**Office of the Secretary**

**20 CFR Chs. I, IV, V, VI, VII, and IX**

**29 CFR Subtitle A and Chs. II, IV, V, XVII, and XXV**

**30 CFR Ch. I**

**41 CFR Ch. 60**

**48 CFR Ch. 29**

**Semiannual Agenda of Regulations**

**AGENCY:** Office of the Secretary, Labor.  
**ACTION:** Semiannual regulatory agenda.

**SUMMARY:** This document sets forth the Department's semiannual agenda of regulations that have been selected for review or development during the coming year. The Department's agencies have carefully assessed their available resources and what they can accomplish in the next 12 months and have adjusted their agendas accordingly.

The agenda complies with the requirements of both Executive Order 12866 and the Regulatory Flexibility

Act. The agenda lists all regulations that are expected to be under review or development between April 2011 and April 2012, as well as those completed during the past six months.

**FOR FURTHER INFORMATION CONTACT:** Kathleen Franks, Director, Office of Regulatory Policy, Office of the Assistant Secretary for Policy, U.S. Department of Labor, 200 Constitution Avenue NW., Room S-2312, Washington, DC 20210; (202) 693-5959.

**Note:** Information pertaining to a specific regulation can be obtained from the agency contact listed for that particular regulation.

**SUPPLEMENTARY INFORMATION:** Executive Order 12866 requires the semiannual publication of an agenda of regulations that contains a listing of all the regulations the Department of Labor expects to have under active consideration for promulgation, proposal, or review during the coming one-year period. The entirety of the Department's semiannual agenda is available online at <http://www.reginfo.gov>.

The Regulatory Flexibility Act (5 U.S.C. 602) requires DOL to publish in the **Federal Register** a regulatory

flexibility agenda. The Department's Regulatory Flexibility Agenda published with this notice includes only those rules on its semiannual agenda that are likely to have a significant economic impact on a substantial number of small entities; and those rules identified for periodic review in keeping with the requirements of section 610 of the Regulatory Flexibility Act. Thus, the regulatory flexibility agenda is a subset of the Department's semiannual regulatory agenda. At this time, there is only one item, listed below, on the Department's Regulatory Flexibility Agenda.

**Occupational Safety and Health Administration**

*Bloodborne Pathogens (RIN 1218-AC34)*

All interested members of the public are invited and encouraged to let departmental officials know how our regulatory efforts can be improved, and are invited to participate in and comment on the review or development of the regulations listed on the Department's agenda.

**Hilda L. Solis,**  
*Secretary of Labor.*

**OFFICE OF LABOR-MANAGEMENT STANDARDS—PROPOSED RULE STAGE**

Sequence No.	Title	Regulation Identifier No.
228 .....	Persuader Agreements: Employer and Labor Relations Consultant Reporting Under the LMRDA .....	1245-AA03
229 .....	Persuader Agreements: Consultant Form LM-21 Receipts and Disbursements Report .....	1245-AA05

**OFFICE OF WORKERS' COMPENSATION PROGRAMS—FINAL RULE STAGE**

Sequence No.	Title	Regulation Identifier No.
230 .....	Regulations Implementing the Longshore and Harbor Workers' Compensation Act: Recreational Vessels	1240-AA02

**OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION—PRERULE STAGE**

Sequence No.	Title	Regulation Identifier No.
231 .....	Occupational Exposure to Beryllium .....	1218-AB76
232 .....	Occupational Exposure to Food Flavorings Containing Diacetyl and Diacetyl Substitutes .....	1218-AC33
233 .....	Bloodborne Pathogens (SECTION 610 REVIEW) .....	1218-AC34

**OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION—PROPOSED RULE STAGE**

Sequence No.	Title	Regulation Identifier No.
234 .....	Occupational Exposure to Crystalline Silica .....	1218-AB70

**OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION—FINAL RULE STAGE**

Sequence No.	Title	Regulation Identifier No.
235 .....	Confined Spaces in Construction .....	1218-AB47

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION—FINAL RULE STAGE—Continued

Sequence No.	Title	Regulation Identifier No.
236 .....	Electric Power Transmission and Distribution; Electrical Protective Equipment Protective Equipment .....	1218-AB67

**DEPARTMENT OF LABOR (DOL)**

*Office of Labor—Management Standards (OLMS)*

Proposed Rule Stage

**228. Persuader Agreements: Employer and Labor Relations Consultant Reporting Under the LMRDA**

*Legal Authority:* 29 U.S.C. 433; 29 U.S.C. 438

*Abstract:* The Department intends to publish notice and comment rulemaking seeking consideration of a revised interpretation of section 203(c) of the Labor-Management Reporting and Disclosure Act (LMRDA). That statutory provision creates an “advice” exemption from reporting requirements that apply to employers and other persons in connection with persuading employees about the right to organize and bargain collectively. A proposed revised interpretation would narrow the scope of the advice exemption.

