of marine mammals and other protected species.

Response: NMFS has conducted multiple comprehensive, nationwide reviews of its observer programs beginning with the 2004 Evaluating Bycatch Report, which developed a
