On June 14, 2011, the ALJ issued the subject ID, granting the joint motion for termination in its entirety. The ALJ found that the consent order stipulations complied with the requirements of Commission Rule 210.21(c)(3) (19 CFR 210.21(c)(3)). The ALJ also concluded that there is no evidence that termination of this investigation in its entirety would be contrary to the public interest. No petitions for review of this ID were filed.

The Commission has determined not to review the ID.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in section 210.42 of the Commission's Rules of Practice and Procedure (19 CFR 210.42).

Notice of Lodging of Consent Decree Under the Clean Air Act

Notice is hereby given that on June 30, 2011, a Consent Decree in *United States v. Western Refining Company, L.P.*, Civil Action No. 3:11-cv-276, was lodged with the United States District Court for the Western District of Texas.

The Consent Decree, which pertains to Western's El Paso, Texas refinery, is one of many national settlements concluded as part of EPA's Clean Air Act Petroleum-Refinery Initiative. Consistent with the objectives of the national initiative, the settlement requires Western to perform injunctive relief to reduce emissions of nitrogen oxides, sulfur dioxide, volatile organic compounds, and benzene. Among other things, emission limits are set for NO_x and SO₂ emissions from the fluidized catalytic cracking unit (FCCU), emission

limits are set for NO_x from large heaters and boilers, the root causes of any flaring incidents must be investigated, the refinery's flares must comply with regulations that limit SO₂ emissions, the refinery's benzene monitoring program is enhanced, and the refinery's leak-detection-and-repair (LDAR) program is upgraded. The Consent Decree also requires the payment of a \$1.45 million civil penalty.

The Consent Decree resolves allegations by the Environmental Protection Agency, asserted in a complaint filed with the Consent Decree.

Pursuant to Section 122(d)(2) of CERCLA, 42 U.S.C. 9622(d)(2), notice is

hereby given that on June 28, 2011, two proposed Consent Decrees in *United States v. Atlantic Land and Improvement Co. et al.*, Civil Action No. 8:11-cv-01435-EAK-EAJ, were lodged with the United States District Court for the Middle District of Florida.

In this action the United States sought to require the Defendants, Atlantic Land and Improvement Co. ("ALI") and Stephen J. Cook and Patricia J. Cook ("the Cooks"), to conduct remedial design and remedial action to address releases and threatened releases of hazardous substances at the Raleigh Street Dump Superfund Site ("Site") in Tampa, Hillsborough County, Florida. The United States also sought to recover past and future costs incurred and to be incurred by the Environmental Protection Agency (EPA) during the performance of response actions at the Site.

Under the Consent Decree with ALI, ALI will perform the remedial design and remedial action at the Site. The remedy provides for excavation of approximately 12,000 cubic yards of contaminated soils and sediments, replacement with clean fill to pre-removal grade, monitored natural attenuation of contaminated groundwater, and restoration of on-site wetlands impacted during removal of contaminated soils/sediments. ALI will also excavate an additional approximately 2,000 cubic yards of soil and place approximately 4,400 square feet of concrete slab under existing buildings at the Site. ALI will also reimburse the Hazardous Substance Superfund in the amount of \$175,000 for EPA's future response costs at the Site.

Under the Consent Decree with the Cooks, the Cooks will record a notice to successors-in-title and deed restrictions on the portion of the Site owned by them; ensure that materials and land use at the Site do not interfere with the remedial action; and reimburse the Hazardous Substance Superfund in the amount of \$20,000.