*Regulatory Flexibility Analysis Required: Yes.*

*Agency Contact:* Andrew R. Davis, Chief, Division of Interpretations and Standards, Office of Labor-Management Standards, Department of Labor, Office of Labor-Management Standards, Room N-5609, FP Building, 200 Constitution Avenue NW., Washington, DC 20210, Phone: 202 693-1254, Fax: 202 693-1340, E-mail: [davis.andrew@dol.gov](mailto:davis.andrew@dol.gov).  
*RIN:* 1245-AA03

**229. Persuader Agreements: Consultant Form LM-21 Receipts and Disbursements Report**

*Legal Authority:* 29 U.S.C. 433 and 438

*Abstract:* The Department intends to publish a notice and comment rulemaking seeking consideration of the Form LM-21, Receipts and Disbursements Report, which is required pursuant to section 203(b) of the Labor-Management Reporting and Disclosure Act (LMRDA). The rulemaking will propose mandatory electronic filing for Form LM-21 filers, and it will review the layout of the Form LM-21 and its instructions, including the detail required to be reported.

**DEPARTMENT OF LABOR (DOL)**

*Office of Workers’ Compensation Programs (OWCP)*

Final Rule Stage

**230. Regulations Implementing the Longshore and Harbor Workers’ Compensation Act: Recreational Vessels**

*Legal Authority:* 33 U.S.C. 939

*Abstract:* The American Recovery and Reinvestment Act of 2009 amended the Longshore and Harbor Workers’ Compensation Act, 33 U.S.C. 901 to 950, to exclude from the Act’s coverage certain employees who repair recreational vessels and who dismantle them for repair, regardless of the vessel’s length. On August 17, 2010, (republished on October 15, 2010), the Department issued a Notice of Proposed Rulemaking revising the definition of recreational vessel and addressing coverage of those employees who work in both qualifying maritime employment and employment excluded under the amendment. The comment period ended on November 17, 2010. The Department anticipates publishing a final rule by December 2011.

*RIN:* 1240-AA02

**DEPARTMENT OF LABOR (DOL)**

*Occupational Safety and Health Administration (OSHA)*

Prerule Stage

**231. Occupational Exposure to Beryllium**

*Legal Authority:* 29 U.S.C. 655(b); 29 U.S.C. 657

*Abstract:* In 1999 and 2001, OSHA was petitioned to issue an emergency temporary standard by the United Steel Workers (formerly the Paper Allied-Industrial, Chemical, and Energy Workers Union), Public Citizen Health Research Group, and others. The Agency denied the petitions but stated its intent to begin data gathering to collect needed information on beryllium’s toxicity, risks, and patterns of usage.

On November 26, 2002, OSHA published a Request for Information (RFI) (67 FR 70707) to solicit information pertinent to occupational exposure to beryllium including: current exposures to beryllium; the relationship between exposure to beryllium and the development of adverse health effects; exposure assessment and monitoring methods; exposure control methods; and medical surveillance. In addition, the Agency conducted field surveys of selected work sites to assess current exposures and control methods being used to reduce employee exposures to beryllium. OSHA convened a Small Business Advocacy Review Panel under the Small Business Regulatory Enforcement Fairness Act (SBREFA) and completed the SBREFA Report in January 2008. OSHA completed a scientific peer review of its draft risk

assessment. The economic peer review is scheduled to be completed in May 2011.

RIN: 1218-AB76

**232. Occupational Exposure to Food Flavorings Containing Diacetyl and Diacetyl Substitutes**

*Legal Authority:* 29 U.S.C. 655(b); 29 U.S.C. 657

*Abstract:* On July 26, 2006, the United Food and Commercial Workers International Union (UFCW) and the International Brotherhood of Teamsters (IBT) petitioned DOL for an Emergency Temporary Standard (ETS) for all employees exposed to diacetyl, a major component in artificial butter flavoring. Diacetyl and a number of other volatile organic compounds are used to manufacture artificial butter food flavorings. These food flavorings are used by various food manufacturers in a multitude of food products including microwave popcorn, certain bakery goods, and some snack foods. Evidence indicates that exposure to flavorings containing diacetyl is associated with adverse effects on the respiratory system, including bronchiolitis obliterans, a debilitating and potentially fatal lung disease. OSHA denied the petition on September 25, 2007, but has initiated 6(b) rulemaking. OSHA published an Advanced Notice of Proposed Rulemaking (ANPRM) on January 21, 2009, but withdrew the

ANPRM on March 17, 2009, in order to facilitate timely development of a standard. The Agency subsequently initiated review of the draft proposed standard in accordance with the Small Business Regulatory Enforcement Fairness Act (SBREFA). The SBREFA Panel Report was completed on July 2, 2009. NIOSH is currently developing a criteria document on occupational exposure to diacetyl. The criteria document will also address exposure to 2,3-pentanedione, a chemical that is structurally similar to diacetyl and has been used as a substitute for diacetyl in some applications. It will include an assessment of the effects of exposure as well as quantitative risk assessment. OSHA intends to rely on these portions of the criteria document for the health effects analysis and quantitative risk assessment for the Agency's diacetyl rulemaking. NIOSH will initiate public peer review of the criteria document in April, 2011.

