Uncovered Innerspring Units From the People's Republic of China: Extension of Preliminary Results of Antidumping Duty New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the "Department") is extending the time limit for the preliminary results of the new shipper review of uncovered innerspring units ("innersprings") from the People's Republic of China ("PRC"). The period of review for this review is February 1, 2010, through August 4, 2010.

DATES: *Effective Date:* July 20, 2011.

FOR FURTHER INFORMATION CONTACT: Paul Walker, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-0413.

Background

On October 7, 2010 the Department published a notice of initiation in the **Federal Register** of the new shipper review in the antidumping duty order on innersprings from the PRC for Foshan Nanhai Jiujiang Quan Li Spring Hardware Factory ("Quan Li") and Foshan Yongnuo Import & Export Co., Ltd. ("Yongnuo").¹ On March 28, 2011,

¹ See *Uncovered Innerspring Units from the People's Republic of China: Initiation of Antidumping Duty New Shipper Review*, 75 FR 62107 (October 7, 2010).

the Department extended the deadline for the preliminary results of this review to June 1, 2011.² On June 13, 2011, the Department extended the deadline for the preliminary results of this review to July 15, 2011.³

Statutory Time Limits

Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended (the "Act"), and section 351.214(i)(1) of the Department's regulations require the Department to issue the preliminary results of a new shipper review within 180 days after the date on which the new shipper review was initiated and final results within 90 days after the date on which the preliminary results are issued. However, the Department may extend the deadline for completion of the preliminary results of a new shipper review to 300 days if it determines that the case is extraordinarily complicated.⁴

Extension of Time Limit for Preliminary Results of Review

The Department has determined that the review is extraordinarily complicated as the Department must analyze the responses to supplemental questionnaires concerning Quan Li's and Yongnuo's sales practices and factors of production. Moreover, the Department needs additional time to analyze the *bona fide* nature of Quan Li's and Yongnuo's sales, which includes gathering data from U.S. Customs and Border Protection. Based on the timing of the case and the additional information that must be gathered, the preliminary results of this new shipper review cannot be completed within the current time limits.

Therefore, the Department is extending the time limit for completion of the preliminary results of this new shipper review by an additional 11 days from the July 15, 2011, deadline. As a result, the preliminary results will now be due no later than July 26, 2011. The final results continue to be due 90 days after the issuance of the preliminary results.

We are issuing and publishing this notice in accordance with sections 751(a)(2)(B)(iv) and 777(i) of the Act.

Application(s) for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, as amended by Pub. L. 106-36; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be postmarked on or before August 9, 2011. Address written comments to Statutory Import Programs Staff, Room 3720, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5 p.m. at the U.S. Department of Commerce in Room 3720.

Docket Number: 11-039. *Applicant:* Virginia Polytechnic Institute, Department of Engineering Science and Mechanics, 225 Norris Hall MC 0219, Blacksburg, VA 24061. *Instrument:* Nano test platform. *Manufacturer:* Micro Materials Ltd., UK. *Intended Use:* The instrument will be used to study the mechanical behavior of metals (steel, aluminum, brass copper), ceramics, and polymers (polyethylene, epoxies) under different loadings such as compression, fatigue, creep, impact, scratch and friction. *Justification for Duty-Free Entry:* No instruments of the same general category being manufactured in the United States support the technical requirements for high temperature nanoindentations, nanoimpact, nanofatigue and wet stage nanoindentation. *Application accepted by Commissioner of Customs:* June 28, 2011.

Docket Number: 11-040. *Applicant:* University of Colorado at Boulder, Attn: Stuart Littlefield, Procurement Service Center, 1800 Grant Street, Suite 500, Denver, CO 80202. *Instrument:* Low-temperature atomic force microscope. *Manufacturer:* attocube systems AG, Germany. *Intended Use:* The instrument will be used to study nano-scale domain formation associated with phase

transitions, transition temperatures, and domain size and order, of transition metal oxides, especially magnetoelectric multiferroics, manganites, vanadates, and superconductors. *Justification for Duty-Free Entry:* No instruments of the same general category, or comparable instruments that could otherwise be used for the intended purpose, are being manufactured in the United States. *Application accepted by Commissioner of Customs:* June 28, 2011.

Docket Number: 11–041. *Applicant:* Washington University, 660 South Euclid Avenue, Saint

Louis, MO 63110–1093. *Instrument:* Transmission electron microscope. *Manufacturer:* JEOL Ltd., Japan. *Intended Use:* The instrument will be used to provide dependable ultrastructural analysis to NIH-sponsored investigators, extending their capacity to ask disease-related and basic science questions with a more sophisticated approach to analyzing the relationship of subcellular elements. *Justification for Duty-Free Entry:* No instruments of the same general category, or comparable instruments that could otherwise be used for the intended purpose, are being manufactured in the United States. *Application accepted by Commissioner of Customs:* June 30, 2011.

Dated: July 12, 2011.

Gregory W. Campbell,

Director, Subsidies Enforcement Office, Office of Policy, Import Administration.

National Institute of Standards and Technology

Proposed Information Collection; Comment Request; NIST MEP Client Impact Survey

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before September 19, 2011.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Christopher Carbone, (301) 975–2952, ccarbone@nist.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

Sponsored by the National Institute of Standards and technology (NIST), the Manufacturing Extension Partnership (MEP) is a national network of locally-based manufacturing extension centers working with small manufacturers to assist them to improve their productivity, profitability, and enhance their economic competitiveness. The information collected will provide the MEP with information regarding MEP Center performance in the delivery of technology, and business solutions to U.S.-based manufacturers. The collected information will assist in determining the performance of the MEP Centers at both local and national levels, provide information critical to monitoring and reporting on MEP programmatic performance, and assist management in policy decisions. Responses to the collection of information are mandatory per the regulations governing the operation of the MEP Program (15 CFR Parts 290, 291, 292, and H.R. 1274—section 2). The information collected will include MEP customer inputs regarding their sales, costs, investments,
