

Commission adopted a First Report and Order and Further Notice of Proposed Rulemaking (FCC 11–76) in Reporting Requirements for U.S. Providers of International Telecommunications Services, Amendment of Part 43 of the Commission's Rules, IB Docket No. 04–112 (rel. May 13, 2011). In the First Report and Order portion of that document (First Report and Order), the Commission amended the international reporting requirements in Section 43.61 of the Commission's rules. The Commission retained the annual traffic and revenue report contained in Section 43.61(a) but eliminated the quarterly large carrier report in Section 43.61(b) and the quarterly report of switched resellers affiliated with foreign telecommunications entities in Section 43.61(c). The Commission also retained the requirement from the current Section 43.61(a) traffic and revenue report that filing entities report their international message telephone service (IMTS) and international private line services on a for each overseas route they serve. The Commission also retained the current requirement in Section 43.61(a) that filing entities report their IMTS resale (*i.e.*, where an entity purchases IMTS calls from another provider and resells them to its customers) on a world-total basis.

The First Report and Order simplified the annual Section 43.61(a) report by amending subpart (a) of the rule to eliminate the current requirement that filing entities separately report IMTS and private line traffic between the conterminous 48 states and offshore U.S. points such as Guam and the U.S. Virgin Islands and traffic between such offshore U.S. points and foreign points. The Commission did not amend subparts (1), (2), or (3) of Section 43.61(a).

Form No.: N/A.

Number of Responses and Respondents: 75 respondents and 75 responses.

Estimated Time per Response: 1 hour–50 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general there is no need for confidentiality with this collection of information.

Needs and Uses: On May 12, 2011, the Federal Communications Commission adopted a First Report and Order and Further Notice of Proposed Rulemaking (FCC 11–76) in Reporting Requirements for U.S. Providers of International Telecommunications

Services, Amendment of Part 43 of the Commission's Rules, IB Docket No. 04–112 (rel. May 13, 2011). In the First Report and Order portion of that document (First Report and Order), the Commission amended the international reporting requirements in Section 43.82 that requires carriers annually to report the status of the international transmission circuits they owned or leased on December 31st of the preceding year. In the First Report and Order, the Commission also eliminated the circuit-addition report in Section 63.23(e) of the Commission's rules.

In the First Report and Order, the Commission retained the annual circuit-status report contained in Section 43.82, but eliminated the requirement that filing entities separately report circuits between the conterminous 48 states and offshore U.S. points such as Guam and the U.S. Virgin Islands and circuits between such offshore U.S. points and foreign points.

In the First Report and Order, the Commission also removed the requirement that filing entities file the circuit-addition report in section 63.23(e) of the rules. The Commission found that the section 43.82 annual circuit-status report provides enough information so that the circuit-addition report is no longer necessary. Section 63.23(e) required carriers that have been certified to resell international private lines for the provision of telecommunications services to file each year the number of private line circuits they added and the service for which they were used. The Commission required this report because such service provider did not file the annual circuit-status report. The underlying carriers that provide the private lines that the resellers are using are required to report those circuits in their annual circuit-status report. As a result, we have a record that the circuits are used and do not need for the resellers also to report the same circuits.

Federal Communications Commission.

Secretary, Office of the Secretary, Office of Managing Director.

Section 2794(c) requires the Secretary to establish Premium Review Grants to States to assist States to implement this provision.

The U.S. Department of Health and Human Services (HHS) released the Rate Review Grants Cycle I funding opportunity twice; first to States (and the District of Columbia) in June 2010 and then to the territories and the five States that did not apply during the first release, (http://www.hhs.gov/ociio/initiative/final_premium_review_grant_solicitation.pdf). The second release was due to the decision that the territories were subject to provisions of the ACA and hence eligible for the Rate Review Grants. 46 States and 5 U.S. territories plus the District of Columbia were awarded grants. CCIIO is seeking to publish the Cycle II Funding Opportunity Announcement and associated grantee reporting requirements consisting of (4) quarterly reports, rate review transaction data (quarterly), (1) annual report per year, and (1) final report from all grantees. This information collection is required for effective monitoring of grantees and

to fulfill statutory requirements under Section 2794(b)(1)(a) that requires grantees, as a condition of receiving a grant authorized under Section 2794(c), to report to The Secretary information about premium increases. *Form Number:* CMS-10380 (OCN: 0938-1121); *Frequency:* Annually, On Occasion; *Affected Public:* Public Sector: State and Territory Governments; *Number of Respondents:* 107; *Number of Responses:* 1,075; *Total Annual Hours:* 42,872.
