Proposed Rule Stage

224. National Wildlife Refuge System; Oil and Gas Regulations

Legal Authority: 16 U.S.C. 668dd-ee; 42 U.S.C. 7401 *et seq.*; 16 U.S.C. 1131 to 1136; 40 CFR 51.300 to 51.309

Abstract: We propose regulations that ensure that all operators conducting oil or gas operations within a National Wildlife Refuge System unit do so in a manner as to prevent or minimize damage to National Wildlife Refuge System resources, visitor values, and

management objectives. FWS does not intend these regulations to result in a taking of a property interest, but rather to impose reasonable controls on operations that affect federally owned or controlled lands and/or waters.

227. Stream Protection Rule

Legal Authority: 30 U.S.C. 1201 *et seq.*

Abstract: On August 12, 2009, the U.S. District Court for the District of Columbia denied the Government's request that the court vacate and remand the Excess Spoil/Stream Buffer Zone rule published on December 12, 2008. Therefore, the Department intends to initiate notice and comment rulemaking to address issues arising from previous rulemakings. The agency also intends to prepare a new environmental impact statement.
