Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:* Businesses, not-for-profit institutions, and State, Local, or Tribal governments.

*Estimated Number of Respondents:* 22,865.

*Frequency of Response:* On occasion.

*Estimated Total Annual Hour Burden:* 463,419.

*Estimated Total Annual Cost:* \$19,415,628, includes \$31,736 annualized capital costs.

*Changes in the Estimates:* There is an increase of 30,792 hours from the currently approved burden. This is due to an observed increase in the number of facilities which must create and maintain an FRP.

*Title:* Certification of Pesticide Applicators.

*ICR numbers:* EPA ICR No. 0155.10, OMB Control No. 2070-0029.

*ICR Status:* The current OMB approval for this ICR is scheduled to expire on July 31, 2011. Under OMB regulations at 5 CFR 1320.12(b)(2), the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR is for an ongoing information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the Final Rule and in the **Federal Register** when approved, are listed in 40 CFR Part 9 or by other appropriate means, such as on the related collection instrument or form, if applicable.

*Abstract:* Under section 11 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA administers certification programs for pesticide applicators. FIFRA allows EPA to classify a pesticide as "restricted use" if the pesticide meets certain toxicity or risk criteria. This ICR addresses the paperwork activities performed by various EPA-authorized agencies of States and Indian tribal governments, as well as federal agencies (collectively referred to in this document as "authorized agencies"), and activities performed by individuals and firms in the course of training and certifying persons who apply restricted use pesticides.

Because of their potential to harm human health or the environment, restricted use pesticides may be purchased and applied only by a

certified applicator or by a person under the direct supervision of a certified applicator. A person must meet certain standards of competency to become a certified applicator; these standards are met through completion of a certification program or test. Authorized agencies administer certified applicator programs within their jurisdictions, but each agency's certification plan must be approved by EPA before it can be implemented. In areas where no agency has been authorized, EPA may administer a certification program directly, called a Federal program.

This ICR also addresses how registrants of certain pesticide products are expected to perform specific, special paperwork activities, such as training and record-keeping, in order to comply with the terms and conditions of the pesticide registration (e.g., registrants of anthrax-related pesticide products that assert claims to inactivate *Bacillus anthracis* (anthrax) spores). Paperwork activities associated with the use of such products are conveyed specifically as a condition of the registration.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to range from 0.17 hours (ten minutes) to 77.35 hours per response, with a burden on most respondents of 3.1 hours. Burden is defined in 5 CFR 1320.3(b). The following is a summary of the burden and cost information for this ICR:

**Respondents/Affected Entities:** As identified by their North American Industrial Classification System (NAICS) code, entities potentially affected by this ICR are: Applicators on Farms (111 Crop Production, 112 Animal Production); Commercial Services Applicators (561710 Exterminating and Pest Control Services); Administration of Certification Programs by States/Tribal Lead Agencies (924110 Environmental protection program administration and 926140 Pest control programs, agricultural, governmental); Pesticide Dealers (only for EPA-administered programs) (444220 Retail Nursery, Lawn, and Garden Supply stores, 424910 Agricultural chemicals merchant wholesalers); and Pesticide and Other Agricultural Chemical Manufacturing (32532 Individuals or entities engaged in activities related to the registration of a pesticide product).

**Estimated Total Number of Respondents:** 427,133.

**Frequency of Response:** Annual.

**Estimated Total Annual Hour Burden:** 1,320,669 hours.

**Estimated Total Annual Cost:** \$42,134,484.

**Changes in the Estimates:** There is an increase of 10,918 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects a program change: the expansion of the Federal certified applicator program from Navajo Country to all of Indian Country. Burden hours per respondent have not changed.