**233. Bloodborne Pathogens (Section 610 Review)**

*Legal Authority:* 5 U.S.C. 533; 5 U.S.C. 610; 29 U.S.C. 655(b)

*Abstract:* OSHA will undertake a review of the Bloodborne Pathogen Standard (29 CFR 1910.1030) in accordance with the requirements of the Regulatory Flexibility Act and section 5 of Executive Order 12866. The review will consider the continued need for the

rule; whether the rule overlaps, duplicates, or conflicts with other Federal, State or local regulations; and the degree to which technology, economic conditions, or other factors may have changed since the rule was evaluated.

RIN: 1218-AC34

**DEPARTMENT OF LABOR (DOL)**

*Occupational Safety and Health Administration (OSHA)*

Proposed Rule Stage

**234. Occupational Exposure to Crystalline Silica**

*Legal Authority:* 29 U.S.C. 655(b); 29 U.S.C. 657

*Abstract:* Crystalline silica is a significant component of the earth's crust, and many workers in a wide range of industries are exposed to it, usually in the form of respirable quartz or, less frequently, cristobalite. Chronic silicosis is a uniquely occupational disease resulting from exposure of employees over long periods of time (10 years or more). Exposure to high levels of respirable crystalline silica causes acute or accelerated forms of silicosis that are ultimately fatal. The current OSHA permissible exposure limit (PEL) for general industry is based on a formula proposed by the American Conference of Governmental Industrial Hygienists (ACGIH) in 1968 (PEL = 10 mg/cubic meter/(% silica + 2), as respirable dust). The current PEL for construction and shipyards (derived from ACGIH's 1970 Threshold Limit Value) is based on particle counting technology, which is considered obsolete. NIOSH and ACGIH recommend 50 µg/m<sup>3</sup> and 25 µg/m<sup>3</sup>

exposure limits, respectively, for respirable crystalline silica. Both industry and worker groups have recognized that a comprehensive standard for crystalline silica is needed to provide for exposure monitoring, medical surveillance, and worker training. ASTM International has published recommended standards for addressing the hazards of crystalline silica. The Building Construction Trades Department of the AFL-CIO has also developed a recommended comprehensive program standard. These standards include provisions for methods of compliance, exposure monitoring, training, and medical surveillance.

*Occupational Safety and Health Administration (OSHA)*

Final Rule Stage

**235. Confined Spaces in Construction**

*Legal Authority:* 29 U.S.C. 655(b); 40 U.S.C. 333

*Abstract:* In 1993, OSHA issued a rule to protect employees who enter confined spaces while engaged in general industry work (29 CFR 1910.146). This standard has not been extended to cover employees entering confined spaces while engaged in construction work because of unique

characteristics of construction worksites. Pursuant to discussions with the United Steel Workers of America that led to a settlement agreement regarding the general industry standard, OSHA agreed to issue a proposed rule to protect construction workers in confined spaces.

RIN: 1218-AB47

**236. Electric Power Transmission and Distribution; Electrical Protective Equipment**

*Legal Authority:* 29 U.S.C. 655(b); 40 U.S.C. 333

*Abstract:* Electrical hazards are a major cause of occupational death in the United States. The annual fatality rate for power line workers is about 50 deaths per 100,000 employees. The construction industry standard addressing the safety of these workers during the construction of electric power transmission and distribution lines is over 35 years old. OSHA has developed a revision of this standard that will prevent many of these fatalities, add flexibility to the standard, and update and streamline the standard. OSHA also intends to amend the corresponding standard for general industry so that requirements for work performed during the maintenance of electric power transmission and distribution installations are the same as those for similar work in construction. In addition, OSHA will be revising a few miscellaneous general industry requirements primarily affecting electric transmission and distribution work, including provisions on electrical protective equipment and foot

protection. This rulemaking also addresses fall protection in aerial lifts for work on power generation, transmission, and distribution installations. OSHA published an NPRM on June 15, 2005. A public hearing was held from March 6 through March 14, 2006. OSHA reopened the record to gather additional information on minimum approach distances for specific ranges of voltages. The record was reopened a second time to allow more time for comment and to gather information on minimum approach distances for all voltages and on the newly revised Institute of Electrical and Electronics Engineers consensus standard. Additionally, a public hearing was held on October 28, 2009. The posthearing comment period ended in September 2010. OSHA anticipates publishing a final rule in July 2011.
