This table lists the types of activities that EPA is now aware of that could potentially be affected by this action. Other types of entities not listed in the table could also be affected. To determine whether your facility is regulated by this action, you should carefully examine the definition of “construction activity” and “small construction activity” in existing EPA regulations at 40 CFR 122.26(b)(14)(x) and 122.26(b)(15), respectively. If you have questions regarding the applicability of this action to a particular entity, consult one of the persons listed for technical information in the preceding **FOR FURTHER INFORMATION CONTACT** section.

Electronic versions of this draft permit and fact sheet are available on EPA’s NPDES Web site at <http://www.epa.gov/npdes/stormwater/cgp>.

An electronic version of the public docket is available through the EPA’s electronic public docket and comment system, EPA Dockets. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the Docket Facility identified in Section I.B.1.

C. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through <http://www.regulations.gov> or e-mail. Clearly mark all of the information that you claim to be CBI. For CBI information on computer disks mailed to EPA, mark the surface of the disk as CBI. Also identify electronically the specific information contained in the disk or that you claim is CBI. In addition to one complete version of the specific information claimed as CBI, you must submit a copy that does not contain the information claimed as CBI for inclusion in the public document. Information marked as CBI will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

For public commenters, it is important to note that EPA’s policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EPA’s electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EPA’s electronic public docket. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks that are mailed or delivered to the docket will be transferred to EPA’s electronic public docket. Public comments that are mailed or delivered to the docket will be scanned and placed in EPA’s electronic public docket. Where practical, physical objects will be photographed, and the photograph will be placed in EPA’s electronic public docket along with a brief description written by the docket staff.

2. *Tips for Preparing Your Comments.* When submitting comments, remember to:

- Identify this permit by docket number and other identifying information (subject heading, **Federal Register** date, and page number).
- Where possible, respond to specific questions or organize comments by referencing a section or part of this permit.
- Explain why you agree or disagree, suggest alternatives, and suggest substitute language for your requested changes.
- Describe any assumptions and provide any technical information and/or data that you used.
- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- Provide specific examples to illustrate your concerns, and suggest alternatives.
- Explain your views as clearly as possible.
- To ensure that EPA can read, understand, and therefore properly respond to comments, the Agency would prefer that commenters cite, where possible, the paragraph(s) or section in the fact sheet or permit to which each comment refers.
- Make sure to submit your comments by the comment period deadline identified.

II. Extension of Comment Period for Draft CGP

A. Draft CGP

On April 25, 2011, EPA announced in the **Federal Register** the publication of proposed modifications to the next iteration of its CGP. See 79 FR 22882. The **Federal Register** notice provided summary details of the changes in the proposed permit, as compared to the existing CGP, and the supporting legislative and regulatory background behind these modifications. A key difference between the draft CGP and past versions of the permit is the fact that for the first time EPA's permit is required to include new requirements promulgated by the Agency in its Construction and Development Effluent Limitations Guidelines and New Source Performance Standards, also referred to as the "C&D rule". Copies of the draft permit are available on EPA's Web site at <http://cfpub.epa.gov/npdes/stormwater/cgp.cfm>. More information regarding EPA's C&D rule can be found at <http://water.epa.gov/scitech/wastetech/guide/construction/index.cfm>.

B. Extension of Comment Period

EPA is extending the deadline for submitting comments on the draft CGP to July 11, 2011. The original deadline for comments, based on a 60-day comment period, was June 24, 2011. EPA's decision responds to a request from several organizations to extend the comment deadline in order to provide a longer period of time in which to provide comments. EPA is hopeful that

this 17-day extension, although not as long as the 60-day extension that at least one organization requested, will assist in providing an adequate amount of additional time for these organizations as well as other members of the public to review the draft permit and to provide written comments.

Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA's comment letters, in the **Federal Register**. Since February 2008, EPA has included its comment letters on EISs on its Web site at: <http://www.epa.gov/compliance/nepa/eisdata.html>. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA's comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the **Federal Register**.
