

OMB Control Number: 0579-0186.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701—*et seq.*), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant products to prevent the introduction of plant pests into the United States or their dissemination within the United States. Black stem rust is one of the most destructive plant diseases of small grains that are known to exist in the United States. The disease is caused by a fungus that reduces the quality and yield of infected wheat, oat, barley, and rye crops by robbing host plants of food and water.

Need and Use of the Information: APHIS will collect information to prevent the spread of black stem rust by providing for and requiring the accurate identification of rust-resistant varieties by inspectors.

Description of Respondents: Business or other for profit.

Number of Respondents: 4.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 32.

Ruth Brown,

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION:

Title: Revision of Hawaiian and Territorial Fruits and Vegetables Regulations.

OMB Number: 0579-0346.

Type of Request: Extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA.

Under the regulations in "Subpart—Regulated Articles From Hawaii and the Territories" (7 CFR 318.13-1 through 318.13-26), APHIS prohibits or restricts the interstate movement of fruits and vegetables into the United States from Hawaii, Puerto Rico, the U.S. Virgin Islands, Guam, and the Commonwealth

of the Northern Mariana Islands to prevent plant pests and noxious weeds from being introduced into and spread within the continental United States.

The regulations contain requirements for a performance-based process for approving the interstate movement of commodities that, based on the findings of a pest risk analysis, can be safely imported subject to one or more designated phytosanitary measures and for acknowledging pest-free areas. These requirements involve information collection activities, including limited permits, transit permits, compliance agreements, inspection and certification, labeling, and trapping surveillance.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.43 hours per response.

Respondents: Wholesalers and producers of fruits and vegetables; and State officials.

Estimated annual number of respondents: 600.

Estimated annual number of responses per respondent: 33.666666.

Estimated annual number of responses: 20,200.

Estimated total annual burden on respondents: 8,646 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 27th day of June 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

FOR FURTHER INFORMATION CONTACT: For information on self-certification medical statements, contact Mr. Eric Williams, Human Resources Specialist, Human Resources Division, APHIS, 100 N. 6th Street, Butler Square, 5th Floor, Minneapolis, MN 55403; (612) 336-3370. For copies of more detailed

information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION: *Title:* Self-Certification Medical Statement.

OMB Number: 0579-0196.

Type of Request: Extension of approval of an information collection.

Abstract: The Marketing and Regulatory Programs (MRP) agencies of the U.S. Department of Agriculture facilitate the domestic and international marketing of U.S. agricultural products and protect the health of domestic animal and plant resources. The MRP agencies are the Agricultural Marketing Service, the Animal and Plant Health Inspection Service (APHIS), and the Grain Inspection, Packers and Stockyards Administration. Resource management and administrative services, including human resource management, for the three MRP agencies are provided by the MRP Business Services unit of APHIS, which is the lead agency in providing administrative support for MRP.

In accordance with 5 CFR part 339, Federal agencies are authorized to obtain medical information from applicants for positions that have approved medical standards. Medical standards may be established for positions for which the duties are arduous or hazardous or require a certain level of health status or fitness.

Certain positions in MRP agencies have medical standards. MRP hires individuals each year in commodity grading and inspection positions. These employees work under dusty conditions, around moving machinery and slippery surfaces, and in areas with high noise levels. A potential employee may have direct contact with meat and dairy products, fresh or processed fruits and vegetables, and poultry products intended for human consumption; and/or cotton and tobacco products intended for human use.

The MRP agencies require a self-certification medical statement (MRP Form 5-R) from applicants for these positions regarding their fitness for the positions. The MRP agencies need this information to determine whether the applicants can perform the duties of the positions. Inability to collect this information would adversely affect the MRP agencies' ability to make employment decisions and determinations regarding an applicant's physical fitness to safely and efficiently perform assigned duties.

We are asking the Office of Management and Budget (OMB) to approve our use of this information

collection activity for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.167939 hours per response.

Respondents: Applicants for MRP positions with approved medical standards.

Estimated annual number of respondents: 524.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 524.

Estimated total annual burden on respondents: 88 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
