Notice of Request for Extension of a Currently Approved Information Collection

AGENCY: Foreign Agricultural Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces that the Foreign Agricultural Service (FAS) intends to request an extension for a currently approved information collection procedure for entry of specialty sugars into the United States as described in 7 CFR part 2011.

DATES: Comments should be received on or before September 12, 2011 to be assured of consideration.

ADDRESSES: Mail or deliver comments to William Janis, International Economist, Import Policies and Programs Division, Foreign Agricultural Service, U.S. Department of Agriculture, Stop 1021, 1400 Independence Ave. SW., Washington, DC 20250-1021.

FOR FURTHER INFORMATION CONTACT: William Janis at the address stated above, or telephone at (202) 720-2194; or by e-mail at William.Janis@fas.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Specialty Sugar Certificate Application.

OMB Number: 0551-0025.

Expiration Date of Approval: December 31, 2011.

Type of Request: Extension of a currently approved information collection.

Abstract: The quota system established by Presidential Proclamation 4941 of May 5, 1982, prevented the importation of certain sugars used for specialized purposes which originated in countries which did not have quota allocations. Therefore, the regulation at 15 CFR part 2011 (Allocation of Tariff-Rate Quota on Imported Sugars, Syrups and Molasses, subpart B—Specialty Sugar) established terms and conditions under which certificates are issued permitting U.S. importers holding certificates to enter specialty sugars from specialty sugar source countries under the sugar tariff-rate quotas (TRQ). Nothing in this subpart affects the ability to enter specialty sugars at the over-TRQ duty rates. Applicants for certificates for the import of specialty sugars must supply the information required by 15 CFR 2011.205 to be eligible to receive a specialty sugar certificate. The specific information required on an application must be collected from those who wish to participate in the program in order to grant specialty sugar certificates, ensure that imported specialty sugar does not disrupt the current domestic sugar program, and administer the issuance of the certificates effectively.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 2 hours per response.

Respondents: Importers.

Estimated Number of Respondents: 37.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 74 hours.

Copies of this information collection can be obtained from Tamoria Thompson-Hall, the Agency Information Collection Coordinator, at (202) 690-1690.

Request for Comments: The public is invited to submit comments and suggestions to the above address regarding the accuracy of the burden estimate, ways to minimize the burden, including the use of automated collection techniques or other forms of information technology, or any other aspect of this collection of information. Comments on issues covered by the Paperwork Reduction Act are most useful to OMB if received within 30 days of publication of the Notice and Request for Comments, but should be submitted no later than 60 days from the date of this publication to be assured of consideration. All responses to this notice will be summarized and included

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Socio-Economic Surveys of Vessel (SESV) Owners and Crew in New England and Mid-Atlantic Fisheries.

OMB Control Number: None.

Form Number(s): NA.

Type of Request: Regular submission (request for a new information collection).

Number of Respondents: 1,400.

Average Hours per Response: 30 minutes.

Burden Hours: 700.

Needs and Uses: The purpose of this survey is to provide for the ongoing collection of social and economic data related to fisheries and their communities in the Northeast and Mid-Atlantic states. These data are needed to support fishery performance measures recently developed by NOAA's Northeast Science Center's Social Science Branch (SSB) in Woods Hole, MA. The measures are: financial viability, distributional outcomes, stewardship, governance and well-being. Data to support some indicators for these measures are already routinely collected by National Marine Fisheries Service (NMFS). This survey will fill in the gaps, and allow the SSB to collect trend data needed for more thorough analysis of changes in the fisheries, including impacts from changes in regulations. The National Environmental Policy Act (NEPA) and the Magnuson-Stevens Fishery Conservation and Management Act (MSA), as amended, both contain requirements for considering the social and economic impacts of fishery management decisions. Currently, however, no data exist that allow for tracking the social impacts of fishery management policy and decisions over time in the Northeast and Mid-Atlantic states, and insufficient economic trend data are available. In implementing policies and management programs, and in meeting the social and economic impact assessment requirements of NEPA and MSA, there is a need to understand how such policies and programs will affect the social and economic characteristics of those involved in the commercial fishing industry. Under this survey, the SSB intends to collect socio-economic data from vessel owners, permit holders, hired captains, and crew involved in commercial fishing in New England and the Mid-Atlantic states. Data to be collected include information on crew, wage calculation systems, individual and community well-being, fishing practices, job satisfaction, job opportunities, and attitudes toward fisheries management. SSB intends to collect these data on an ongoing (e.g., annually or biennially) basis in order to track how socio-economic characteristics of fisheries are changing over time and to track the impact of fishery policies and management programs implemented in New England and the Mid-Atlantic.

NMFS is aware of a survey begun by the University of Rhode Island (URI) in 2009/2010 in New England under a grant from the Commercial Fisheries Research Foundation, that seeks

Paperwork Reduction Act clearance for a follow-up in the Mid-Atlantic in summer 2011 under NOAA funding (Social Impacts of the Implementation of Catch Shares Programs in the Mid-Atlantic, OMB Control No. 0648-xxxx). The current request has learned from some elements of the URI and follow-on survey. However, this request (1) is focused on fisheries management in general while the earlier study is focused solely on catch shares, (2) is an ongoing survey rather than a one-time effort, and (3) specifically targets performance indicators for which data are not currently being collected.

Affected Public: Business or other for-profit organizations, individuals or households.

Frequency: Annually.

Respondent's Obligation: Voluntary.

OMB Desk Officer:

OIRA_Submission@omb.eop.gov.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to

OIRA_Submission@omb.eop.gov.

Dated: July 11, 2011.
